EXTRACT from Inspector's Report on the Whycocomagh school.

OTTAWA, 9th January, 1904

The Deputy Superintendent General:-

Mr Public School Inspector McKinnon, in his last report on the Whycocomagh school, recommends that the salary of Mr McLennan, the teacher, be increased. This is a large school and the Department has lately put up a first-class building and Mr McLennan, who has had charge of it for the last year, is doing well. His present salary is only \$250.00, which is a very small sum and should, I think, be increased to at least \$300.00. The teachers of Indian schools in Nova Scotia have lately lost the local Government aid. Of the ten schools in Nova Scotia, seven of the teachers already receive \$300.00 from the Department, which is, I think, the lowest salary we should offer to any of your schools.

Dear Sir,

Enclose Mr Mac Lennan's returns for
Indian School, Wlycosomagh Reserve, for
quarter ending March 31st / 00 & 01. Please
forward Mr Mac Lennan's cheque to
Wlycosomagh C.B. The Teacher reports
an epidemic of measles in the vicinity and
both Inspector MacKinnon who resides
at Wlycosomagh and Dr H.M. MacKinnon
suggest the closing of the school. Mr Mac
Lennan says that the parents don't feel
like sending their children to school and he
asks my advice in the matter. As the
measles may possibly be the little
edition of small-pox that we have in this
County I am advising Mr Mac Lennan to
close the school. I do this as I am notified
from another quarter that small-pox is
supposed to be in Mr Mac Lennan's boarding
house. I presume above your authority.

Dept. of Indian Affairs

Dear Sir,

Your letter has suddenly filled me with a fullness of myself. Really I must be next to Mahomet, so great have I suddenly become. You say that if the member's appointee, "holds the necessary qualifications he may be appointed," to teach the Indians, nothing, to draw his salary, "namely \$300. per annum." Are any other qualifications needed besides holding the good will of the responsible member for the district? If so please let me know what they are since you impose upon me the onus of finding out whether the man "holds the necessary qualifications". Herein I find my greatness. On the other hand I find that there is an Indian Agent above me in this County else I should be advising you of Mr Mac Lennan's resignation and not you me. Of course there is no good blood between me and our representative since I put him in the hole a few years ago. Anyway he is Master of the administration in this County at least so he has his fling. May he prosper. He told a man that would not tell me a lie that when he asked for anything in Ottawa he had to go to it, He would make them give it. Another man told me that a member of Parliament told him that our man took off his coat to the Minister of Militia over the appointment of militia officers. ^{you are under orders like the rest of us and must do this bidding as one of those in authority} success to his arm. In the present case you do more for me than in a former one of a similar kind. you give me the new teacher's address. Surely the doctor's

nephew is not going to quit ~~for~~ before finishing up the summer grant as the long holidays would therefore go unpaid for. So that possibility of his finishing this term gives us plenty time to find out what you consider necessary qualifications. You have my mind already. All that is needed is the favour from M.F. I am glad that Mr MacLennan is through. One must be a conscientious worker to keep up interest in such a school. For my part I ~~can~~ take little or no interest in the work for I find myself dealt with so severely that I have no heart in trying to improve things. I get no cooperation from those who should stand by me. When I was going to college I happened to be picked upon as a prefect in the studies more than one year. I found that I could not control the boys as I thought they should be controlled. I applied as other prefects had to do, to the Vice-rector to whose care discipline belonged. With his support I found everything moving smoothly but if he took but little real interest in the matter I shed out a miserable existence and discipline was below par. When we got no support as with a change of vice-rector we sometimes did we tried to hobble through somehow. If our work suited them we could do nothing better than suit them. If my work suits you all well and good. I believe I can do more for the Indians, even handicapped as I am, than almost any other person within easy distance of them. Otherwise I should throw the agency sky high to those who are strong enough to get it.

River Bourgeois, N.S., June 21, 1909

Sir, — 347545

Complaints having reached me about the Indian School at Whyecoomagh, Inuvik Co., and being within reasonable distance of it on the 10th inst., I decided to visit it and endeavour to ascertain the cause, if any, for grievance.

A year ago, almost to a day, I inspected the school for the first time, and while the teacher, Mr. Daniel J. Gillis, an entire stranger to me, did not impress me favourably at all, the few pupils in attendance — I think there were six — gave evidence that some one had taught them to read indifferently, and write fairly well, besides the bare rudiments of arithmetic and geography. But I was not in a position to make comparisons with regard to the standing of the school then and at any previous period. When I inspected it again on the 10th inst. seven pupils were present, and a few tests of their attainments revealed the fact that no progress whatsoever had been made during the year. The teacher could not deny that such was the case, and said that irregular attendance, due to carelessness on the part of parents, was the cause. His statement, was correct in a measure; but I am disposed to agree with the Indians of Whyecoomagh who assert that it is almost, if not quite, useless to send their children to the school while it is conducted by the present incumbent. They assert further that it has retrograded under his management.

I am convinced that Mr. Gillis does not possess the qualities necessary for a successful teacher

in any school, much less, an Indian school. His expression is that of a person not well balanced in mind; and he is evidently of a nervous, excitable, temperament.

I am altogether of opinion that the salary paid him by the Department is money not spent to good advantage; and in the interests of education among the Indians of Whycosmagh, who are naturally rather intelligent, I feel that there should be a change of teacher. My personal concern in the matter is only that of official duty; and I should like the Department to ascertain what the agents' views are on this subject.

Mr. Pedley,-

Mr. Inspector Boyd has sent in a special report on the Whycoomagh school, which is in charge of Mr. Daniel J. Gillis, who was appointed in 1905 at the instance of Mr. McLennan, then M.P. for Inverness.

Mr. Boyd does not hesitate to say that he considers that a change of teacher is necessary, as no progress has been made and Mr. Gillis is not possessed of the qualities necessary for a successful teacher of any school, much less an Indian school.

Dear Sir:

This is the time when
Teachers are applying for schools — i.e.
the Teachers in N. Scotia. 348574

I have never noticed the names of any
of the Whycocomagh Indians as successful
Candidates at Prov. Examinations. Can
this be due to defective training?

I am a Grade B Teacher with a First
Rank, N. Sch. Diploma. I thought as the
Gov. is expending lavishly on the Indian
that a Normal School Graduate would
be the proper person.

Might I ask how much do you pay
Teachers per annum? Please take
my name down as a probable applicant
and if I be chosen, I think I can teach
the young Indians up to Grades 12. X
which is no doubt the wish of the

To Whom it may concern: -

This is to certify that the bearer,
Miss Margaret A. Murphy, a teacher of
Class 'C' of the Province of Nova Scotia, with
a Normal College training, has been known
to me from her childhood, and I can bear
testimony to her being a young lady of
irreproachable moral character.

Miss Murphy has taught schools in
the division under my supervision for
several years past, and always gave good
satisfaction to her employers as well as
to myself as inspector.

I therefore take pleasure in recom-
mending her to any Board of Trustees
requiring the services of a teacher of her
class.

In your last telegram you say
you are going to await information from me
before making further progress in the matter of
dismissing the Indian teacher at Weycomagh, in
this County.

Would you please let me know what are the complaints
against Gills - the present teacher & who is the complainant?
If the charges against Gills are such as will necessitate
his removal I certainly protest against engaging Miss
Murphy. I think, as the representative of the County, and
as a school teacher myself I should be as well
able to recommend a fit person as the parties who
are evidently attempting to represent this County. I
must also observe that I received very scant courtesy
indeed in this matter. However, I do not intend to
be brushed aside that easily by pigmy politicians such
as I am suspicious had to do with getting this
Miss Gills Murphy engaged as teacher at Weycomagh.
Would you kindly give me Hon. Mr. Olm's present
address.

Sincerely yours

Dear Sir

Marjorie Mather Aug 4, 09

Your last telegram states that the "Department would postpone action" in dismissal of Gillis, Indian teacher at Whyeacoomagh & appointing a successor until full information would be received from me. I may say that in my opinion I received very scanty & unsatisfactory information in the matter of appointing a successor to Gillis & I certainly must insist that my recommendation to fill the vacancy must be respected. I have a very clear idea now why Gillis was dismissed. A determining effort was made to make a place for Miss Murphy. The quickness with which it was all done & that without my knowledge is a pretty strong evidence that something shady was being done.

I know Mr Gillis very well & am of opinion that he is an intelligent school teacher, well suited to the Indian school at Whyeacoomagh. However, I am willing that he be removed if there is cause. I therefore ask you to let me know without delay who applied for his dismissal & on what ground. I may have something to say about the future heads who are undertaking to look after Inco's affairs. I claim to have at least as clear an idea of what is necessary for that school as the man who evidently is in search of a job for Miss Murphy & it will not remain quiet & see a man like Mr Gillis removed, until I am convinced that he has deserved such treatment. When this happens I will name a successor.

Ottawa, August 9, 1909.

Sir,-

I have to acknowledge the receipt of your letters of the 1st and 4th inst., asking for information regarding the dismissal of Mr. Daniel J. Gillis, teacher of the Whyecocomagh Indian school and the proposed appointment of Miss Margaret A. Murphy as his successor.

In reply I beg to say that Mr. Gillis' services were dispensed with on the strength of a report received from Mr. A.J. Boyd, Indian Superintendent for Nova Scotia, who stated that his inspection of this school revealed the fact that no progress whatever had been made during the year which intervened between his previous inspection and that he was disposed to agree with the Indians, who assert that it is almost, if not quite, useless to send their children to the school while it is conducted by the present incumbent. They say that it has retrograded under his management. Mr. Boyd further stated that he is convinced that Mr. Gillis does not possess the qualities necessary for a successful teacher of any school, much less an Indian school. He concludes by saying that he is altogether of opinion that the salary paid Mr. Gillis by the Department is money not spent to good advantage and in the interest of education

education among the Indians of Whyocoomagh, who are naturally rather intelligent, and he feels that there should be a change of teacher.

In view of this report nothing remained for the Department to do but secure the services of another teacher and Mr. Boyd was instructed to obtain a properly qualified teacher at once, so that no delay might occur in reopening the school after the summer holidays. Mr. Boyd forwarded an application from Miss Margaret A. Murphy, of St. Peter's, N.B., accompanied by a certificate from Mr. J.T. MacNeill, Inspector of Schools, who stated that she was the holder of a certificate, Class C of the Province, with Normal training, who was known to him from childhood as a young lady of irreproachable moral character. The Inspector further stated that Miss Murphy had taught school under his supervision for several years past and always gave good satisfaction to her employers as well as to himself as Inspector and that he had great pleasure in recommending her to any Board of Trustees requiring the services of a teacher of her class.

In reply to your enquiry as to the present address of Mr. Oliver I beg to say that, as he is expected to return from England shortly, a letter addressed to him at Ottawa will reach him most expeditiously.

Memorandum.

Mr. Oliver.

Re Whyoccomagh Indian School.

I beg to submit herewith a statement regarding the dismissal of Mr. Daniel J. Gillis, teacher of the Whyoccomagh Indian school and the proposed appointment of Miss Margaret A. Murphy as his successor.

Mr. A.J. Boyd, Indian Superintendent for Nova Scotia, reported on the 31st June, last, that, owing to complaints which had reached him about this school, he made a special visit, in order to ascertain the cause, if any, for grievance. He had inspected the school a year previous, and he states that, while the teacher, an entire stranger to him, did not impress him favourably, he was not then in a position to make a comparison with regard to the standing of the school, but on his second visit a

few tests of the pupils' attainments revealed the fact that no progress whatever had been made during the year, a condition which the teacher did not deny but claimed that irregular attendance due to carelessness of parents was the cause. Mr. Boyd admits that the teacher's statement was correct in a measure but that he was disposed to agree with the Indians of Whyoccomagh, who assert that it is almost, if not quite, useless to send their children to the school while it is conducted by the present incumbent. The Indians further assert that it has retrograded under Mr. Gillis' management.

Mr. Boyd says that he is convinced that Mr. Gillis does not possess the qualities necessary for a successful teacher in any school, much less an Indian school. His expression is that of a person not well-balanced in mind and he is evidently of a nervous, excitable temperament.

Mr. Boyd concludes his report by stating that he is altogether of opinion that the salary paid by the Department to Mr. Gillis is money not spent to good advantage and in the interests of education among the Indians of Whyoccomagh, who are naturally rather intelligent, and

feels that there should be a change of teacher.

In view of this report the only course open to the Department was to dispense with Mr. Gillis' services and secure another teacher, and Mr. Boyd was instructed to take the necessary steps to secure a qualified teacher for this school, so that it might be reopened after the summer holidays, applications received by him to be submitted to the Department for its approval, with certificates of qualification and character. (Instructions dated July 2).

On the 23rd of that month Mr. Boyd forwarded an application from Miss Margaret A. Murphy, of St. Peters, N.S., accompanied by a certificate from Mr. J. P. MacNeil, Inspector of schools for the district, who stated that she was the holder of a certificate, Class C of the Province, with Normal training, and known to him since childhood as a young lady of irreproachable moral character. He further said that Miss Murphy had taught school under his supervision for several years past and always gave good satisfaction to her employers as well as to himself as Inspector and that he had great pleasure in recommending her

her to any Board of Trustees requiring the services of a teacher of her class.

The Department had decided to appoint Miss Murphy but, owing to Mr. Chisholm's protest, action was deferred.

With regard to Mr. Chisholm's claim to have the right to recommend a successor I may state for your information that it is not the practice of the Department to refer the appointment of teachers of Indian school to Members of Parliament. The usual course was followed in this instance, and, had it not been for Mr. Chisholm's intervention, Miss Murphy would have received the appointment at the usual salary of \$300.00 per annum, and the school would have been reopened on the 16th inst.

Sir,-

I have to acknowledge the receipt of your letter of the 4th inst., advising the Department that you will be ready to take charge of the Whycoomagh Indian school as soon as the painting is finished.

In reply I beg to say that this is satisfactory to the Department. As you are probably aware the attendance at this school for some time past has been very poor, and the Department trusts that you will be able to effect a great improvement in this respect. In this connection your proposal to become acquainted with the Indians is commendable, as one of the primary conditions of success is the obtaining of the good-will of the parents. In other ways also personal visitations in their homes will prove of benefit, as it will show to them that you are interested in their welfare, as well as that of their children.

As to ways and means of interesting the children in their school work nothing need be said, as you are an experienced teacher. The Department trusts that you will meet with a large measure of success in your new field and will be glad to hear from you at a later date.

The Secretary,

Department of Indian Affairs,
Ottawa.

Dear Sir,

With regard to Education among the Indians of this Agency I have only this to say. Nothing your Department has done for the Indians under my care, in this line seemed to have any other end than to please the representative for the County and hence School keeping has generally been a farce, that has nevertheless provided a sitting down job at a lazy man's salary for some party, storm beaten heeler. This accursed political expediency is sapping the vitality of our young Empire and in your policy with regard to the Indian schools you worship the totem on bended knee, at least in this County.

If the Department has any confidence in me as its agent it ought to defer to my opinion in preference to any other until it became convinced by proper investigation that I was not capable to represent it. Then I should be replaced. The Department knows well that it has no more conscientious employees than the Catholic Clergyman. We work to please God. I have taken such interest in the Schools of this County that the Local Government appointed me to a special Commission to investigate their condition, report thereon and suggest reforms or improvements. Only last night a School Inspector of the Mainland wrote me for my opinion on a matter affecting schools. In spite of everything I am to have no hand in training those poor Micmac children who are as dear to me as my heart's blood. Since I took this Agency I can't say that much improvement was made

Ottawa, April 18th., 1910.

Reverend Sir,-

I have to acknowledge the receipt of your communication of March 31st which, although in reply to a request for special report for publication in the Annual Report, is a criticism of the official course with reference to Indian education within your Agency. You have entirely failed to recognize the improvements which have been made during the past year. Following a report made by you on the 16th. of July 1907, the Department erected a commodious school building on the Malagawatch Reserve and has appointed a competent teacher at that point who appears to be taking a great interest in his pupils. Is it possible that you have not visited the Reserve and seen these improvements which were based on your own recommendation? The former teacher at Whyocoomagh has also been replaced and a competent teacher has been engaged who has since the summer holidays largely increased the attendance and stimulated the interest of the Indians in educational matters.

You ask the question whether you are to have no hand in training these poor Mic-Mac children. If you stand aloof from the means employed to train them, the answer must be in the affirmative but if you take an active interest in these matters and assist the Teachers with your advice and encouragement, there is no doubt that their efficiency will be materially increased.

Too great stress can be laid upon the evils of the system of political patronage. This system becomes vicious only when men

Sir, - At the earnest solicitation of a large number of the adults on the reserve here I have consented should the Department concur to open a night school here after my return from my Christmas vacation,

They would like to attend school so as to learn to read and write; besides a great deal of good will accrue from teaching them habits of cleanliness and the laws of health generally. Sir:-

I beg to submit to the Department the enclosed application by Mr. John A. Gillis, Indian Teacher, Whycocomagh, N. S., to open a night-school for the benefit of the adult Indians of that place.

As you may be aware, Mr. Gillis has taken a very active interest in everything tending to promote the welfare of the Whycocomagh Indians since his incumbency as teacher of their day-school. His efforts in their behalf have met with a large measure of success, and he can justly claim for his exertions the rare merit of being uninfluenced by selfishness.

I have faith in Mr. Gillis's proposition, and believe he must see that a night-school conducted for the Indians of Whycocomagh would be productive of good results. I am acquainted with no Indian Settlement in Nova Scotia where conditions are so favourable as at Whycocomagh for successfully conducting a school of that kind; and, all things considered, I have much pleasure in recommending his application to the favourable consideration of the Department.

Sir,

Mr. Superintendent Boyd has forwarded to the Department your communication of the 5th instant in reference to the establishment of night classes on the Whycoconagh Reserve.

In reply I beg to say that the Department has decided to try the experiment of conducting a night school on the Whycoconagh reserve from January 3rd to March 31st, next. Instruction should be given by you for 2½ hours for ~~three~~ evenings a week and you will be paid at the rate of 50 cents per hour. These classes are instituted for benefit of those who are not in a position to attend in the day time and for a time at least the Department would like to have from you weekly reports in which you should deal with the attendance, work performed, success attained, etc. The necessary stationery will be supplied you upon ^{ask} requisition and you should also ~~request~~ for any other requisite articles to properly carry on your work. At the end of the quarter, if the classes are continued that long, a complete return on the usual form should be submitted to the Department when payment of the salary due you will be made.

I beg to say that I will open a night school on the reserve in conformity with your instructions as soon as I get back to Lohscroome which will be on Monday Jan 8th.
Would you kindly forward me the necessary report blanks etc.
With reference to yours of the 20th re the pictures of their Majesty King George V and Queen Mary, I beg to say that I had them framed and hung in a conspicuous place in the school room as soon as I received them. I also received the Manual of Calisthenics and have exercises every day the weather permits. Through an oversight in my part and the press of other matters I forgot to make the necessary returns but will attend to it immediately on my return.
I also opened a bureau through the kindness of Messrs John Tobin & Co. ^{Halifax N.S.} for the distribution of handkerchiefs, butter tubs, etc manufactured by the Indians and I have received some orders already which I am going to have filled on my return. In this way I hope to enable the poor people self-sustaining.

Sir,

I have to acknowledge the receipt of your very interesting report upon the night school on the Whycocomagh reserve for the week ending January 27th.

In reply I beg to say that the programme followed by you meets with approval and the enrolment also is very satisfactory. It is also noted that none of the young women on the reserve attend this school and the Department considers that it would be to their advantage to do so. You will, therefore, endeavour to have as many as possible of them enrolled. Further reports from you will be gladly received.

Referring to your letter of Dec. 15, 1910

No. _____

I wish to say that the effect of the school at Malogawatch is so far inappreciable. This is not strange. Only seven names are on the roll and the attendance mode is poor. While the attendance at Whyeocomagh last year was encouraging, this year it is not near so good. If something could be done to make children attend better some results might ensue. I think if Simon Baquer, Captain of the Band at Whyeocomagh were appointed with a salary of about \$40 a year ~~thirteen~~ as trust officer and constable for the band it would do more good than anything else into which the Department would put as much money for the benefit of the schools of this agency. Although there has been school at Whyeocomagh since away back the influence on the people was nearly nil. If I gave you my opinion as to the wherefore you would say I was knocking again.

Rev. Sir,

I have to acknowledge the receipt of your letter in reference to the attendance at the Whycocomagh Indian school.

In reply I beg to say that the returns for the past year show a decided improvement in the enrolment and average attendance at this school and it is hoped that Mr. Gillis will be able to maintain the same. I may say that the Provincial School Inspector, in his last report on this school, spoke in very complimentary terms ^{of} ~~am~~ the improved conditions on this reserve since Mr. Gillis took charge. GENERAL REMARKS.

X X X

I think that some regulation should be in force which would compel the children to attend school more regularly and punctually. The readers now in use, are, in my opinion, too hard for pupils of their mental calibre. I think that the "Nova Scotia Series" prescribed for the Nova Scotia public schools would be more suitable. I would also suggest that the teacher be instructed to give a lot of time to the "Conversational" method of teaching English in order to develop a facility of expression. A good text, as an aid, is the "Berlitz Method of Teaching English."

Ottawa, December 12, 1912.

Mr. ~~Podley~~, -

In reply to your memorandum of yesterday's date in reference to the establishment of a night school at Whycocomagh I beg to say that a night school was conducted for 36 nights during the winter months of 1911. The attendance was fairly satisfactory, but a number of the Indians were advanced in years. While the average attendance was very fair, being 22 out of 28, this is accounted for by the fact that a number of the Indians were very regular, at the same time there were several who did not show by their attendance any great interest in the school.

No request was made for the establishment of the school last winter and when a number of the Indians made application last month, asking that a night school be established from January 1st to May 1st, 1913, the Department advised them that it did not consider that it would be of any great benefit to them. One of the reasons for taking this attitude is the fact that none but male members of the band are allowed to attend the school. If
the

the women might be allowed to attend and obtain advantage from the instruction that might be given in hygiene or if practical lessons could be given them in some of the branches of domestic science, I think that the night school might be of benefit.

The Indians on this reserve have not in the past evidenced a proper interest in the work of the day school, although there is a good teacher in charge, and a number of the men who attended the night school were married men. I may say also that the teacher did not furnish reports regularly, as asked for, and the Department for that reason is not fully aware of the work that was accomplished during the season that the school was in operation. However, if it is the wish of the Department to conduct a night school the experiment might be tried again for three months on three evenings each week, the remuneration to be at the rate previously paid, viz.- 50 cents an hour.

At the request of the Indians the Department has decided to have a night school conducted on the Whycomagh Reserve during the months of January, February and March only for three evenings each week, the session to be two hours from 7 to 9. For this you will be remunerated at the rate of 50 cents per hour. You will note that the session has been reduced from two and a half to two hours. When the night school was conducted two years ago the Department asked for weekly reports, but these were not sent regularly. This year you will be required to send reports at least every two weeks.

Report of Inspector James MacKinnon on Whycohemagh School.

School inspected on November 25th. 1913

441309

The chief drawback to the progress at the school is the irregularity of attendance. Next comes the lack of interest in the work on the part of both parents and children. Indeed the former condition is due in no small part to the latter. As already - already indicated there is scarcely any parental control over the children-that is to say it is scarcely ever exercised either in school or any other matters. Consequently, notwithstanding the earnest efforts of the teacher, I cannot report satisfactory progress. The sanitary conditions in the homes altho considerably better than in former years afford room for great improvement. At school the teacher insists on the observance of the ordinary rules of sanitation but once beyond the jurisdiction of the teacher the children seem to forget. I am of the opinion that if the children are to make any material progress in education they must be separated from their parents and put into an institution where the teacher can have full control over them during the whole term. At any rate the present system is a failure as evidenced by the fact that to my knowledge none of the Indians' schools under my observation has produced within fifteen years a single scholar capable of writing an ordinary letter correctly or able to converse on ordinary topics in passably good English.

Rev. Sir,-

Mr. Inspector McKinnon in his report on the Whytecomagh School lays particular stress on the lack of interest in the school by both parents and children and states that so long as the parents are indifferent to the education of their children no satisfactory progress can be made despite the earnest efforts of the teacher.

The Department would like you to impress upon the Indians the necessity of sending their children regularly to school. There is a truant officer appointed for this school and you should see that he performs his duties faithfully.

I have to acknowledge the receipt of your letter of the 27th ultimo enclosing a communication from Capt. Gaberil Silliboy of the Whyoccomagh Band in which he states that the school has been closed on several occasions for long periods during the past quarter.

It is noted that you have made no comment on this statement of Silliboy's and the Department would like you to report as to its correctness. If the school was closed you should state the reasons.

Sir,-

I have to acknowledge the receipt of the March quarter return of the Whyccomagh Day School, also a return showing the attendance at the night school for the same period.

With reference to your salary as teacher of the day school the Department is withholding payment for the seventeen days which this school was closed on account of your illness. If, however, you forward to the Department a doctor's certificate stating that you were unable to teach during these seventeen days the amount of salary withheld for that period will be sent you. You will be good enough to attend to this matter at once.

Your returns shows that you closed school four days during the above quarter on account of the school-house not being scrubbed. The Department considers this a trivial excuse and will expect you in future to keep this school open regularly.

With reference to the return of attendance that you have forwarded for the night school the Department is unable to arrive at the amount due you for this service from the return sent. You will be good enough to state the number of nights which you conducted this night school and

Sir: I have to acknowledge the receipt of your letter of the 8th inst #103167/r and in reply I wish to say that the meaning that I wished my return for the night school at Whycocomagh Indian Reserve to convey was that I taught 12 ^{nights} ~~days~~ and two hours each night making twenty-four hours in all. By 37 nights I meant there was 37 teaching nights in the quarter. According to instructions received from Rev. D. McPherson Indian Agent I was to keep the school open two hours each night for which I was to receive fifty cents per hour.

With regard to the four days school was closed waiting for it to be scrubbed, I may say that it is a custom among the Indians here and elsewhere among the *Kric-macs* for everyone to take their meals together Christmas day and the day after and also at Easter so that the condition of the school room after one of these "Tabagies" had better be imagined than described, for with grease remnants of bread and Tobacco the filth on the floor is usually an inch thick. The Rev. Agent and myself made it the burden of our lay to point out to them the danger of spitting on the floors of the school and houses but we might as well "talk to the moon".

Replying to your reminding letter of June 4, 1914, I wish to say that I wrote your Department a few months ago concerning the Francis Bernard Trusteeship of the Whycocomog School. I never knew of the office of such Trusteeship till this came up and so far I know nothing about the matter. I can't say anything except what the Indians said in a letter I sent on to your Department. It appears that some of the Whycocomog Indians are dissatisfied with how School keeps and they appointed Bernard with apparently plenipotentiary powers to fix things right.

In a recent report on the Whyccocomagh Day School, Inspector James McKinnon states as follows:- The method of teaching and management of the school employed by the teacher are among the most approved but in circumstances so depressing as those with which he has to contend, little progress may be expected. The parents are not enthusiastic about the education of their children and in some cases are opposed to it. This necessarily means irregular attendance of the children."

The Department would like you to point out to the Indians the value of the educational facilities provided for their children. You should also encourage them to send their children to school regularly. You will be good enough to appoint a competent person as truant officer and instruct him to see that all children of school age on the reserve attend school regularly.

Sir,—

Referring to your letter of the 17th. ultimo, I regret having to corroborate Mr. Inspector McKinnon's report, which, if he had known the facts, might have been qualified by the statement that Indian parents at Whycocomagh, as I am convinced, should be able to accomplish more than they are doing in providing their children with food and clothing.

It appears to me, as it must to you, that instead of becoming self sustaining, Whycocomagh Indians are getting to be more dependent on the Department for support; and I begin to believe that they would rather live by scheming than by honest labour. At any rate, there can be no doubt that the majority of them might be better off than they are, and as a proof of this statement, I may say that, when I visited Whycocomagh reserve a few days ago, I found Charles Tony, a young man 33 years of age with a wife and two children - all enjoying good health, in very destitute circumstances; while his neighbor, Noel Gould, with a wife and five children had full and plenty for his family. They have exactly the same opportunities, so far as I could discover, with an advantage in Tony's favour, because he has only four in family, whereas, Gould has seven.

There is no good reason why Tony should not

be as well circumstanced, at least, as his neighbour, and I have an idea that he might be, if he were given to understand that he must either work or go hungry. There is plenty of employment in Cape Breton this year, perhaps not always at one's door, but certainly within reasonable distance, as Noel Gould's case shows.

However, there is no doubt also that several children on almost every reserve in Nova Scotia are unable to attend school in winter for want of shoes, stockings, and other articles of clothing - a condition of things for which they are in no wise responsible, and I am disposed to recommend in every case an expenditure for their benefit.

With regard to Whycocomagh reserve, I recommend an expenditure of \$40.00 to provide shoes, etc. for children of school age in need. I would also recommend the usual midday lunch of biscuit and cheese for pupils of Whycocomagh school as an experiment.

Sir:-

I am in receipt of your letter of the 17th instant, making report relative to the children attending school on the Whyocemagh Reserve; and in reply I beg to say, with regard to their requirements in the way of clothing, that the Department is of opinion that it would be to the interest of the Indians generally if they were obliged to provide clothing for their children, under all ordinary circumstances, instead of relying upon the Department to come to their aid. I may say that in view of your recommendation that \$40.00 be expended in the purchase of clothing for the most needy of the children the Department will allow expenditure to that amount for the purpose stated. This matter is left in your hands, but it is expected that ~~you will~~, from this time on, *you will* endeavour, along practical lines, to make the Indians generally rely upon their own exertions to provide clothing and other necessities for their families. As above intimated the Department agrees with you that such a course will result in benefit to the Indians.

With regard to the case of Chas. Toney there would seem to be no doubt that this man is under the impression that the Department will come to his rescue in granting relief whenever he is in need and that he is thereby relieved from the necessity of work. You should disabuse his mind ~~from~~ this idea. It is hoped that you have not been too lenient in the past in dealing with ~~these~~ cases of this nature.

Sir,

Delay in acknowledging receipt of your letter of the 19th. inst. is due to my absence from headquarters recently on official business.

On an earlier occasion, while I was in Halifax, Mr. Richardson spoke to me about the Whycocomagh school, and I advised him to make application for it direct to the Department, so as to avoid delay, believing that he would be recognized at once as the highly efficient teacher of Tuft's Cove Indian school, which evidently cannot be kept open much longer, and I was most anxious to retain the services of Mr. Richardson, who, I have no hesitation in saying, is the most competent and successful among the Indian teachers of Nova Scotia, if not of the Maritime Provinces.

His qualifications cannot be questioned, and ~~xxx~~ they have already been recognized by the Department, as intimated above, it having employed him for several years past as Indian Teacher at Tuft's Cove; and I do hope it will not hesitate to retain his services by transferring him to the much more important position of teacher at Whycocomagh reserve.

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 13th, instant, in which you inform the Department that the Whyccomagh day school has been closed since November 1st.

As you were advised in official letter of the 2nd, ultimo, the Department expected Mr. Richardson to take charge of this school, as soon as Mr. Gillis left, but, apparently he has not done so.

The Department is to-day writing to both Mr. Richardson and Supt. A.J. Boyd and it is hoped that there will be a teacher at Whyccomagh to reopen the school on January 3rd, 1917.

Sir,-

The Department is advised by Mr. Acting Agent McLennan that you have not yet taken charge of the Whyccomagh day school.

The former teacher, Mr. Gillis, left that school about November 1st and if you refer to official letter of the 2nd, ultimo, you will note that the Department expected you to take charge of this school as soon as Mr. Gillis left.

As it is important that there should be a teacher at Whyccomagh on January 3rd, 1917, to reopen the school after the Xmas holidays, the Department is anxious to hear from you, at once, if you intend to take charge of this school.

An early reply is expected.

Sir,-

In a letter dated December 13th, Mr. Acting Agent McLennan informs the Department that Mr. G. F. Richardson has not yet taken charge of the Whytecomagh school, and as a result the school has been closed since November 1st.

As this school should be opened on January 3rd, 1917, you will be good enough to get in touch with Mr. Richardson and find out if he intends to take charge of this school on that date.

If he does not intend to take charge, you should make inquiries towards securing a teacher and forward any applications, accompanied by certificates and recommendation, if any, for the Department's consideration.

As the Department is very anxious to have a teacher take charge of this school on the date above mentioned, you will be expected to give this matter your immediate attention.

Dear Sir:

I beg to acknowledge receipt of your letter of Dec. 18th in reference to Whycocomagh day school.

I have been considering the question of me going there and I find it would be impossible for me to live on the salary the Department offered. I have written Mr A. J. Boyd (Superintendent) telling him I would not accept the school.

I did not know Mr. Gillis had left, as I thought he would finish the December Quarter and as I had not received any word from Agent. I thought he was still there.

I trust the Department will appoint a young and active teacher for this school, one who is not afraid of work. Every year a number of children come from this school to me and after attending school from three to five years it should not be necessary for me to teach the child its letters.

Dear Sir:

Mr. John Gillis, one time Indian Teacher at Whyccocomagh in the County of Inverness sent me a letter which he received from the Assistant Secretary, Mr. Stewart and dated November 7th, 1916; No. 103167-3. Mr. Gillis complains that you were not treating him fairly in connection with his final payment. If you were paying him from time to time along the rate of wages mentioned in the Assistant Secretary's letter, I do not quite understand why he would not be paid in full for the last year or half year that he taught according to that rate of salary which you allowed him. A school year is a school year including the holidays and when one is paid by the year for teaching school in Nova Scotia, that includes of course that he is paid for the holidays as well as the rest of the time. I have no doubt but Mr. Gillis sent his statement of facts to the Department and I trust you will look into it carefully and see that he is paid all that is coming to him.

With kind regards, I remain,

Yours truly,

Dear Mr. McKensie -

I have your letter of the 21st instant, in reference to the salary of Mr. John Gillis, formerly teacher of the Whyteemagh Indian School.

I have looked up the records and I find that Mr. Gillis had been paid for his services in full to the end of the school year, June 30th, last, and taught to the end of October. He will be paid that proportion of the annual salary which the number of days he taught bears to the total number of teaching days in the year, namely 200. We do not take the holidays into account in payment of our teachers.

If a teacher puts in the full year he gets the full year's salary; if he is engaged only a portion of the year he is paid for the actual time that he worked on a basis of 200 days to the year.

When a change of teacher takes place

during the year and the annual salary has to be

Sir,-

Anticipating your letter of the 18th. inst., just to hand, I wrote Mr. Richardson on the 21st., asking him to let me know without delay whether he intends taking charge of the Indian school at Whycocomagh or not. I should have his answer not later than the 26th., and shall communicate it to you as soon as received.

Meantime, kindly advise me if the Department will insist on engaging only a duly qualified teacher for this school - that is, one holding a Certificate of Scholarship and Normal School Diploma.

I am not aware of any teacher available at present that I would care to recommend for the school outside of Mr. Richardson. Should he finally decline to accept the position, I think it will be on account of the salary attached to it, which he finds is not adequately remunerative. He is a superior man, as teacher, and I am disappointed that he did not take charge of the school promptly.

I regret not having been able so far to get in touch with any teacher, whom I could recommend, to take charge of the school at Whysoomagh.

Perhaps I should inform the Department that certain politicians in this island of Cape Breton contend that this position should be filled by a person belonging to Inverness County, and I happen not to be acquainted with any of the successful teachers belonging to that division.

Sir.-

I beg to acknowledge the receipt of your letter of the 20th. inst., and to advise you that Mr. Richardson notified me by wire on Saturday that he had decided to accept the position of teacher of the Indian school at Whycoocomagh at the increased salary of \$500.00 offered him by the Department, but otherwise unconditionally.

I propose to meet him at Orangedale tomorrow, and to place him in charge of the school on the following day.

Extract from the educational report on the Inverness
County Agency for the present year. Rev. J. N. McLennan,
Acting Indian Agent. Report dated February 2, 1917.
Original on 160370/23E.

The school at Whycocomagh is a fine building,
in good repair, well equipped and comfortable. This
school was in charge of Mr. John A. Gillis, who resigned
as Indian teacher on the first of November, 1916. It
remained closed until the first of February, when it was
opened by Mr. G. F. Richardson, who was Indian teacher at
Tufts Cove, Halifax County, for a number of years. He,
however, left in two weeks time, and the school is now
in charge of Mrs. Annie McNeill, who taught in the Malaga-
watch School.

Dear Mr. Boyd:

This is certainly some place -
a fine spot to live. If I remain here
much longer I will be a fit subject
for an Indiana House.

I would like to return to Salmon
next Friday. Do you think it pos-
sible to secure a teacher for the
school by then?

If the school at Swift Cove
is vacant I would like to resume
teaching there. But, if this cannot be
arranged, it will be perfectly O.K.

I would like very much to be
able to remain here but, really Mr.

If Mrs. McNeil be appointed as

the school work.

I am very sorry to have to give

I beg to enclose herewith the "Return" for the quarter ended, of the Glendale Day School of Whyacomaugh reserve.

I make requisition for school material mentioned on the form enclosed. The teacher has applied for these articles in her "Return". She is very much inconvenienced for want of a school register in particular.

It is my duty to bring to your Dept's attention the fact that the present teacher of the Whyacomaugh School Mrs Annie McNeil is being paid at the rate of \$450.⁰⁰ per annum, while her predecessor was paid \$500.⁰⁰. He claimed he could not make a living at this salary, and had to give up the school. This was Mr Jno A. Willis. Every-thing in the line of necessities of life is now nearly doubled in price. Mrs McNeil has repeatedly asked me to bring this to your attention, and I submit that it should be only just to pay her the same salary as her predecessor namely \$500.⁰⁰ per annum.

Dear Sir:

Re Whyecocomagh Indian School.

Mrs. McNeill, teacher at above school, receives a salary of only \$400. This is very small considering the high cost of living nowadays. Besides, I understand that the teacher at Nyanza gets \$500. I do not mean to say that he gets too much-- far from it-- but the work at Whyecocomagh is considerably heavier than at Nyanza and it would seem only fair that the teacher should receive at least as much salary as is paid at Nyanza. I would respectfully suggest that this matter be inquired into and adjusted.

Trusting that this may meet with your favourable consideration,

MEMORANDUM.

Mr. Scott,-

With reference to the application made by Mr. Gallant, Barrister, of Inverness, N.S., for an increase in the salary of Mrs. McNeil, teacher of the Indian school on the Whycocomagh Reserve, I beg to say that Mrs. McNeil has only been in charge of this school since February 19, 1917, at a salary of \$400.00. Previous to that time, for two years, she had been teaching the school at Malagawatch, which was only open for the winter months, at a salary of \$30.00 a month.

There are twelve Indian schools in the province of Nova Scotia and the teachers of nine of these schools are paid at the rate of \$400.00 per annum, one is paid \$450.00 and the other two are in receipt of \$500.00, Middle River (Nyanza) being one of these. These salaries compare favourably with those paid at the provincial rural schools and I do not see how we could increase Mrs. McNeil's salary without an all round increase to the other schools there.

In October, last, Mrs. McNeil made a similar application

Mr. Scott, -

In further reference to my memorandum of the 22nd instant regarding the application for an increase in the salary of Mrs. McNeil, teacher of the Indian school on the Whycocomagh Reserve, I beg to say that the enrolment and attendance at Whycocomagh and Middle River are about the same. Last quarter there were 23 enrolled at Whycocomagh with an average of 11 and 22 at Middle River with a similar average.

If anything Mrs. McNeils' qualifications are better than those of the teacher at Middle River, as she is the holder of a Grade "C" Certificate, and Mr. MacRae, the teacher at Middle River, is a B. A. and holds a Grade "D" Certificate.

I may add that Mr. Gillis, who previously taught the Whycocomagh School was paid at the rate of \$500.00 per annum.

There have been no inspector's reports on this school since Mrs. McNeil took charge and, when the Inspector's attention

The said teacher, Mrs Annie McNeil,

1st That the Government recently gave

2nd That the Indian teacher at Nyony a

Day School, dated October 30, 1919. Original on 103167-6

GENERAL REMARKS.

I regret to have to say that the progress and general conditions in this school are far from satisfactory. The attendance is poor, the discipline weak and the hygienic conditions not up to the standard required. The unsatisfactory attendance and discipline are due chiefly to a lack of interest in education on the part of the parents and the failure of the truant officer to do his duty. There can be no progress without fairly good attendance and proper discipline. Although there has been school here continuously for many years, I am not aware that there is a single Indian on the reserve capable of writing a letter in fairly correct English or who is able to carry on a conversation on ordinary topics in passably good English. There surely must be something wrong with the administration of the Indian schools when conditions such as those described above persist. It appears to me that the matter of the education of the Indians has not yet been taken very seriously by anybody.

I would recommend that the truant officer and all others concerned with the educational administration be spurred on a little.

The Department is in receipt of Inspector MacKinnon's report on the Whyseemagh Indian Day School and regrets to say that the progress and general conditions at this school are far from satisfactory. The attendance is poor, discipline weak and the hygienic conditions not up to the standard required.

The Department understands that Gabriel Syllieboy is truant officer for this reserve. You should immediately instruct him to take steps to increase the attendance at this school and also to see that the attendance is regular in future. The Department will be pleased to have a report from you in regard to general conditions at this school and you might state whether you consider it would be advisable to have a change in the teacher.

Rev. Sir,-

A complaint has been received from Chief Gabriel Siliboy regarding Mrs. A. McNeil, the teacher of the Whyocoomagh Indian Day School. He states that the children are making no progress and that she does not exercise any discipline or control over them.

In this connection I beg to refer you to official letter of November 15, 1919, regarding the report of the school inspector. At that time you were asked to report as to the general conditions at this school and also whether you considered it would be advisable to make a change in the teacher. I may say that Mr. Inspector MacKinnon is being requested to visit this school at his early convenience and make a thorough inspection of the work being performed by the teacher.

I shall be pleased if you will furnish a report at once regarding school matters at Whyocoomagh and whether you consider that Mrs. McNeil is performing her duties satisfactorily or whether you would recommend that her services be dispensed with and that another teacher be secured. Kindly give this matter your prompt attention.

- or in some other Dept.

I have not sent in my resignation
to the Agent, or Mr Boyd yet but
am going to, and would like
that you will consider the matter,
and see that I may find something
to do - since the new Chief, Spillory
has been appointed ^{to CB} matters are not
as progressive as under the old Chief -
- he appears reticent & slow, yet his
inexperience may be the cause of this.
- will be glad to have a reply to this
letter, also the report of the Dept of
Indian Education for the years 1919-1920,
as stated. I beg to remain,

Respectfully yours.

Madam,-

I am directed to acknowledge the receipt of your letter of the 26th ultimo, and in reply I beg to say that the Superintendent of Indian Education has not published any report during the past few years. Owing to the expenditure involved, it was found necessary to curtail the Department's annual reports. The only report now published is the one sent you and, if you will refer to page 32 of Part I and to pages 80 to 95 of Part II, you will find all the information published regarding Indian schools.

As all appointments to the civil service are now made by the Civil Service Commission, it will not be possible for this Department to assist you in obtaining employment in one of the departments. If you desire a position in the service you should apply to The Secretary, Civil Service Commission, Ottawa, for information regarding appointments.

In reply to yours of the 22nd ulto., I have to say that the teacher of the Indian Day School at Weyecumagh C.D. has resigned, which resignation I enclose. The same to be effective at the end of the present quarter.

A female teacher is not suitable for Weyecumagh Reserve, because of lack of discipline. A married man would suit better there than any.

I may say that there are now about twelve children of school age at Malagimatch, where there is a fine school-house. This school should be opened and the term to close about the 15th of May when the parents generally leave to work elsewhere. In case it should be opened, this Mrs. McKel Teacher - gave satisfaction there before, as the children are small and in elementary work.

Ottawa, December 7, 1920.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 1st instant enclosing the resignation of Mrs. Annie J. MacNeil, teacher of the Whyoccomagh Indian Day School, to take effect at the end of the present quarter.

In reply I beg to say that the resignation of Mrs. MacNeil is accepted.

You should endeavour to secure the services of a qualified teacher to succeed her, to begin duties when the schools re-open after the Christmas holidays. It might be well to consult the Public School Inspector for the district, who may be able to recommend a suitable teacher for the position, and you should also institute inquiries with a view to obtaining the services of a teacher. For a properly qualified teacher the Department would be disposed to allow a higher salary than was paid Mrs. MacNeil. Any applications received by you for the position should be forwarded for the consideration of the Department and full particulars should be given regarding the qualifications and experience which the applicant possesses. You should give this matter your prompt attention, in order that, if possible, the services of a teacher can be secured in time to re-open the school after the Christmas holidays.

With reference to your request that the school at Malagawatch be re-opened during the winter months I beg to say that this matter is receiving consideration and you will be further advised.

=====

I regret to have to say that the progress made and the general conditions found in this school were far from satisfactory. The attendance is poor, the discipline weak and the hygienic conditions not up to the standard required. The unsatisfactory attendance and the discipline are due chiefly to the failure of the truant officer to do his duty and a lack of interest in education on the part of the parents. There can be no progress without proper discipline and fairly good attendance. Although there has been school here continuously for many years, I am not aware that there is a single Indian on the reserve capable of writing a letter in fairly correct English or who is able to carry on a conversation of any kind in passably good English. I think there must be something radically wrong with the administration of the Indian schools when conditions such as those described above persist? It would appear that the matter of the education of the Indians has not yet been taken very seriously by anybody. I would recommend that the truant officer and all others concerned with the educational administration be "spurred on" a little.

Ottawa, January 3, 1921.

Rev. Sir,-

Mr. Public School Inspector MacKinnon, in a report on his recent inspection of the Whyoccomagh Indian Day School, states that the progress made and the general conditions found in this school were far from satisfactory; the attendance was poor and the discipline weak and the hygienic conditions not up to the standard required. The unsatisfactory attendance and the discipline are due chiefly to the failure of the truant officer to do his duty and a lack of interest in education on the part of the parents. The Inspector states that, although there has been a school here continuously for many years, he is not aware that there is a single Indian on the reserve capable of writing a letter in fairly correct English, or who is able to carry on a conversation of any kind in passably good English.

In this connection I beg to say that it is hoped that, when a new teacher is secured for this school, there will be a decided improvement as regards the discipline, attendance and progress in the class-room. You should inform the truant officer that, when the school re-opens, it is expected that he will perform his duties faithfully and see that all the Indian children attend regularly. If he neglects to attend to his duties you should endeavour to secure the services of a competent person to do this work and the services of the present truant officer should be dispensed with. It is hoped that you will soon be able to nominate a teacher for this school to succeed Mrs. Annie J. MacNeil, and it is hoped that, with a new teacher and the truant officer performing his duties, there will be a decided improvement in the educational work on this reserve.

Dear Sir, I beg the liberty of writing

- About the first of November, an

have been living, since coming
here, or rather since Mrs Gillis
wife of my predecessor left, who

until this day, why. I replied to Pulett
why do you want me to leave, well he
said the Chief asks you to resign, who
else, he said Mr Boyd. I said well. Mr
Boyd & Father-in-law were both here lately,
why did they not tell me, if I have done
anything wrong, or any way why do you ask
me to resign - any way - both myself &
little boy took this to heart, after getting
ready for the winter, raising put hay for a
cow & horse in barn. I called up Rev

keep on with your work - this I did, when
again, I recd a letter saying that Complaints
had gone in to Dept & that I had better
resign, well, of course, I set down &
wrote my resignation & at the same
time said I think it unfair to
ask my resignation without knowing the
charges or the charges name. A reply
came saying the charges are, no discipline
- no progress & attendance poor - I
replied. I deny all the charges except
the attendance. Which ran good up to
the first of Oct - I do not think I

The Inspector of Schools, visited my school
on the day the 16th Dec, I had 13
Children present, only five children not
enrolled, the program he said as for
as other Indian Schools. McKee at Nyanga
he said, had only 5 children present the
day he visited but, had an average of 12.
- I used to have an average of 16, 17-18
- this quarter I had but 9.7. but it
was through no fault of mine -

Now, will you please see that I have
the name of the Changer, I put about
4 tons of hay in the barn here for my
own use, I will have to sell, my cow
& horse & more everything at this time
of year, I say. I would have been
grateful to either the Capt or Supt, if they
had notified me of any complaints to them
regarding my school. Previously -

Now, I shall give you a few facts
regarding Chycomagh medicine etc.
They are a lazy crowd, the Capt of the

do not destroy ^{it} - of course one or two try to
make ^{all} their hay - the majority do not -
They then call on the Dept & say their
Cattle are starving - and unfortunately
the Dept. will furnish the hay - instead
of making them look after their hay at
the proper time & keep Cattle from grazing
on their hay land, now here is an
example - I got a field to care for from
an Indian named Peter Isaac & experienced
more difficulty in housing the same than
you can understand - Why? Well -
Just this, some of them were jealous that
I was keeping up the fence for the poor
Indian, who was obliged to leave
his home & the place, on acct of
his neighbors - When I got up one
Sunday - the hay was drying after
cutting; I found the fence down - the
Cattle in on the hay eating away -
I called to some Indians who were
playing - gambling on the school
grounds, to please put out the Cattle.
I called the Capt. & said to put up the
fence, he remarked - tomorrow, then

is Sunday - I said, the hay will be
all gone by tomorrow, one poor fellow
went over to fix it, only to be rebuked
for doing so & said I must save the
hay. Now, is it any wonder that the
white man, is getting tired of such -
I merely want to say that if a person
tries to do right here he is no good

last summer,

It would be a good
thing to investigate conditions
- I am living here, and know better
than either Agent or Supt., they only
see the thing in its better form, while
I see it in every form, now Malagauch
& Middle River, were a different
class altogether. These Indians were
ruined by J. A. Gillis, who it appears
was allowed to help them. I fail to
see how, if his authority was as little
as mine, I could casually write a
letter for one of them, without being rebuked
by another for so doing -

is Sunday, I said the hay will be all
destroyed by them, one poor fellow went
to try fix the fence, only to be ^{right} abouted
by the rest. There is a house near
the school, which the Agt closed
year ago, owing to the immoral conduct
of the inmates, this year it is re-opened
again, but the husband is not there
- has not come back, the general
conduct here is low, debauchery
etc. Now I do not make any false
statements. There is about seven tons
of Coal, in the Coal house, they opened
the school for their Christmas prayer
meeting. altho they have a church.
The school will be in a deplorable
condition, as they are to have a party
social & when they do, they remove
the stores in order to dance, & this is
how our school store was broken.
The Chief demanded the school building
of me for his daughters wedding. Had no
authority to give it to him, as he has not
been friendly with me since.

Madam,-

I am directed to acknowledge the receipt of your letter of the 27th ultimo with reference to your resignation as teacher of the Whyoccomagh Indian Day School.

In connection with this matter I beg to say that the Public School Inspector, in reports on his inspections, stated that the progress made and the general conditions found in the school were far from satisfactory.

The Department, in view of the expense you were under in providing feed for your horse and cow, will consent to your remaining as teacher until such time as the services of a qualified teacher can be secured. Mr. Agent McLennan is being informed accordingly and instructed that, should you decide to remain on the above conditions, you may do so.

The Department does not hold you responsible for the unsatisfactory attendance, which is due chiefly to the failure of the truant officer to do his duty and a lack of interest in education on the part of the parents.

Rev. Sir,-

A communication has been received from Mrs. Annie J. McNeil, late teacher of the Whyoccomagh Indian Day School, requesting to be informed as to any complaints that were made regarding her work.

She is being informed that the Public School Inspector, in his recent reports, stated that the progress made and the general conditions found in the school were far from satisfactory.

She has, however, undergone certain expenses in providing feed for the horse and cow which she owns and will be under a certain amount of inconvenience in moving at this season of the year. She has, therefore, been informed that, should she decide to remain until you have been able to secure a suitable teacher to succeed her, she may do so. If she agrees to this arrangement she may remain as teacher until a successor is appointed. In the meantime, however, you should not lose sight of the engaging of a suitable teacher for the position, as instructed by official letter of December 7th, last. I shall be pleased to hear from you as to what is being done in the matter and whether Mrs. McNeil agrees to remain until another teacher is secured.

I beg to recommend Mr Archibald A Chisholm to succeed Mrs Annie J McNeil, resigned, as teacher for the Indian Day School on the Whycocomagh reserve. He is a Second Class teacher - Grade X - and has about twenty-five years experience as a teacher. I consider it a mistake to appoint a female teacher for this school. He farms, and should therefore be capable to direct the Indians of Whycocomagh in this work.

He is asking at the rate of \$800.00 per annum. I may say that teachers' salaries have been nearly trebled in this Province within the past four years. Qualified teachers are difficult to secure at this season of the year, as they are engaged in the months of July and August for the full term of nine months.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 7th instant recommending the appointment of Archibald A. Chisholm as teacher of the Whytecomagh Indian Day School, to succeed Mrs. Annie J. McNeil, and stating the qualifications he possesses and the amount of salary he requires.

In reply I beg to say with reference to the salary, that, while the Department is prepared to pay an increase over that allowed previous teachers, it cannot pay the teacher of this school a salary at the rate of \$800.00 per annum, as asked for by Mr. Chisholm. I would point out that there is a teacher's residence in connection with this school, and the outside amount that could be allowed for salary for a qualified teacher would be \$600.00 per annum. You should inform Mr. Chisholm accordingly and, if he is willing to accept this offer, consideration will be given to his appointment. In the meantime Mrs. McNeil may continue as teacher.

Ottawa, February 26, 1921.

Sir,-

I have to request that you will visit the Whycoomagh Reserve at as early a date as your other duties will permit and inquire fully into educational matters there and report to the Department.

The Public School Inspector, in a report on his visit of inspection in December, last, states as follows,- "I regret to have to say that the progress made and the general conditions found in this school were far from satisfactory. The attendance is poor, the discipline weak and the hygienic conditions not up to the standard required. The unsatisfactory attendance and the discipline are due chiefly to the failure of the truant officer to do his duty and a lack of interest in education on the part of the parents. There can be no progress without proper discipline and fairly good attendance. Although there has been school here continuously for many years, I am not aware that there is a single Indian on the reserve capable of writing a letter in fairly correct English, or who is able to carry on a conversation of any kind in passably good English. I think there must be something radically wrong with the administration of the Indian schools when conditions such as those described above persist. It would appear that the matter of the education of the Indians has not yet been taken very seriously by anybody. I would recommend that the truant officer and all others concerned with the educational administration be 'spurred on' a little."

In November, last, Mr. Agent McLenahan, forwarded the resignation of Mrs. McNeil, the teacher, which she later withdrew in a personal letter to the Department, and she has been allowed to remain temporarily in charge until a suitable teacher to succeed her can be secured, and the Agent was informed accordingly.

The Department is advised that Mrs. McNeil receives no support in her work and that the truant officer neglects his duties and that the Indian parents are indifferent regarding education. It would appear that she is competent to teach the school and that the lack of success is due to causes outside her control. The janitor's duties are also not properly attended to, and the Department understands that there has been no proper heating facilities in the school, as the Indians removed the stove for the purpose of holding a dance and returned another stove in place of the one which they removed. The teacher has recently complained of the condition of the stove and in this regard you were written to on the 22nd instant.

The conditions on this reserve as regards educational matters, as reported by the Public School Inspector, are most unsatisfactory, and, at the time of your visit, you should inquire fully into all the conditions and complaints. You should also closely inquire into the duties performed by the truant officer and the janitor and, if they are not satisfactory, both should be discharged and competent persons engaged to replace them. You should instruct the Indian parents that it is expected that they will see that their children attend regularly, and

willing to discuss it with you - I may say, however, that I
honestly believe that my report had very little to do with your
dismissal, it may have served the purpose of an excuse
for relieving you of your duties by some one who wanted to
get you out of the way - in other words, they made me 'the fool'."

I may say that my last report was very little different
from the reports I have been sending in for a number of
years - even before you ever came there - and almost identical
with reports that I made on other Indian schools where
apparently there is no thought of disturbing the teachers - If
reported against anybody, it was against officials "higher up" and
even knocked the Department "dead" for not adopting a system
that would give the teachers a chance.

This explains all - I am retiring, after about 13 years
experience, without any honor would not. The Chief, ordered
some of the children, those who were attending to stay at home.
and the others are afraid of him, for he has been severe in a good
many regards. The ^{Chief} ^{has} ^{been} ^{severe} ⁱⁿ ^a ^{good} ^{many} ^{regards}.
Hoping you can read between the lines what
the trouble is. I enclose one letter or story from the McDonald
you respectfully. Mrs Anne McDonald.

Dear Madam:

Owing to Mr Roy's absence in Western N.S. I could not get authority to order stove repairs. I asked Father McFadden for permission, but he did not wish to interfere as Mr Roy had given the first order. Mr Roy, phoned me yesterday to order a new Stove. This should arrive within a week.

The letter for D.D. McKenna is free. I am returning the 3rd by mail. Yours truly

Sir,-

With reference to your letter of the 26th. ultimo, I beg to report that I visited the Indian Day School at Whycocomagh Reserve on the 17th. instant and found the teacher, Mrs. Annie McNeil, present, but no pupils in attendance - not one.

The school room was in excellent condition, being comfortably warm, with good ventilation, and clean as the proverbial new pin. It was quite evident that the janitor, Stephen Christmas, must be doing his duties effectively, as the teacher admitted.

I asked Mrs. McNeil if there was any special reason for the non-attendance of pupils on that favourable occasion - the weather being very fine -, and she informed me that there was none which did not apply every day for some time past, namely, the refusal of the Indians to send their children to school for the purpose of discrediting the value of her services, with a view to her dismissal. She did not think that their attitude was at all justified, as she had always endeavoured to conscientiously discharge her duties as teacher.

I then interviewed some of the principal men of the Whycocomagh band about the situation, and they stated by way of complaint that they had several good reasons for keeping their children out of school, namely:-

1. The teacher had developed an untidiness in her personal appearance, due to negligence of attire, which they considered objectionable, as giving children a poor example of cleanliness and neatness in dress - qualities that are expected to be cultivated and improved in school under the teacher's care and direction.

2. The teacher had been in the habit of insulting their children in school by actions of a grossly indecent character.

3. The teacher had otherwise acted improperly in the presence of her pupils, which was a cause of scandal to them.

With regard to the first statement, I regret to say that my personal observations rather tend to corroborate it; as to the others, I submit that the only way to determine whether there is any truth in them or not is by making formal inquiry under oath into the situation. But, at any rate, there is no doubt in my mind that Mrs. McNeil has outlived her usefulness as teacher of the Whycocomagh Indian Day School.

Your obedient servant,

A. J. Boyd.

Sir,-

I have to acknowledge the receipt of your letter of the 24th ultimo furnishing a report, as requested, regarding educational matters on the Whyocoomagh Reserve.

In reply I beg to say that, as the Indian parents refuse to send their children to school under the charge of the present teacher and also in view of the other reasons stated by you, The Department agrees with you that Mrs. McNeil has outlived her usefulness as teacher of the Whyocoomagh Indian Day School.

In a recent letter received from her she states that, owing to not having received the support which she thought she was entitled to from the Agent and yourself, she was withdrawing from this school, and it may be that she vacated the position at the end of the March quarter. If not, you may inform her that her services are no longer required, and, if it is impossible to obtain another teacher, the school will have to remain closed for the present. Mrs. McNeil should prepare and forward a return showing the attendance, days taught, etc., covering the period up to the time when she leaves the work, in order that payment of the salary due her can be made.

You might take this matter up with Mr. Agent McLennan with a view to obtaining the services of another teacher, and the Department will be pleased to be informed as to the date on which Mrs. McNeil gives up her duties.

Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo enclosing the March quarter return of the Whysoomagh Indian Day School.

In reply I beg to say that Mrs. McNeil, the teacher, is being paid salary and bonus for the full quarter.

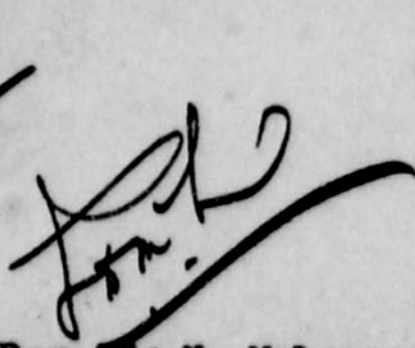

Mr. Inspector Boyd has recently furnished a report regarding the educational conditions on this reserve and he was informed that, if Mrs. McNeil had not given up the duties of teacher voluntarily, she should be advised that her services would be no longer required, as the Indians refuse to send their children while Mrs. McNeil remains as teacher. The Inspector was requested to take this matter up with you with a view to obtaining the services of another teacher.

As you were informed by official letter of January 19th, last, the outside amount that can be allowed for salary for a qualified teacher will be \$600.00 per annum. It is hoped that you will be able to nominate a teacher for this school at an early date, and the name, qualifications and experience of the teacher secured by you should be forwarded for the approval of the Department. However, if it is impossible to obtain another teacher at the present time, the school will have to remain closed. You might consult Mr. Inspector Boyd in the matter.

Sir,-

With reference to the third paragraph of your letter of the 1st. instant, I beg to state that I have always accorded Mrs. Annie McNeil, since her incumbency as teacher of the Indian Day School at Whyecomagh, N. S., the same support that other Indian teachers, subject to my supervision, have invariably received from me. I have treated her on all occasions as courteously as I could, and given her wishes in any particular case the consideration they required, according to my judgment.

I am serving notice on Mrs. McNeil that her services are no longer required, and regret the circumstances which call for such action.

As I don't know what salary the man is entitled to I sign the Voucher and leave it to be filled in where it can well be done. This Contractor who apparently prevented school, keeping by occupying the building, approached me for permission to use the Schoolhouse. Sir, - I am in receipt of Official Cheque # 1826 tot

my salary as teacher in the Mic Mac school for

about this, as my yearly salary is \$500.⁰⁰ which
would make the quarterly salary \$125.⁰⁰.

Kindly let me hear from you with reference to

Sir,-

I have to acknowledge the receipt of your letter of the 16th instant, with reference to the amount of salary paid you for the period you taught the Whycocomagh Indian Day School, during the quarter ended September 30th, last.

In reply I beg to say that, as you have resigned from the position of teacher at this school, such resignation to take effect from the 31st instant, the Department can only pay you a salary for the number of days you teach during the present school year, which began after the summer holidays. There are 200 teaching days in each school year. You were paid for 21 days in the September quarter, or, $21/200$ of your yearly salary of \$500.00.

Upon the receipt of a return, you will be paid for the number of days you teach during the present month. The salary of a teacher in the day schools is only paid by quarterly instalments in the case where the teacher remains during the full school year, namely, from September to the end of the following June.

Sir - I have to acknowledge the receipt of your letter of the 21st inst. # 103167-3 with reference to the amount of salary paid me for the quarter ending September 30th last.

In reply I beg to say that I am still of the opinion that I am entitled to the balance unpaid for the following reasons - I reported for duty at the school here on Monday Oct 4th 1909, Mr. Supt. Boyd was here at the time; and as the school building was in the hands of the painter, and carpenters for repairs school did not open for teaching until the 1st of October, I was paid my first quarterly instalment in January 1910 receiving \$42.50 being at the rate of \$250.00 for the school year, I received three increases in salary, the last at the rate of \$500.00 for the school year which was for the June quarter in 1911. By the above you can readily see, that I completed seven years continuous service at the end of the September quarter of this year.

The amount of salary received by me for the school year was as follows - December quarter 1910, \$125.00, March quarter 1916, \$125.00 June quarter 1916 \$125.00, September quarter 1916 \$52.50 total \$427.50 leaving a balance unpaid of \$72.50, which I think you will find correct in view of the length of service from the beginning.

I do not wish to receive a penny that I do not think that I am justly entitled to, and I feel from the explanation I have given that you will understand the position I am in. I am leaving the school here hundreds of dollars worse off than when I came, and a good deal of it for private means that I had to call on from time to time, to help out with of it spent for the benefit of the Indians as all the reputable people storekeepers etc, here can and will testify if called upon for the information.

I have to acknowledge the receipt of your letter of the 3rd ultimo, in further reference to the amount of salary paid for the period you taught the Whycomagh Day School, during the quarter ended September 30th, last.

In reply I beg to say that, as already informed, you have been paid the full amount due for your services to that date.

Each school year begins at the ending of the summer holidays - usually during the first week in September- and terminates on June 30th, in the following year and comprises 200 teaching days.

You began duties at this school October 4, 1909, at a salary of \$350.00 per annum. You were paid three quarterly instalments of \$87.50 each, to June 30, 1910, the end of the first year you taught in this school. Since that time, to June 30, 1916, a period of six years, you received six full years salary. You began the present school year after the summer holidays and taught 21 days in the September quarter, for which you received 21/200 of your yearly salary of \$500.00. You resigned as teacher of this school, to take effect the 31st of October, and upon receipt of a return, showing the number of days taught during the past month, you will be

Re salary as teacher Miss-Mrs. Seaton
Whycocomagh N.S. - Oct 4th 1909. Oct 31st 1910.
Dec 27th 1910.

Sir, - I beg to bring before you, what I consider to be unfair treatment by the Department. I was appointed teacher of the Miss-Mrs Seaton at Whycocomagh N.S., in September 1909, my duties to begin Oct. 1st of that year at a salary of \$250.⁰⁰ per annum. I reported for duty on Monday Oct. 4th, found the school building in the hands of the carpenters and painters, for repairs and school did not open until Oct. 11th. The 18th day of January 1910 I received a cheque from the department for my first quarterly salary, for the sum of \$62.⁵⁰, my letter of appointment did not specify as to the number of teaching days in the school year, nor the number of hours to be taught each day. I enquired of Mr. Supt. Boyd, and Rev. Agent McPherson and they both informed me that in the absence of regulations, it was to follow the usage in the public schools, which I did. I received two increases in salary, and in 1911 I was granted the maximum amount namely \$500.⁰⁰ beginning with 1st April quarter of that year. In July 1911 I was paid \$125.⁰⁰. The school closed for the summer holidays July 12th and opened September 1st. On the close of the July quarter, namely Sept 30th I sent in my report and in Oct. I received my quarterly cheque \$125.⁰⁰. This continued up to September of the present year, I made my report as usual and also sent my resignation to the department the same to take effect Oct 31st. About the 18th of Oct. I received a cheque for \$52.⁵⁰, I did not think anything about it as I felt it was a mistake so I wrote

wrote making inquiries. I received a reply from Mr. Stuart saying that inasmuch as I had resigned, I was only entitled to payment for the twenty one days taught in September and not for the July quarter as heretofore, that the school year closed with the beginning of the July quarter, that the school year was two hundred days which would make my salary at the rate of \$2.50 per day. I wrote a reply stating that I had always understood that my salary was for the school year not a daily wage, and that inasmuch as my services began in Oct 1911 that I had completed seven years continuous service in Oct 1916, and that therefore I was entitled to seven years salary. I never had any intimation heretofore that I was to be paid by the day I had always received the full amount of salary at the end of each quarter, and could not understand why an exception should be made. I received another reply from Mr. Stewart and from what I could glean from it his contention was that I was paid six years salary up to the July quarter of this year and that if I was paid in full there would not be any money left to pay my successor. Despairing of getting a satisfactory explanation or a settlement I turned the matter over to D. D. Mackenzie Esq. and he advised me to lay the matter before you personally and that he was writing you in the meantime. I am yet convinced that the sum of \$72.50 is due me for the July quarter of 1916, as I had always received the full amount heretofore. I acted on the square with the department

I could have waited until I received my salary and could

Mr. Bensen
MEMORANDUM.

Mr. Scott,-

With reference to the letter from Mr. J. A. Gillis, late teacher of the Whycocomagh Indian School, in regard to a balance of salary claimed by him for the September quarter, last, I beg to say that, as Mr. Gillis has already been informed, he was paid for the actual time he taught during that quarter. The Indian day school regulations provide as follows,-

"In computing salaries for broken periods, teachers will be paid in the proportion that the number of days they taught bears to the total number of teaching days in the year.

Salaries of teachers will be payable quarterly upon receipt of returns; but where a teacher is engaged to take charge of a school, duties to commence after the summer holidays, payment for the September quarter will be made as provided for in the case of broken periods in the previous paragraphs; and at the end of the year, or when services expire if before the end of a year, the necessary adjustment

adjustment will be made and all arrears, if any paid.

All teachers will be required to give at least one month's notice of their intention to resign."

When sending in his return for the September quarter, 1916. Mr. Gillis notified the Department of his intended resignation on the 31st proximo and upon receipt of a return showing the number of days he taught during ~~that~~ the month of October a cheque will be sent for the amount due him.

There were 21 teaching days in that month and if he taught that number he is entitled to receive \$52.50. This added to the amount he has already received would make \$105.00, which would leave out of the \$500.00 provided for the salary of the teacher of this school, \$395.00. There would still be 158 teaching days in the year and it would take exactly this balance to pay his successor's salary for the balance of the year. If Mr. Gillis is paid anything more than he is entitled to it would make a shortage in the appropriation for this school.

Mr. Gillis is, however, correct in his statement that had he not given notice when sending in his September

September quarter return ^{he} ~~his~~ would have received his full quarter's salary, as he was an old teacher.

As no one has yet succeeded him, it is a question for the Department to decide whether they will allow Mr. Gillis anything further. He has had charge of this school for seven years and from reports received gave satisfaction.

Mark Benson

Mr Benson.

Mr Scott is of opinion that we might as a retiring gratuity allow Mr Gillis the full salary for the ^{Sept.} quarter. It should be pointed out that this is a matter of grace.

Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo addressed to the Deputy Superintendent General in further reference to the amount of salary received by you as teacher of the Whycocomagh Day School for the September quarter, last.

In connection with this matter I beg to say that, after further consideration, it has been decided to allow you a further payment to September 30th, last, of \$72.50. The payment of this amount is made as a retiring gratuity, in view of your seven years' service as teacher of this school, and is made as a matter of grace and not as any balance of salary due for the period which you taught during the September quarter, last. You were already paid in full for your services for that quarter.

If you have taught this school during the month of October, last, you should forward a return as soon as possible showing the days taught, when any balance of salary due will be paid.

Sir,-

I have to acknowledge the receipt of your letter of the 26th instant enclosing a return from John A. Gillis, late teacher of the Wiyecocomagh Day School, for the period which he taught during the December quarter, last.

In connection with this matter I beg to say that the return forwarded by you states that it is for the period the school was open during the month of November, last. As Mr. Gillis resigned, his resignation to take effect on the 31st of October, it is considered that this return is for the month of October instead of for the month of November. If Mr. Gillis taught to November 30th, last, there would still be a payment due him for the period which he taught during the month of October, as no return has been received for that month.

A cheque for \$52.50 is being sent Mr. Gillis to the address given by him, 14 Borden St., Sydney, N.S., for the twenty-one days the school was in operation as shown by the return received.

Sir,

Received Official Cheques of

The bonus cheque (No. 2351
Oct. 8th) is in Fifteen Dollars

Now I taught twentyone^{days} and
there was a public holiday,
Sept. 5th (Labor Day, besides
making twenty two days.

Taking this rate I find that
it takes 22 days to make up \$15.00

The salary cheque ~~was~~ no. 1701
of same date is \$52.50
Taking 200 days as the full ^{term} my
bonus for 22 days should be \$6.50
not \$15; and the salary cheque
should be \$55.00 not \$52.50

So you see that if I am
right in taking 200 days
as the full term, I am short,
between the two cheques, \$4.00
that is if I am entitled to pay
for the holiday.

Please write soon and
explain how the cheque figures have
been found.

OTTAWA, October 19th, 1921.

Sir, -

I have to acknowledge the receipt of your letter of the 14th instant, regarding the salary and bonus paid you for the September quarter, last, as teacher of the Whycocomagh Indian Day School.

In reply I beg to say that you taught 21 days in that quarter, for which you were paid 21/200ths of your yearly salary of \$500, or \$52.50. You also received the bonus for one month. The bonus to teachers of Indian Day Schools, amounting to \$150 per annum for the present fiscal year ending March 31st, next, is paid on a monthly basis for the ten teaching months, or \$15.00 per month. A teacher, in order to draw the full yearly salary, is required to teach 200 days, and if you remain and teach this number of days to June 30th, next, the end of the school year, you will receive your full yearly salary.

A copy of the Indian Day School Regulations is enclosed herewith for your information.

Your obedient servant,

A. F. MacKensie.
Acting Asst. Deputy & Secretary.

Sir,-

In reply to your letter of the 31st ult-
time, I beg to say that the cheque which you have re-
ceived, namely, 3473 for \$125.00, representing your
salary for the December quarter, was the only cheque
sent you in that envelope.

In connection with the payment of your
salary, I would refer you to official letter of October
19th, last, which fully explains the manner in which
salaries of day school teachers are paid.

As you were informed in that letter, bonus
is paid at the rate of \$15.00 for each teaching month
and cheque No. 3205 for \$45.00, being the amount of
bonus due for the December quarter, was forwarded to
you on the 1st instant. It is hoped that you have re-
ceived it by this time.

Memorandum:

REPRESENTATIVE OF THE TREASURY.

Re: Whyccomagh Indian Day School. No. 259

In my memorandum of May 22 I advised you of the resignation of the former teacher, Mr. Colin Kennedy.

Miss Patricia MacDonald was appointed teacher for the month of June, 1945, at a salary of \$100.00 a teaching month, plus bonus. She taught the entire month and is therefore entitled to one month's salary at the above rate. Cheque should be issued in her favour and sent to her in care of Mr. F. B. McKinnon, Indian Agent, Eskasoni Chapel, C.B., N.S.

I enclose I.D.1A form and copy of letter of appointment.

Mr. Chisholm, M. P., left the accompanying Memo. from Mr. Chisholm who was the contractor for the Indian school at Whyacomagh. It appears that he did some work over and above his contract, at the request of the Indian Agent. Mr. Chisholm, M. Enclosed herewith you will find copies of correspondence with regard to a claim made by Mr. Alex. Chisholm, who was contractor for the erection of the day school building on the Whyoccomagh Reserve. Mr. Chisholm made a claim for extras which has never been allowed by the Department. A perusal of the enclosed correspondence and memoranda, which are of course, for your own information alone, will place you in possession of the facts. Unfortunately it is not possible to send you a copy of the specifications of this building, but it is thought that they may be in the possession of the present Agent, Rev. D. McPherson. I have to request that at some convenient time, when visiting the Whyoccomagh Reserve, you will take this matter up, investigate the claim, and report to the Department.

Dear Mr. McLean -

Some days ago I discussed with you & Mr. Scott a claim which Mr. Chisholm had against your Dept. for extra work done on a school he built at - Whycocomagh. You agreed to ask the Indian Agent - Mr. Angus Boyd of Brainer Bourgeois to look into the claim & report to you. I find by letter received from Mr. Boyd that he has not been asked to act in the matter. Would you kindly request him to take this up immediately & greatly oblige.

Sir,

With reference to your letters of the 26th. ultimo and the 1st. inst., No. 103167-5A, I have to state that ^{it} is simply impossible for me to judge of the merits of Mr. Alex. Chisholm's claim for extras in connection with the construction of the school house at Whycecemagh Reserve, unless I can procure the plans and specifications on which the contract for the building was based. I am applying for these to Revd. D. McPherson, Glendale, N.S., the Indian Agent for that reserve, and if he can produce them, I will proceed at once to look into the matter and report the result of my investigation to you.

But in the absence of such plans and specifications, I fail to see how I can possibly determine whether Mr. Chisholm made a necessary expenditure for labour and material beyond what his contract called for, or whether he simply fulfilled its conditions.

With further reference to your letter of the 1st. inst., No. 103167-5A, I beg to report that I visited Whycecemagh, N.S., as seen after the receipt of your instructions as other official business engaging my attention at the time would permit; but in the absence of any plan, or specifications, I could form no correct judgment of the merits of Mr. Chishelm's claim for extras.

Since my return from Whycecemagh, I received the original specifications, but no plan, from the agent, Revd. D. McPherson, Glendale, N.S.; and with these before me, after a personal interview with Mr. Chishelm, which I propose having seen, I hope to be able to furnish the Department with reliable information regarding this case.

Sir,-

With reference to the subject of your letter of the 26th. July last, No.103167-5A, I beg to say that, until an opportunity should present itself for a personal interview with Mr. Alex. Chisholm, who was contractor for the erection of a school house on Whyccomagh Indian Reserve some ten years ago, it was not my intention to report with regard to his claims for extras. But having obtained from the present Agent, Revd. D. McPherson, the official specifications for the building, which I find considerably at variance with the views, implied, or expressed, of Mr. Chisholm in the case, and having also looked into the matter while at Whyccomagh on a recent occasion, I desire now to state as follows:-

1.- At the date the building was erected, the cost of finishing the interior with wood such as Mr. Chisholm furnished, would be about the same as if finished with plaster.

2 & 4.- The specifications do not mention particularly anything about paint; but they call for the erection of "a good, plain, substantial building, complete in every respect"; and, to my mind, a new building without paint would be very incomplete in one essential respect. Considering the conditions above quoted, I think it must have been well understood by Mr. Chisholm that painting the exterior of the building was part and parcel of his contract.

3.- I could not discover whether galvanized nails were used or not. If ^{they} ~~the~~ were, it would make a difference of about \$3.00 in the cost of construction.

5.-

J. D. McLean, Esq.,
Asst. Deputy and Secretary,
Indian Department,
Ottawa.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

2

OFFICE OF THE INDIAN SUPERINTENDENT.

RIVER BOURGEOIS, N.S. ,

19

5.- The double doors put in by the contractor were evidently of a cheap kind, but may have cost a couple of dollars ^{more} than if the two large single doors mentioned in the specifications had been furnished.

6.- Since my appointment as superintendent, I had what must have been Mr. Chisholm's Belfry taken down and rebuilt at a cost of about \$8.00. Therefore, I cannot see how he could claim \$ 40 extra for the original article; because the specifications called for a belfry at anyrate, and I should say one was provided, which was not an improvement on that described in the specifications.

7.- If the cheque covering the final payment on Mr. Chisholm's contract was made payable to himself, I do not think he should look for anything more from the Department on that score. But if it was made payable to the late Agent, Father McIsaac, and he retained \$ 20 of it until he should inspect the building, I think this claim is fairly defensible, and should be paid, providing Mr. Chisholm can satisfy the Department that he has never received the amount. I need not observe that Father McIsaac represented the Department, and any omission on his part cannot be chargeable to Mr. Chisholm.

The specifications called for plaster under the wainscoting. I do not think any was used, and that would be an advantage to the contractor.

Again, according to the specifications there were "4 iron ventilators to be placed in the outer walls; 2 on each side of the building". These ventilators seem to have been overlooked. There are none in the building; and this omission was also to the contractor's advantage.

In my opinion, Mr Chisholm is entitled to nothing for

extras

extras; but, as already stated, I think that possibly he has a right to the \$ 20, which he claims as the unpaid balance of his contract.

Ottawa, January 23rd, 1930.

Sir:

I have your letter of the 18th instant, enclosing a requisition for supplies from the teacher of the Whycoomagh Indian Day School.

In reply I have to say that you may arrange for the purchase and delivery of one water pail and 48 spoons of a size to meet the needs for which they are required. It is noted on the requisition that 10 of these spoons are required for the Malagawatch School and 38 for the Whycoomagh School. It is not intended that spoons of an expensive type be supplied.

After you have made the purchase of these spoons and the water pail, you should forward an account, in duplicate, properly certified, covering the expenditure incurred.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir:

Replying to your letter of the 4th instant, I have to say that no authority has been granted to supply a midday meal to the pupils of the Whyoccomagh Indian Day School. As the warmer weather will soon be here, and as our funds are limited, it is considered that the preparing and serving of a lunch to the pupils of this school could be deferred until about October 1st, next. You should draw this matter to the attention of the Department early in September, next, when favourable consideration would be given to authorizing the purchase of the equipment and food supplies required for the preparing and serving of the lunch during next winter.

Sir:

The Public School Inspector, in a report on his recent inspection of the Whycocomagh Indian Day School, states that the buildings are in good condition with the exception of the teacher's dwelling house. He states that the roof requires certain repairs and the outside walls should be painted. He also recommends that the playground be plowed and levelled.

I shall be pleased if, at your early convenience, you will forward a report regarding the Inspector's suggestions, stating what work, if any, you would recommend be carried out in placing the teacher's dwelling in good condition and in levelling the playground. The cost of any work recommended by you should be stated.

INSPECTOR OF INDIAN AGENCIES
EASTERN NOVA SCOTIA

Antigonish, N.S.,

Aug. 12th, 1930.

Sir:-

[Handwritten signature]

In reply to your letter 53-2-5 of June 26th, 1930, wherein you state that the Public School Inspector has recommended certain repairs, improvements, etc. to the Teacher's residence and school grounds at Whycocomagh, in connection with this matter I beg to refer you to previous correspondence, my letter of April 19th, 1930 and your reply (53-2-8 of April 28th) wherein you authorized repairs for the roof of the Teacher's house.

In reference to the School Inspectors suggestion that the grounds about the school be improved, the land there is quite rocky and would have to be ploughed and several loads of earth hauled to complete the job. This would cost probably \$125.00 and I think is too expensive for the funds available this year. Again, as work of this kind should be done in the early Summer months, there is a twofold reason why it should not be done this year. I would suggest that this be given consideration when preparing next year's estimates.

As regards repairs to the house and painting, I would strongly recommend that the painting be done now, while the staging for repairs is in position and thus save the expense of erecting a staging a second time. It will also be necessary to scrape the walls before painting.

Therefore, to reshingle one side of the roof, the porch, and paint the whole house I would recommend that an expenditure of \$225.00 be allowed.

Your obedient servant,

Sir:

I have your letter of the 12th instant, relative to the repairs, improvements, etc., required to the teacher's residence and school grounds at the Whycocomagh Indian Day School.

In connection with the repairs required to the teacher's residence and the painting of same, I have to say that you may incur an expenditure not exceeding approximately the sum of \$225 in reshingling one side of the roof and the porch, and painting the house. Either you or the local Indian Agent should arrange for the purchase of all materials required and for the labour. You should see that all costs are kept as low as possible, having in view the carrying out of satisfactory work. This work should be completed at an early date, and, when finished to the satisfaction of yourself or the local Indian Agent, accounts, in duplicate, properly certified, should be forwarded covering the expenditure in the purchase of the materials and for the labour.

Relative to the improvement of the school grounds, I have to say that this work will have to stand over until next year, at which time you could again draw the matter to the attention of the Department.

Sir:-

The teacher at the Whycocomagh Indian Day School reports that on account of the increased attendance at the school it will be necessary to have five new desks installed also one end seat.

I would also recommend that the teacher be supplied with a new desk. A suitable teacher's desk could be obtained from the local cabinet maker at an approximate cost of \$22.00. Will you please authorize the expenditures.

Sir:

I have your letter of the 10th instant, relative to the request of the teacher of the Whyoccomagh Indian Day School to be provided with 5 new school desks, 1 rear seat and a teacher's desk.

In this connection I have to say that our funds for the balance of the present fiscal year are entirely assigned, and it is, therefore, hoped that the present seating arrangements will be satisfactory during the next few months. You may arrange for the purchase, about the end of March next, of 5 school desks and 1 rear seat of the size required, also a teacher's desk. Accounts covering the cost should not reach the Department until after the 31st of March, when our appropriation for the next fiscal year is available. We are not aware as to the manufacturer of the school desks at present in use, but it would be advisable, in purchasing new desks, that they be of the same type in order to have uniformity in the seating equipment. Should a teacher's chair be required, you may also arrange to purchase same.

The Department will leave the matter of the purchase of the desks in your hands, to obtain same at the lowest possible cost, and to forward properly certified accounts, in duplicate, after April 1st, next.

JAN 19 1931
RECORDED

Antigonish, N.S.,
Jan. 15th, 1931.

Sir:-

I am informed by Mr. MacDonald teacher at Whycocomagh Day School that the School House is not heated satisfactorily. The stove in use there is not old and is in fair condition but is too small for the size of the room. This stove may be traded for a new one of the air-circulator type for \$28.00. The price of the new stove is \$47.50 but it may be secured for \$28.00 by turning in the old one.

I would recommend that Whycocomagh Day School be supplied as stated above. If funds are not available at present, it could be arranged to have the account for this expenditure sent in after the first of April next that is if you think this would be in order.

Sir:

I have your letter of the 15th instant, relative to the stove at present in use at the Why-cocomagh Indian Day School. It is noted that the present stove is too small for the size of the room and that arrangements can be made to exchange it for one of the air-circulator type, at a cost of \$28.00.

In this connection I have to say that the Department will approve of you arranging to obtain a stove of the air-circulator type and turning in the present stove towards the cost. Our funds for the balance of the present fiscal year are extremely limited, and I should be pleased if you could arrange to have the account for the expenditure incurred in exchanging the stove forwarded after the 1st of April, next, when funds for the next fiscal year will be available. The new stove should be installed in the school at a time when it will not interfere with the regular classroom work, and when the work has been completed to the satisfaction of the Indian Agent or yourself, an account, in duplicate, properly certified, should be forwarded, which should show the cost of the new stove, less the amount allowed for the stove traded in.

Dear Sir:-

The teacher of the Indian Day School at Whycocomagh Reserve requests authority to have the toilet closets cleaned and whitewashed also to have the two closet doors repaired and furnished with padlocks. This expenditure should not exceed \$10.00.

This work was done last year but it seems to be a necessary yearly expenditure.

Sir:

Replying to your letter of the 5th instant, I have to say that you may incur an expenditure not exceeding approximately \$10 in having the toilets at the Whycocomagh Indian Day School cleaned and whitewashed and the two doors repaired and furnished with padlocks and keys. The keys should be kept in the possession of the teacher, who should see that these closets are locked after school hours.

When the work has been completed, accounts, in duplicate, properly certified, covering the expenditure incurred should be forwarded for payment.

INSPECTOR OF INDIAN AGENCIES

Antigonish, N.S.,

July 22nd, 1931.

R

Sir:-

I would refer you to your letter No.53-2-5 dated August 18th, 1930, in reference to the improvement of the school at Whycocomagh, in which you stated that this work would have to stand over for another year, when I should draw the matter to the attention of the Department.

In view of the fact that funds may not now be available, I would not suggest any extensive improvements this year either. I beg to report, that on the expectation that this work would be done this year, shrubs and flowering plants were ordered last fall through the Rural Education Department at Truro by Mr. A. MacDonald, teacher, who was then acting Indian Agent. These shrubs and plants were planted by the school children before school closed in June under the direction of Prof. L. A. DeWolfe, Director of Rural Education.

I have pointed out to Mr. MacDonald that he should have had authority from the Department before ordering these shrubs and that his action was rather presumptuous. He admits his error but explains that by ordering at that time we could get a better price on the lot and be sure of delivery.

In time they will certainly improve the appearance of the school grounds. The attached account in favour of L. A. DeWolfe is the result and is recommended for payment please.

Sir:-

I beg to report to you that I have visited the Whycocomagh Indian Day School and find that there are 51 on register or who should be on register. Of course the average attendance is less than that number but the seating capacity is only 36. There is room for five more desks which would make room for ten extra pupils.

Therefore, I would recommend the purchase of four new desks and one end seat similar to the type of desk already in the school. You will remember that this matter was given consideration last year but it was decided to wait until there would be funds available. Would you kindly authorize the purchase of these desks please. It might be in order to state the name of the firm who could supply same.

I have your letter of the 14th instant, requesting that a number of extra desks be supplied in order to provide seating accommodation for the pupils who attend the Whytecomagh Indian Day School.

In this connection I would refer you to official letter dated December 13, 1930, authorizing you to arrange for the purchase in March, last. You may place an order with one of the firms on your list to supply the five extra desks required. You should first ascertain the type of desk at present in use and also the size of the extra ones required. This information, you should supply to the firm with whom you place the order. This firm can, no doubt, arrange to obtain the desks required and have same delivered at the school. After the desks have been obtained, you should forward an account, in duplicate, properly certified, covering the cost.

Sir:

Replying to your letter of the 14th instant, I have to say that the Department will approve of the serving of a hot lunch to the various Indian schools in your inspectorate, the same as was done last year. The schools at which this lunch was supplied to the pupils were as follows:-

Esquonni,	Indian Cove (Pictou Landing)
Sydney,	Afton,
Whyecocomagh,	Salmon River.

The supplies for the lunch should be of the same type and approximately in the same quantities as last year. You may inform the various agents, arrange with them to purchase the articles and have the teachers start the serving of the lunch from the middle of November, next. They may continue serving lunch to the pupils at these schools until the end of April, 1932. All expenses in connection with the purchase of the supplies required should be kept as low as possible. Itemized accounts, in duplicate, properly certified, should be forwarded, covering the expenditure incurred in this connection for each school, separately.

Dear Mr. MacDonald:

Your letter of the 26th. instant has been received, and I regret that you could not be with us last Friday morning, as well as the fact that other business made it necessary for me to leave Whyecocomagh at noon.

The Planetarium you refer to is, I understand, inexpensive and it would serve to interest your Grade V & VI pupils in observing the relative changes taking place in the position of the heavenly bodies; it would also enable them to clearly understand how changes in seasons, phases of moon and tides are brought about. The positions responsible for eclipses of both sun and moon are well illustrated. Trusting the Department may see fit to equip your school with one of these ingenious and interesting little devices,

Yours faithfully,

Sir:-

The attached requisition for plates has been received from Mr. Alexander MacDonald teacher at the Whyccocomagh Indian Day School. If these plates were supplied, the school desks would not be damaged to such an extent when the school lunch is being served. They could be obtained locally if you will authorize the purchase please.

Ottawa, December 18, 1931.

Sir:

I have your letter of the 4th instant, enclosing a requisition from the teacher of the Whycocomagh Indian Day School to be supplied with a number of plates to be used in serving the pupils' midday lunch.

In reply I have to say that you may arrange for the purchase from a firm on the list to receive consideration of 49 enamel plates and have them delivered at the school. After these plates have been supplied, you should forward an account, in duplicate, properly certified, covering the expenditure incurred.

Dear Sir:-

I return herewith your voucher No. 393 for \$50.40 in favour of Waters Bros., and beg to say that receipts covering freight and truckage should be attached. This is necessary to meet the requirements of the Audit Office. Of course, if this firm used their own truck, a receipt for the truckage is not necessary.

Sir-

The School Teacher
Mr. A. Mac Donald at Whycocomagh
Reserve who tells me that there
are about 10 panes of glass broken
in the school by vandals on
the Reserve. A number of stones
have been found in the school
house, showing that this was
done as an act of vandalism.

It would be good if the
Dept would authorize a reward

Sir:

I have your letter of the 25th ultimo, informing the Department of the damage incurred to the windows of the Whycocomagh Indian Day School.

In reply I have to say that you should arrange for the purchase and installation of the number of panes of glass required in replacing the glass broken by vandals. After this work has been completed, you should forward an account, in triplicate, properly certified, showing in detail the number of panes of glass purchased and the cost of same, also the cost of the labour in installing the glass. The number of hours employed and the rate per hour paid in installing the glass should be stated.

The Department is not prepared to authorize a reward for information leading to the arrest and conviction of the person who broke the windows. It is considered, however, that the Indian constable should endeavour to ascertain the guilty party, and the necessary action should then be taken to obtain a conviction. You should see the constable as soon as possible and have him attend to this matter, giving him any assistance you can in locating and convicting the guilty party. Please inform the Department later of the result of any action taken.

Dear Sir,

I beg to ask for authority to purchases for the Indian Day School, Whycocomagh, N.S., 10 panes of glass and three padlocks.

The glass in the school was broken by vandals during the recent vacation and the padlocks are required, one for the school: one for the coal shed and one for the school lunch closet as the ones now in use are old and not in proper working order. An amount of about three dollars will be required for putty and glazing.

I have your letter of the 5th instant, in further reference to the damaged windows at the Whycocomagh Indian Day School, and, in reply, would refer you to our letter of the 7th instant, authorizing you to arrange for the purchase and installation of a number of panes of glass.

You may arrange for the purchase and installation of the padlocks required for the school, coal shed and lunch room closet. While serviceable padlocks should be obtained, they should be as cheap as possible. After the above supplies have been obtained, please forward an itemized account, in triplicate, properly certified, covering the expenditure incurred.

Sir,-

May I ask please if the school-lunch, as given to the children of the Whycocomagh School during the past few years be authorized to start from October 1st. I have consulted both the Teacher and the Medical Doctor regarding this matter and they informed me that the lunch and cod-liver-oil as supplied by the Dept. gave excellent results from every point of view. So many of the children are from tuberculous families and as the oil and lunch is given regular in school I consider it even better than if left to the parents to do so. The Teacher told me that many of the children did not like to take the oil and that he had received letters from their parents instructing him to discontinue giving it, but after he had forced them to take it in small doses at first, they soon were willing and anxious to take it.

// Please send a supply of cod-liver -oil ,and authorize the school lunch to commence on October 1st.

Your obedient servant,

A. G. MacNeil

Rev. Sir:

I have your letter of the 7th instant, regarding the serving of a lunch to the pupils of the Whycocomagh Indian Day School as from October 1st, next.

In reply I have to say that the Department will approve of you arranging for the purchase of milk from time to time. Last year, ten cents per quart was paid, but it is considered that it should be obtained at much less cost this year. You may also purchase the quantity of sugar, cheese and biscuits necessary. Approximately 30 pounds sugar, 70 pounds cheese and 120 pounds biscuits were supplied last year. The teacher should keep an accurate account of the milk supplied each month and hand same to you. You should then prepare a voucher, in triplicate, for the amount due, to which should be attached the statement of the teacher, which should also be certified by him. Our funds this year are extremely limited, and the Department will rely on you to see that all costs for the food for the lunch are kept to the lowest possible point. The teacher may start the serving of the lunch from October 1st, next, and continue same until the end of March, following.

J. A.
You will be advised later regarding the supplying of cod liver oil.

Dear Sir,-

Received your letter No. 53-2-5 of the 15th inst., authorizing the serving of a lunch for the pupils of the Whycocomagh Indian Day School and I have informed the teacher of your instructions regarding the keeping of an accurate account of the supplies issued, etc.

Regarding the purchase of milk and the price of same, I have made enquiries and find that the regular price paid in Whycocomagh and the neighbouring locality is ten cents per quart, and even at that the supply that can be obtained nearby is limited. However, I have arranged to have milk supplied during October at the rate of eight cents per quart, with the understanding that should the price of butter increase, after that month, further arrangements regarding the price of milk will be made.

I have your letter of the 6th instant, requesting authority to incur expenditure in the purchase of supplies for a treat to the pupils of the Whyccocomagh and Malagawatch Indian Day Schools, to be given them at Christmas.

In reply I have to say that you may expend not more than \$10.00 in the purchase of candy, etc., for the Whyccocomagh School and \$5.00 for the Malagawatch School. Our funds this year are extremely limited, and the above is the full amount we can allow for each school. These amounts should not be exceeded. Please obtain itemized accounts, in triplicate, covering the expenditure incurred for each school, separately. Dear Rev. Sir:-

I beg to ask if the issuing of the school-lunch for this school may be continued until April 30th instead of March 31st, as stated in your letter of September 27th, 1932? A number of the Indians have asked me to write to you regarding this matter and I am sure that the authorizing of this request would greatly benefit the children who either eat a cold lunch or walk home to dinner during noon hour, when no lunch is served in school. After April, when the weather is warmer and the roads dry, school-lunch will not be required.

Yours truly,

March 6th. 1933.

The Secretary,
Department of Indian Affairs,
Ottawa, Can.

Dear Sir,-

I enclose herewith a letter received from Alexander Mac Donald, Teacher of the Indian School at Whycocomagh, asking for authority to have the date for issuing the school-lunch in his school extended till April 30th instead of March 31st as authorized by your letter 53-2-5, dated September 15th 1932. In view of the fact that I have much faith in the supplying of the school lunch and it's benefit to both children and parents, I recommend that the requested authority be given. As school will be closed during the Easter holidays in April, the additional expenditure for the remaining number of school days during April will not be large.

Your obedient servant,

A. C. MacNeil

Ottawa, March 11, 1933.

Rev. Sir:

I have your letter of the 6th instant, enclosing a communication which you received from the teacher of the Whyoccomagh Indian Day School requesting authority for the serving of the midday lunch to the pupils until the end of April, next.

In reply I have to say that the Department will approve of continuing the serving of the lunch to the pupils until the end of April, next. You may, therefore, arrange for the purchase of the supplies that will be absolutely necessary for the purpose. These supplies should be of the same type as previously obtained, and itemized accounts, in triplicate, covering the cost should be secured. These you should attach to proper voucher forms, certify in the usual manner and forward for payment. The final accounts covering the cost should be forwarded promptly after the end of April, next. It is noted that 10 cents per quart has been paid for the milk supplied. Could not milk be obtained at a lower cost per quart?

Before any action is taken next fall regarding the serving of the lunch, you should refer the matter to the Department and obtain the necessary authority before incurring any expenditure.

Your obedient servant,

A. F. MacKenzie

Dear Sir,-

I enclose herewith vouchers in favour of Mrs. Mary Bell MacDonald, Whycocomagh, N.S. for milk supplied for the school lunch, Whycocomagh Indian Day School, during March.

With reference to your letter 53-2-5 of the 11th inst., authorizing that the school lunch be continued during April, I have instructed the Teacher of the above named school to act accordingly. The final accounts will be forwarded as early as possible. Regarding the price of milk, I have investigated the matter and found that the regular price of milk everywhere in the district of Whycocomagh, is 10 cts. per qt., that is during the winter and spring months when milk is not plentiful. However, when the cows are put to pasture, thereby lessening the cost of production and the supply is larger than at present, I am informed that milk can be supplied at a lower price.

Dear Sir,-

I beg to ask for authority to commence serving the school-lunch to the children of the Whycocomagh Indian Day School on October 1st.

I have no hesitation in saying that this lunch as served during the past few years is very beneficial to the children and both the Teacher and the Doctor informed me that, during the past seasons when it was served, a very marked improvement was noticed in the physical conditions of the school pupils, who previous to that time were compelled to walk home to lunch or eat cold bread taken from home in the mornings.

Reverend Sir,-

With reference to your letter of the 13th instant, I beg to say that you may purchase the sugar, biscuits and cocoa necessary to serve a midday meal to the pupils of the Whycocomagh Indian Day School. It is expected that only the quantities absolutely necessary will be secured and the lunch should be served from November 1st, 1933, to March 31st, 1934.

If you consider it necessary, milk may be served during the months of December, January and February only.

As you are aware, our appropriation has been reduced and the above is all that the Department can allow for midday meal purposes at the Whycocomagh Indian Day School during the present academic year.

Dear Sir,-

I am in receipt of your letter No. 53-2-5 of the 19th inst., authorizing a school lunch for the Whyecomagh Indian Day School, to be served from November 1st 1933 to March 31st, 1934., and to assure that there will be no error or misunderstanding on my part in this regard I beg to ask for a little more information, please.

Your letter states that sugar, biscuits and cocoa may be purchased for the serving of the lunch during the above mentioned dates and that milk may be served during December, January and February. As the cocoa cannot be prepared without milk, am I to understand that biscuits alone will be served during the months of November and March or that milk may be served as an additional part of the lunch during December, January and February? If biscuits and hot cocoa (prepared with milk) would be served during the whole authorized time, I do not consider that it would be necessary to serve additional milk at any time.

I am aware that the appropriation has been reduced and my reason for asking for this information is to assure that I will cause no error through misunderstanding of your authority, however I would recommend that the hot cocoa be served throughout the authorized time and that cannot be prepared without milk.

Your early reply would be appreciated.

This treat has been authorized by the Department during the past number of years and I am quite sure that it will be expected this year and that the expenditure is money well spent.

On receipt of your reply, I will try to purchase the required candy etc. at a wholesale price so that the \$15.00 will be sufficient to purchase more than if the supplies were obtained at the local county stores, that is at the regular retail price.

Reverend Sir,-

The Department is in receipt of an account for \$14.20 for milk supplied to the Whycocomagh Indian Day School during the month of November. This account is being paid.

[Handwritten initials]
 I would point out, however, that, owing to the reduction in our appropriation, the Department finds it necessary to insist that all expenditures be reduced. Would it not be possible to serve the cocoa at noon without using such a large quantity of milk? I may say that the expenditure for the hot drink at noon at the Whycocomagh Day School is considerably larger than at other Indian day schools throughout Canada and an earnest endeavour must be made to reduce the expenditure immediately. Please take up the matter with the teacher and advise the Department.

Dear Sir,-

With reference to your letter of Dec. 7th. No. 53-2-5, regarding milk supply for the Whycocomagh Indian School during November, I have personally interviewed the Teacher regarding the matter and he informed me that he was following the instructions given by Miss Catherine MacDonald when she was Travelling Nurse for the Indians, that is the instructions she gave as to the quantity of milk etc. to be used in preparing the school lunch.

However, I informed him of your letter and he told me that in future, he would use less milk than he has been giving, approximately one-half pint to each pupil, per day.

Dear Sir,-

I enclose herewith a Requisition for School Material for the Whycocomagh Indian Day School, same having been handed to me by the teacher, Alexander MacDonald, yesterday. When giving me this requisition, Mr. MacDonald gave the following reason for asking for 8 window panes, 18 X 20;

He informed me that on opening school last Monday morning, he found 8 window panes broken and the floor of the school covered with broken glass and stones, and is of the firm opinion that the windows were broken by vandals throwing stones at them. This was done during the Summer holidays while the teacher was absent from the Reserve as there were none broken at the end of last term. Before cleaning and sweeping the floor, the teacher had Mr. Levi Poulett, Constable, and Truant Officer, also William B. Young, Jenitor for the school, witness the condition of the place and the broken windows.

I am instructing Constable Poulett to try and find out who the vandals were but have little hopes that he can find out. I am also posting up a notice regarding damage to Government property at the school.

In the meantime the glass is required as also is putty and the services of someone to do the glazing.

Dear Sir;

I wish to recommend that a new school building containing two class rooms be built for the WYCOMAGH INDIAN RESERVE. And also recommend that in the meantime the present building be renovated, and thoroughly cleaned inside and out and repainted inside as well as out.

My reason for the above recommendation is that the pupils are very much overcrowded. There is an enrollment of fifty-one pupils. The day I visited the school thirty-five pupils were present and every seat was occupied, in some cases three children were in one seat. The school is very dirty, the paints smoke stained and the woodwork very dirty. The stove and windows were broken but arrangements are being made to have these replaced.

With reference to the recommendation of Miss Murdoch re the overcrowding of the Wycocomagh School I needm only refer to my previous correspondence regarding this matter.

As you are aware the Wycocomagh Reserve is the largest in the Maritime Provinces, with more than forty families settled there, and to date there is but one class room, and the number of children attending school increasing annually.

I would heartily recommend that this matter be given favorable consideration and the various other matters as brought to your attention by Miss Murdoch be approved of.

In reply I have to say that the Department will have no funds to favourably consider authorizing an addition to the present school building nor for the erection of a new school with two classrooms. Neither will we have funds to provide for any outside painting of the building.

I would request, however, that you forward an estimate of the cost of having the interior of the present school building thoroughly cleaned and repainted. At the same time, you should state how long you consider it would take to have this work done and whether it would be necessary to close the school for the purpose. When we have full information as to the cost involved in cleaning and painting the interior of the school, favourable consideration will be given to authorizing having the work done.

Dear Sir.-

I enclose herewith a letter received from Alexander Mac Donald. Teacher of the Whycocomagh Indian Day School, regarding the condition of the stove used for heating the building.

Some time ago, while visiting the above named School. I saw the stove referred to and I am sure that it would not be safe to continue its use as one side of it is burnt and has a large hole in it. I also saw the stove which Mr. MacDonald has used after the other one became unfit for use and although the teacher told me that he was willing to leave it there even if it was his own personal property, it is not in very good condition and is far too small to heat the building.

I have made enquiries and find that a stove called "Red Cloud" No. 14 would be suitable and the cost would be about \$25.00. possibly less. and would recommend that one be purchased and installed as soon as possible.

Dear Sir.-

I am in receipt of your letter 53-2-5 of Sept. 29th asking for an estimate of the cost of cleaning and repainting the interior of the Whycocomagh Indian Day School.

I have made the necessary enquiries and find that by buying the paint and cleaning material locally and having the work done by a local Indian who is a good and experienced painter, the cost will be as follows;

6½ gals. paint at \$4.50 per gal.....	\$ 29.25
¾ gal. oil and turpentine, mixed.....	.90
1 gal. floor oil.....	2.85
Cleaning material, soap etc.....	.75
Labour, cleaning.....	10.00
Labour, painting.....	20.00
Total	\$ 63.75

This includes two coats of paint of good quality and medium price. As the painter could not give an exact estimate of the time he would take to do the job (between 7 and 8 days he thought) with a helper) he could not give a rate of wages per hour but will take the job on contact, which is the lowest offer I received. for the amounts above stated.

I would suggest that the work be done during the Christmas holidays so that school will not have to be closed as it will be impossible to to the work with school open. Again it could be done part by part by working on Saturdays, which would also be suitable.

OFFICE OF

November 7th. 1934.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Can.

Dear Sir.-

I beg to report that the roofs of the Teacher's house, also of the barn and school-house porch, Whycocomagh Reserve are in need of a little repairing.

The recent storms have blown some of the shingles off the roofs and others are loosened, causing leaks, and I would consider that it would be a wise move to have the repairs made before they become worse.

An expenditure of \$12.00, to include shingles, nails and labour would be sufficient and I recommend that this amount be authorized and that the work be done by local Indians.

I may also state that the sills of the barn are partly rotted but would not suggest that they be replaced by new ones till next Spring as they will do till then and moreover, it would be hard to have the new sills placed at this time of the year on account of the soft weather.

Yours truly,

A. J. MacNeil

Dear Sir,-

I beg to ask for authority for an expenditure of \$15.00 that is, \$10.00 for the Whycomagh School and \$5.00 for the Malagawatch School, for the purpose of supplying a treat for the school children at Christmas.

This treat has been given by the Department in past years and I am sure it will be expected this year.

Last year, I purchased the candy, prizes etc. at a wholesale price and can do likewise this year if same is authorized.

Reverend Sir,-

The Department finds it necessary to return the enclosed voucher in connection with painting and cleaning the interior of the Whycocomagh Indian Day School.

Your voucher states "contract for job - \$20.00". In view of present regulations, it is necessary to have a copy of the contract before payment of the account can be considered. As the work was done by an Indian, it is likely that the contract to which you refer was a verbal, not a written, one. It would, therefore, be preferable to prepare the account showing the number of days which Googoo worked and the rate per day.

You should, also, state on the face of the voucher that Googoo has been paid by Angus MacLeod and that, therefore, cheque for the amount should be forwarded to MacLeod.

Schools and Teacher's Residence.

Admitted and

The wire fence surrounding the Indian Day School on Whycocomagh Reserve, N.S. requires some new posts and also to have the whole fence re-stretched.

This fence was put up before I became Indian Agent and during my recent visit to Whycocomagh, I noted that the fence was down in places and the posts too rotten to hold the wire. Some of the posts are sound but many have fallen during the winter and new ones are required.

The fence surrounding the lot of the Teacher's Residence also requires a little repairing.

The barn on the Teacher's residence, Whycocomagh Reserve has two rotted sills and also some decayed woodwork and planks about the doors, windows etc. If this is not attended to as soon as possible, a greater amount of expense will be required to put the building in safe condition. It also requires painting but I would not suggest that this be done this year as the other repairs are more urgent.

Some repairs to the doors and door casings of the Indian Day School at Malagawatch Reserve are urgently required. The interior of this school also requires painting.

EXTRACT 53-2-5

The
I would recommend that \$60.00 be authorized for repairing the school fences and barn on Whycocomagh Reserve, and \$8.00 for repairing the doors etc. on the Malagawatch School. If the Malagawatch school is to be repainted, inside, about \$40.00 will be required for material and labour. I would also say that all the above work be done by Indian labour as they can do it and so many are unemployed.

Rev. Sir:

With reference to your letter regarding the wire fence surrounding the Whyccocomagh Indian Day School, please let me know the approximate cost of having this fence repaired.

Regarding the barn near the teacher's residence, you might state the cost of the material required to repair this building. If this barn is used wholly by the teacher, the Department considers that, if we supply the material, the teacher should do the work himself during the summer holidays without cost to the Department.

The Secretary,
Dept. of Indian Affairs.

Dear Sir,-

Mr. Alexander MacDonald. teacher of the Whycocomagh Indian Day School. Whycocomagh. N.S.. has brought to my notice the fact that during last year's summer holidays, the windows of the school house were broken by vandals who assembled around the school grounds during the nights and while he was absent from the Reserve. The Teacher interviewed me regarding any action he may take to prevent a repetition of this distroying property this year and said that if material for shutters was furnished, he would make and install them free of charge. providing all concerned would be satisfied with his work.

My records show that the breaking of the said windows caused an expenditure of \$5.30 on last year and also that a few years previous. a less amount for a like purpose was incurred.

Seven shutters are required and I recommend that \$1.50 each. a total of \$10.50 be authorized for this purpose and that Mr. MacDonald make and install them free as he has offered. Planed lumber and hardware will be required and I feel sure that MacDonald can build the shutters satisfactory.

As the end of the school year is near. I would suggest that this expenditure be authorized as soon as possible so that the windows may be made secure when the holidays begin.

Yours truly,

Rev. Sir:

I have your letter of the 16th instant, stating the action you advise be taken to protect the windows of the Whyoccomagh Indian Day School building from damage during the summer holiday period.

In reply I have to say that the Department will approve of an expenditure of approximately \$10.50 in having shutters made and installed on the windows. It is noted that the teacher will make the shutters and install them free, if the material is supplied. You may, therefore, arrange for the purchase of the quantity of plain lumber and hardware required, obtaining accounts, in triplicate, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

I wish to refer to official letter of the 10th ultimo, regarding the repairs required to the wire fence around the school and also to the fence surrounding the lot of the teacher's residence. Please state the cost of the material and labour required in repairing these fences, when consideration will be given as to whether funds for the purpose can be provided or not.

You should also state the cost of the material required in repairing the barn near the teacher's residence. I would request that you state for what purpose this barn is used. Does the teacher keep any stock or carry out any farming operations? In any event, if he requires the barn, he should be responsible for carrying out any labour in making the repairs.

Dear Sir.-

With reference to your letter of the 22nd inst. I wish to state that I visited Whycocomagh yesterday and inspected the fences surrounding the school and Teacher's residence.

The wire of the fences is quite serviceable but many posts are decayed and the wire requires re-stretching. I would estimate that an expenditure of \$18.00 for new posts, labour and the rental of a stretcher will put both fences in good condition.

Regarding the barn, two sills are decayed and also parts of the windows, doors and floor. However, if one sill was installed this Summer and the other repairs made, the second sill would not be required for possibly a couple of years, and the building would be in a condition so that it would not sink in the ground or go out of shape. The barn is used to keep the Teacher's stock, and also to house my own team when in Whycocomagh on Winter visits. It is also used to store any Government implements or supplies which may be on hand from time to time. The Teacher told me that he is quite willing to do any work he can do in repairing the building but I know that the placing of the sill requires an experienced man. I would estimate that an expenditure of \$30.00 for the purchase of material and the labour of an experienced carpenter, with the Teacher giving all the help possible, would put the barn in such a condition that it would be safe from further damage and in a fair condition for many years.

Rev. Sir:

I have your letter of the 26th ultimo, giving an estimate of the cost of the repairs required to the fence surrounding the Whycocomagh Indian Day School and also to the barn.

In reply I have to say that the Department will approve of your arranging to have the repairs required made to the fence. It is noted that a number of new posts will be required and that the wire should be re-stretched. The cost of the material and labour should be kept within your estimate, viz., \$18.

The Department will approve of an expenditure not exceeding approximately the sum of \$30 in supplying the materials and labour required in repairing the barn. It is noted that if one sill is installed and minor repairs made, the building would be placed in a condition that would be serviceable for a few years. It is noted that the teacher is willing to do as much of the work as possible. It is thought that Indian labour could be employed to assist him in making the repairs to the barn and also in repairing the fence.

You should obtain itemized accounts, in triplicate, covering the cost of all materials. These you should attach to proper voucher forms, certify in the usual manner and forward for payment. You should also forward vouchers, in triplicate, properly certified, for the labour employed. It should be definitely stated the number of days or hours employed and the rate paid. It is expected that you will keep all costs in carrying out the work as low as possible.

I would request that you will have the work which has been authorized at this school carried out during the summer holidays.

EX'D.

Ottawa, April 27, 1936.

Rev. Sir:

The Department recently received from you a voucher in favour of Mrs. Wm. Googoo, Whyccocomagh, N.S. This voucher read: "Milk for school lunch, Whyccocomagh Indian Day School, during the month of March, 1936 - 21 quarts @ 10¢ .. \$2.10".

A cheque was issued in favour of Mrs. Wm. Googoo and sent to Whyccocomagh, as directed by your voucher, but has been returned. For your information, I enclose the envelope in which the cheque was sent, and you will note the notation on this envelope by the postmaster at Whyccocomagh.

If the payment should have been made to Mrs. Michael Googoo it will be necessary for you to forward another voucher in her favour, as the only procedure the Department could adopt was to deposit the cheque issued in favour of Mrs. Wm. Googoo and returned by the postmaster at Whyccocomagh.

Dear Sir,-

I am in receipt of a letter from Alexander Mac Donald, Teacher of the Whycocomagh Indian Day School, informing me that a cheque in payment of milk for the school lunch, supplied during March, amounting to \$2.10 was received at the Post Office at Whycocomagh and that same was payable to Mrs. William Googoo. As this was due to Mrs. Michael Googoo, the cheque has been returned to you, there being no Mrs. William Googoo there. The Teacher states that he might have made an error in writing the name "William" instead of "Michael" and again it is possible that I have made the same error in making out the vouchers.

However, the payment for milk for the school-lunch for March, amounting to \$2.10 is due MRS. MICHAEL GOOGOO, and I am informing her that she will receive payment in due time.

Yours truly,

A. C. MacNeil.

Dear Sir,-

I was interviewed, a few days ago, by Mr. A. MacDonald, Teacher of the Whycocomagh Indian Day School regarding a few minor repairs to the school and out-buildings in preparation for the coming cold weather.

The requirements as stated by Mr. MacDonald are; Cleaning and white-washing toilets and the building of screened approaches to them; repairing of coal-shed door and window and the glazing of four windows from which the old putty has fallen.

We estimated the total cost to be not exceeding \$11.00 and I recommend that this expenditure be authorized.

Yours truly,

A. C. MacNeil

April 6th, 1937.

The Secretary,

Dept. of Mines and Resources,
Ottawa, Can.

Dear Sir,-

I have been interviewed by Mr. Alexander Mac Donald, Teacher, regarding washing and cleaning the interior of the Whycocomagh Indian Day School and now I beg to bring the matter to your attention and recommend that the work be authorized.

The Teacher states that the painting of the interior of the school is in good condition but has become dirty by coal dust and smoke from the stove and although the janitor keeps the floors clean, the walls and ceiling are badly in need of being scrubbed. He also states that the floor of the school requires re-oiling.

I believe his statements, knowing that all local schools are cleaned and scrubbed (walls and ceiling) annually and the Springtime is best suited for the purpose. I recommend that \$20.00 be authorized to include floor oil and a general cleaning to the school's interior.

MEMORANDUM:

DR. MCGILL.

Whycocomagh Indian Day School (Inverness Co.).

Teacher: Mr. Alexander MacDonald.

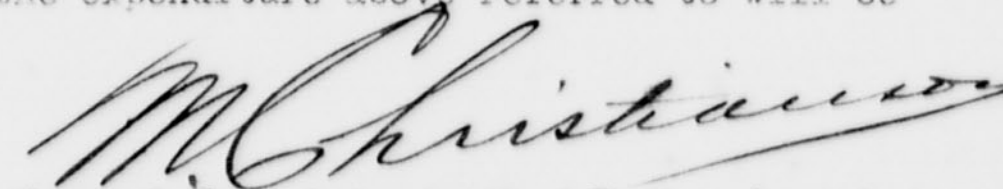

This school building is in a fair state of repair. The seats in the school all need some repairs, tightening up, etc. One of the Indians there could do this work.

An out house is required, at a cost of \$15. The teacher will do the necessary work.

The teacher asked that some interior painting be done in his residence, and the steps in front of the house need repairing. Mr. MacDonald informed me that he would do the work if the Department would supply the material, which we figured would cost about \$40. The total expenditure for repairing the seats, building out house and painting and repairs to the teacher's residence would be about \$65.

I was very much impressed with Mr. MacDonald. As Rev. Father Angus MacNeil, the Agent, lives 22 miles from the school, the duties of agent fall, to a great extent, on the teacher. He has been with the Department now for fourteen years, and takes a great interest in his work, not only in the school but also in the Indians. I had a meeting with the Band at the school, and I noted at the meeting that the Indians certainly looked to Mr. MacDonald for guidance.

I trust the expenditure above referred to will be authorized.

Reverend Sir,-

In reporting on his recent visit to the Whycocomagh Indian Day School, Mr. M. Christianson, General Superintendent of Indian Agencies, recommends an expenditure not exceeding \$65.00 for repairing the seats in the school and erecting a new toilet, also painting and repairs to the teacher's residence. He states that the teacher is prepared to do most of the work without cost to the Department. You may, therefore, arrange for the purchase of the necessary materials from firms on the approved list. The total expenditure should not exceed \$65.00.

Dear Sir,-

While visiting Whyoccomagh Reserve a few days ago, Mr. Alexander MacDonald, Teacher of the Indian Day School there brought to my notice some damage done by the recent storm which caused so much damage throughout the entire province.

Two panes of glass in the school were broken and shingles were torn off the school, coal-house and barn, causing them to be leaky. The teacher said that if he is supplied with the glass also shingles and nails, he will have the repairing done at his own expense, therefore I recommend that the required material be supplied.

I would consider that an expenditure of not over \$10.00 would provide all requirements.

Dear Sir,-

I beg to ask for authority to supply the Whyccocomagh and Malagawatch Indian Day Schools of this Agency with milk, biscuit and cocoa for a mid-day lunch from November 1st. to May 1st. 1937, as was done in former years.

A few new dishes for preparing the lunch will be required as the old ones are worn out; the total cost to be about 7 or 8 dollars.

I may state that the serving of the lunch is of great value as nearly all the children live a considerable distance from school and without the warm lunch, they eat cold bread only. Both Tecahers reported this to me.

I beg to ask for authority for the purchase of a Christmas treat of candy, fruit etc. for the school children of Whycocomagh and Malagawatch Reserves, the expenditure to include prizes for different matters arranged by the teachers.

An allowance of a total of \$12.00, that is \$8.00 for Whycocomagh and \$4.00 for Malagawatch has been made by the Department for the past number of years and I feel sure that the same, which was a worthy one, will be expected this year as well as formerly. \$12.00 will be sufficient and I am asking for this authority at this early date as I wish to purchase wholesale and thereby get more for the money than I would by purchasing from local retail dealers.

RECORDS

Dear Sir,-

I am in receipt of a letter from Mr. John K. MacDonald, (General Merchant), Whycocomagh, N.S. saying that his account for material supplied for repairs to the Whycocomagh Indian School and Teacher's residence, to the amount of \$29.70 has not yet been paid.

My records show that this account in favour of John K. MacDonald, \$29.70 was forwarded from this office on October 12th, 1937.

The account was part of the amount authorized by Department letter # 53-2-5, dated June 10th, 1937.

Mr. MacDonald's account was as follows;

1000 ft. rough boards @ \$16.00.....	\$16.00
2 gals paint @ \$4.35.....	8.70
20 lbs. spikes @ 6¢.....	1.20
1 M. Shingles @ \$3.50.....	3.50
5 lbs. shingle nails @ 6¢.....	.30
	<u>\$29.70</u>

Reverend Sir:

With reference to your letter of the 7th instant our records show that cheque 38581 for \$29.70 was forwarded to Mr. J. K. MacDonald, General Merchant, Whyoccomagh, N. S., on October 23, 1937. This cheque is still outstanding and possibly it did not reach Mr. MacDonald.

Please obtain a letter from Mr. MacDonald stating that he has not received this cheque and forward same to the Department. When this is received the necessary forms required before a duplicate can be issued will be forwarded to you.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Extract from Inspector Fraser's report on the Whydocomagh Day School dated March 9, 1938:

Stove should be jacketed with sheet-metal to facilitate even warmth and circulation of air.

Toilets need repairs and addition of doors.

The school should be repainted this year both inside and out. It is out of harmony with most of our schools in regard to colours used and moreover is in need of repainting.

The interior of the school is at present painted light blue. All, or almost all, our Inverness County schools are painted in about the following colour scheme:

Wainscot -- medium brown, or stained natural wood.

Walls -- very light buff.

Ceiling -- cream.

If your department insists on blue, then repainting in this colour should be done; but I recommend the colours described. Blue is a cold and depressing colour for classrooms, especially when unrelieved by any other colour.

The exterior of the school is in the worst possible colour for our beautiful landscape -- dull grey. The school should be painted in a combination of very light colours, probably straw trimmed with white or brown; buff with white; or white with green.

The playground is entirely without equipment. Two strong teeters and a three-swing outfit would be enjoyed and appreciated.

OFFICE OF
INDIAN AGENT

January 27th, 1939

The Secretary,
Indian Affairs Branch,
Dept. of Mines and Resources,
Ottawa, Can.

Dear Sir,-

Yesterday, I received a telephone message from Mr. MacDonald, Teacher of the Whycocomagh Indian Day School, saying that, that day, during a snow storm, parts of the school-house stove cracked open, they having been previously partly burnt out.

He made temporary repairs by which the stove can be safely used for a short time but as he strongly suggested new parts, I instructed Mr. J.K. MacDonald, Merchant of Whycocomagh to procure them as soon as possible.

The Teacher states that the rest of the stove was as good as ever and that he would install the replacement parts himself, so to assure that there would be no case of fire, I gave the order without waiting for your authority or instructions, as the parts cannot be obtained locally and must be procured from Sackville, New Brunswick. The parts are; 1 fire pot and one top ring cover, which should cost only a few dollars.

Kindly let me have your authority for this expenditure which I, ~~as well as the Teacher~~ as well as the Teacher, considered very urgent.

Yours truly,

A. L. MacNeil

Dear Sir,-

I return herewith Vouchers for milk supplied for the school-lunch, Whycocomagh Indian Day School, also certificate signed by the teacher as requested.

The teacher states that, through error this certificate was not signed by him when forwarding same.

He also states that that he has been informed that payment for the November supply, \$1.90 each to Miss Catherine Sylliboy, Mrs. Michael Googoo and Mrs. Mary Young has not been yet received. My records show these accounts and vouchers were forwarded on December 1st, 1938.

Yours truly,

Dear Sir,-

The fence surrounding the Whyeocomagh Indian day School is after falling on account of the posts being rotted and the snow causing them to fall. The fence itself is of wire and in good condition.

Cost of erecting the fence would be as follows;

43 round posts @ 10¢ each.....	\$4.30
12 square posts for or ornamental fence along front, @ 20 ¢.....	1.20
14 braces for gates and corners @ 20¢.....	2.80
24 pieces 2 x 4 in. lumber for front fence @ 25¢.....	5.00
Steeple and spikes.....	1.75
Labour, 40 hours @ 25 ¢.....	10.00
	<u>\$ 25.05</u>

This is an estimate which will cover the total cost and if possible, this amount may not be all used.

I recommend that this be authorized.

To the Dept. of Indian Affairs

Schomwa

I would urge that the interior of the school be painted in the very near future. Window blinds are also needed. A cheerful, bright classroom with proper wall decoration would certainly produce better results. It would then be a proper home to each child during the six hours in which the classroom is the child's home.

I also wish to make application for the daily school lunch.

Thank you,

Sir, To the Secretary.

Reverend Sir:

With reference to the letter from the teacher of the Whycocomagh Indian day school you may authorize her to serve a light midday lunch during the period November 1, 1939, to April 30, 1940. The monthly cost of the supplies must not exceed the amount expended last year.

If new window blinds are needed in the school you may secure them.

In connection with the painting of the interior of the school please let me know the cost of material and labour. You should also advise if Indians can be employed to do the work or if it will be necessary to secure white labour.

Yours truly,

Whycocomagh, N.S.,

Dept. of Indian Affairs,

Dear Sirs:

I have already made application for the serving of the "hot lunch" in the Whycocomagh Indian Day School. Pending a reply, I beg to ask for the articles listed on the requisition - if the request for the school lunch is to be granted. (to begin November 1)

May I once more call to your attention the fact that the interior of the school is badly in need of paint. A bright, cheerful room is a necessity in making the children health-conscious. A clean cheerful atmosphere in the school - which is the Indian child's home for six hours daily - might influence a great deal his home life.

In the small amount of class room decoration which I have already accomplished, I find the children very interested and willing helpers. I don't think I exaggerate the effects of a bright, homelike, comfortable class room on those children.

Thanking you,
Yours truly,

Requisition for School Material

Date October 25 1937

For Whycocomagh Indian Day School Inverness Agency

NOTE:

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

ARTICLES	NUMBER ON HAND	DATE OF LAST RECEIPT	NUMBER REQUIRED	NUMBER AUTHORIZED	REMARKS

I wish to urge that you consider favorably the request of the teacher at the Indian Day School, Whyccocomagh Reserve, that the interior of the school be painted. The walls are begrimed and dark, and the schoolroom is thus certainly not conducive to healthful school living. A covered water container, individual drinking cups, towels, tooth brushes and powder, window blinds are also needs which should be attended to at once.

To the Secretary
Dept of Mines and Resources
Indian Affairs Branch.

Re estimate of Painting Interior
of school.

Dear Sir:-

I have had Michael Gossard,
a very good painter examine the
interior of the school and make
an estimate of its requirements.
The figures I will require 5 gal
of cream paint. 1 gal. of light
brown. 1 gal. of oil. 1 gal of
Turpentine.

He will do the work for
\$20.00. However, in order not to
interfere with school. I suggest
it be done during the Christmas
Holidays.

Prices of Paint are as follows
as Watlings 1st Grade 325 per gal.
at the Co. of Stores. same high grade
3.00 per gal. No estimate as to oil or
Turpentine but I can get best figures
on that.

Yours Sincerely,
A. L. Macneil Agent

Dear Rev. Father;

I understand that the Department allows
an expenditure for candy etc for the Indian children
at Christmas. Would you be kind enough to ask for a
similar expenditure for this year?

Thank you,

Yours sincerely,

Dear Sir:-

I enclose herewith - a letter
from the teacher at Whycocomagh
Reserve school. requesting a
grant again this year for a
treat for the Indian children.

I might add that Mrs. Mac
Neil is putting on a concert
for the children - and having a
Christmas Tree. This is something
new for the children at Whycocomagh
Reserve. I am told that she is
having a difficult time trying
to get them to learn their little
recitations, etc. but believes she
will succeed. I am expected to
attend - and I am very anxious
to note the improvement made
in this instance

Yours sincerely
A. G. MacNeil

AGENT

P.S:- No doubt if a grant is made
for Whycocomagh, Malagawatch
will be included also as well

Reverend Sir:

With reference to your letter of the 7th instant the Department will allow the following amounts for a Christmas treat for the children:

Whycocomagh	-	\$8.00
Malagawatch	-	4.00

These are the same amounts as were allowed last year.

This is the last year that the Department intends to make a grant for the purpose mentioned above. Later you will be advised regarding possible methods of securing funds for the Christmas tree entertainment.

Dear Sir:-

I beg to ask for authority to have a light midday lunch served to the pupils of the Whycocomagh and Malagawatch Indian Day Schools, N. S. from November 1st. 1940 to April 30, 1941, as has been done with excellent results during the past years.

The expenditure, in this regard, will not be as large as formerly, as both schools will be closed during January, they having been open during September, as previously arranged with your Department.

Reverend Sir:

I desire to acknowledge receipt of your letter of the 3rd instant and to state that you are authorized to make the necessary provision for a noonday lunch at the Whycocomagh and Malagawatch Indian Day Schools.

It is noted that these schools will be closed during January and that this fact will result in a reduction of the supplies necessary to provide these lunches.

Yours truly,

Dear Sir:-

In your letter 53-2-5, dated Dec. 13, 1939,
you stated that another method of supplying a
Christmas treat for the children of the Indian Day
Schools would, possibly, be considered by the
Department. In former years, \$8.00 for the Weyecoming
School and \$4.00 for the Malagawatch School was
authorized. Please let me know if this is
authorized this year or if there are any other
arrangements made, so I may inform the
teachers of the school, accordingly.

Reverend Sir:

With reference to your letter of the 25th instant regarding a Christmas treat for the Indian children attending the Whyeocomagh and Malagawatch Schools it is considered that the teacher should be able to arrange a concert a week or so before Christmas and either charge a small admission fee or take up a collection. By so doing sufficient funds should be raised to provide a Christmas treat for the pupils attending the school. In addition it should have a tendency to make the Indian parents realize that they have some obligations with regard to the education of their children.

Yours truly,

R.A. Hoey,

Ottawa,
November 21, 1941.

Reverend Sir:

In official letter of October 11 you were authorized to make the necessary arrangements for the serving of a midday lunch at the Malagawatch and Whycoomagh Schools for the period November 1, 1941, to April 30, 1942. We have recently received two accounts for supplies purchased for the month of November. The total amount for midday meal supplies charged in these two accounts is \$36.06. From the vouchers it would appear that this amount was for the Whycoomagh School only. Is this correct or was this amount used at both schools? In either case it is a much larger amount than is usually supplied. It was never the intention that anything approaching a full meal should be served. It is our desire that a small quantity of food or hot drink should be served to supplement whatever the children may bring with them.

Yours truly,

Rev. A.C. MacNeil,
Indian Agent,
Glendale, N.S.

Supt. of Welfare & Training.

Herewith Mr. Morris' report on the Whyccomagh Agency, Oct 15- Oct. 26

22
SCHOOL -

is an old building in very poor condition. The roof was leaking badly in many places. The agent was instructed to purchase the required number of rolls of ready-roofing and engage an Indian to put it on. This was the most economical repair that could be made - keeping in mind that the school will be abandoned in the next two or three years. Authority was also given to have the walls and ceiling washed. The toilets were in a dirty condition. The agent was instructed to have them attended to immediately.

...Miss

- 13 -

Miss Mary Mackenzie, the teacher, appears to be a bright, intelligent person. Thirty-two children were in attendance. There were not enough desks to accommodate this number and it was necessary to have three children use one desk. Mr. McKinnon is arranging to provide a few extra desks which he obtained from the Subenacadie School. The children on the whole were clean and neat, and appeared to be well fed and well dressed.

22
TEACHER'S RESIDENCE -

is a fairly good building, but as it has not been occupied for several years a great deal of damage has been done to it. There are many panes of glass broken. The back entrance has been damaged. Mr. William B. Young, Indian, who was the Postmaster at Whyccomagh, offered \$100.00 for the teacher's residence (see Mr. Phelan's letter of October 16, File 53-2-8). Since Mr. Young made the offer he died suddenly on a potato picking trip to Maine. His family, however, are still interested in the purchase of the residence. I would strongly recommend that their offer be not accepted. If this Indian family purchased the building then they would not readily agree to move to Eskasoni when a new house would be available - possibly in the course of the next two years. Further, the fact that we would sell the building to an Indian might leave the impression that we do not intend to carry out the centralization scheme of the Cape Breton Indians completely. I would recommend that the residence be dismantled by a competent Indian carpenter on the reserve - the lumber, doors and windows, salvaged - and moved to Eskasoni by departmental truck. We are in urgent need of good seasoned finishing material. The cost of this work would, of course, be paid from Welfare funds. The agent should be advised to dismantle the building as recommended.

Re: Teacher's Residence,
Wyeocumagh Reserve.

You are instructed to have the teacher's residence on the Wyeocumagh Reserve carefully dismantled, and salvage all material such as doors, door frames, window frames and sash, flooring, sheeting, bricks, etc. The material will then be trucked to the Eskasoni Reserve to be used in the construction of the store and residence to be built near the headquarters next summer. It is just possible that some of the salvaged material would not be suitable in the construction of the store - undoubtedly it could be used in the construction of Indian homes.

At the time of your visit to Ottawa you suggested that it might be wise not to dismantle the building during the winter time as the material might be stolen. It will be left to you to decide when the work should commence. The cost of the labour will be paid from Welfare Vote. If there are Indians on the Wyeocumagh Reserve who are carpenters, and are trustworthy, then the work should be done by them - if not you have authority to use men from the Eskasoni Reserve.

Mr. Pedley,-

It is not our practice to supply teacher's residences unless for some reason it is difficult to find board or residence within reasonable distance of the school. It should be possible to obtain a house in Whycocomagh village, which is not far from the reserve. Mr. Gillies, who is the school teacher there now, has taken a great interest in the Indians and his presence on the reserve I believe to have been beneficial. It was reported to me that he has rented an Indian house on the reserve. If it would serve the purpose of keeping him or some other good man on the reserve constantly I would feel inclined to recommend the putting up of a house ~~some time~~ *at some future time*

Dear Sir,-

With reference to your conversation here a short time ago, regarding the erection of a teacher's residence on the Whycocomagh Indian reserve, N. S., I beg to say that the practice of the Department is not to supply teachers' residences unless it is difficult to find suitable accommodation within reasonable distance of the school. The Department is of opinion that it should be possible to obtain a house in Whycocomagh village, which is not very far from the reserve. At any rate, it is a matter that the Department will bear in mind, and, if found necessary, would incline towards a favourable view of the suggestion made.

Yours truly,

Ottawa, May 30, 1912.

Mr. Pedley,-

Mr. John A Gillis, teacher of the Whycocomagh Indian School, has written the Department in reference to the erection of a teacher's residence. I beg to refer to this letter, which is turned out hereunder. As Mr. Gillis's services as teacher are very satisfactory I am of opinion that we should try to erect here this summer a residence similar to the one for which the contract is now being let at Middle River. The building at Middle River is costing \$1450.00 and I presume it could be built for about the same figure at Whycocomagh. Although no special provision has been made in the estimates for this building the General School Vote will stand the expenditure.

Sir,-

Referring to official letter of the 21st ultimo I beg to say that the Department cannot undertake the erection of a teacher's residence at Whycoomagh this summer. A sum of money for this purpose will, however, be placed in the estimates for next year and should the grant be allowed by Parliament this work may be undertaken next year, provided conditions remain such as to warrant the Department in putting up a residence.

I am sorry to acknowledge receipt of your letter with reference
to a teacher's residence on the reserve here for which
to thank you. If I could get a house to rent here
I would not put the Department to any trouble. The house
I occupy at present and the only one to be had is belonging
to an Indian and is little better than a camp as the rains,
snows, and hail can enter through the cracks in the wall.
In fact it is so cold that we nearly froze to death last

Dear Sir:

Will you kindly let me know if it is the intention of the Department to erect a dwelling house for the teacher at the Whycocomagh, Indian Reserve. I understand that a dwelling has been erected for the teacher at Nynanza, Victoria County. The Whycocomagh school, ~~is~~ if I am correctly informed, has a larger attendance than that at Nynanza, the labors of the teacher are more arduous, and conditions generally warrant the erection of a dwelling for the Whycocomagh teacher. If it is decided to build, would you kindly inform me as to the date when the work will be done, and will it be done by contract or by days labor.

Yours sincerely,

Sir,-

I have to acknowledge the receipt of your letter of the 23rd instant asking if it is the intention of the Department to erect a dwelling house for the teacher on the Whycocomagh Indian Reserve.

In reply I beg to say that Mr. John A. Gillis, teacher of this school, was informed that the Department could not undertake the erection of a teacher's residence for him this summer, but that a sum of money would be placed in the estimates for next year for this purpose and, if allowed by parliament, the work might be undertaken next year, provided conditions remain such as to warrant the Department in putting up a residence. If the Estimates as submitted to Parliament for 1913-14 contain the item for the Agent's house at Why-cocomagh as originally prepared by the Department, it may be just as well to look into the matter of getting the material ready during the winter, in case it should be decided to erect the building by day labour.

MEMORANDUM:

Mr. Pedley,-

With reference to your memorandum of the 8th instant, I beg to say that \$1450.00 has been provided in the ~~supplementary~~ Estimates for the erection of a teacher's residence at Whycocomagh. This is the amount which the teacher's house at Middle River cost, where the building was constructed under contract. I think that we should let a contract for the house required at Whycocomagh, and it is reasonable to suppose that it can be erected for the same money as at Middle River. As the season is now far advanced, it would seem necessary to allow the matter to stand until the early Spring and then call for tenders for the work.

Sir,—

Referring to your letter of the 12th. inst., I beg to say that I was not aware the Department had decided to build a teacher's residence at Whycecemagh until advised by you on the 21st. ultimo, and, therefore, the site for that building has not yet been finally selected. A suitable place may cost the Department \$100.

The site for the school house at Indian Cove has been chosen and marked. The Indians are giving the land free. They had intended it for a church property.

The place for the school house at Bayfield is also selected and marked, and I shall forward the Deed of the property to the Department as soon as I can visit the owner and get him to execute the document. At present, I am not very well prepared for travelling, being completely out of expense funds.

However, I can assure the Department that everything will be in readiness for the erection of the buildings, so far as sites are concerned, before the contracts are let; and you shall have my views in due time on the best means of having the work of these supervised during progress.

TO DATE OF THIS LETTER.

Schools
Sir,--

427302

I beg to advise you that a site has been selected by me for the teacher's residence to be erected on the Indian Reserve at Whycoomagh.

I have agreed to purchase from widow Esther Sylleboy and her heirs a plot of ground, for that purpose, containing three acres. The price of the property, including water privileges, is one hundred dollars.

The place selected is the most suitable in every respect; one might have been obtained for less money, but without any water privilege, to secure which would probably involve a larger outlay in the end, as was the case at Malagawatch, than the low price which Mrs. Sylleboy agrees to accept for her property.

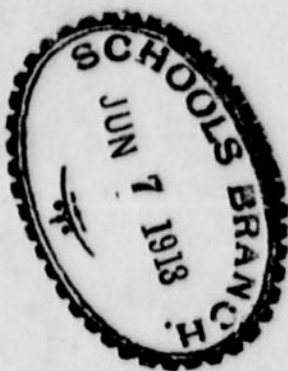

When I receive the Department's approval of this agreement, I shall proceed to get a title of the land from the present owners.

Your obedient servant,

A. J. Boyd

Dear Sir:

Re tenders for the construction of teacher's residence
at Whycocomagh Indian Reserve.

I understand that Mr. John J. Fraser of Whycocomagh has put in a tender for this work and that he forwarded along with his tender a cheque on the Royal Bank of Canada for the amount specified in the notice. Mr. Fraser was getting ready to leave for a trip to Toronto and inadvertently omitted to have the cheque certified by the Bank. I hope that this omission will not invalidate Mr. Fraser's tender. His account in the Bank is for that amount and much more. If you deem it necessary, you may please wire the Bank at Mr. Fraser's expense and they will inform you direct on the matter. I can assure you that I will greatly appreciate it if you will kindly arrange it so Mr. Fraser's tender will not be overlooked, on account of the omission above stated. I may say that it is impossible for Mr. Fraser to issue a cheque and have it certified by the Bank, and send it to you before June 10th., for as above stated he is now absent from the country.

Thanking you in advance.

Yours sincerely,

Thos. Gallant

Sir,-

I beg to acknowledge the receipt of your favour of the 31st ultimo, and note that you have agreed to purchase from Widow Esther Sylleboy and her heirs, plot of ground for Teacher's residence, containing about three acres, including water privileges for \$100.00; in reply I beg to enclose a Quit Claim Deed from the owners, which you will kindly have them execute after filling in their names as the parties of the first part. Kindly insert a description of this property by metes, boundaries and directions in Schedule A attached to the Deed, also insert therein the description and nature of the water privileges referred to. This Schedule should be initialled by the person who witnesses the signature of the Deed.

One declaration should be made by Esther Sylleboy setting forth the facts referred to in the margin and any other matter that appears to be material. The other declaration should be made by some elderly person who is familiar with the property and the owners. When this deed and declarations are executed, kindly forward them to the Department stating whether everything appears to be satisfactory in the matter.

Memorandum.

Mr. Pedley

Tenders for the erection of a teachers residence at Whycocomagh, Inverness County, Nova Scotia, were returnable to-day at noon. The following tenders were received:

John Poiriers, Contractor, Descousse, N.S.		\$1570.00
S.H. Stevenson	" Sydney "	1750.00
Lawrence Nury & Son	" Arichat "	1798.00
Thomas B. Fraser	" Whycocomagh "	1970.00

Certified cheques for 10% accompanied the first three of these tenders. Mr. Fraser has sent his personal cheque and Mr. Thomas Gullant, Barrister, Inverness, N.S., has written the department that Mr. Fraser inadvertantly omitted to have his cheque certified before leaving for Toronto and says that his cheque is perfectly good. Fraser's tender is \$400. higher than John Poiriers which is lowest, and I would recommend the acceptance of Poiriers if Architect considers price fair.

OF CANADA

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

Sir,-

I have to acknowledge the receipt of your letter of the 2nd instant enclosing a quit claim deed executed by Esther and Noel Sylleboy.

In reply I beg to say that this document is returned herewith in order that there may be an affidavit to the execution made by John A. Gillis, the witness to the marks of these parties. In the affidavit it should be stated that the document was read over to the two Indians whose marks are affixed in his presence and that they understood what they were signing. As soon as this document is returned properly executed a cheque will be sent you for the amount of the purchase price.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Administrator on the 20th June 1913

429455

On a memorandum, dated 16th June, 1913, from the Acting Superintendent General of Indian Affairs, representing that, a teacher's residence being required on the Whycocomagh Indian Reserve, in Inverness County, Nova Scotia, and provision therefor having been made in the Vote for Indian Education (No. 302), tenders were called for and the following were received:-

Thomas B. Fraser, Whycocomagh, for	\$1,970.00
Lawrence Mury & Son, West Arichat, for,	1,798.00
S.H. Stevenson, Sydney, for	1,750.00
John Poirier, Descouse, "	1,570.00

The Minister recommends pursuant to the requirements of subsection 2, of section 36, of the Public Works Act, that the contract for the construction of the said residence be awarded to the lowest tenderer, Mr. John Poirier, for the amount of his tender as above cited, the same being reported by the Architect of the Department of Indian Affairs, as being fair and reasonable.

The Committee submit the same for approval.

Whycocomagh C.B. July 20th 13.

Sir:- I beg to call your attention to enclosed plan of ^{second} ~~first~~ floor of teacher's residence at Whycocomagh, as at present laid out. There is a large room in the front that is practically useless as a bedroom, as it is open to the stairway, thereby having no privacy.

If the partition wall marked (A) was extended to B with a door in the centre, and the door marked D placed at C then it would make bedrooms 1 and 2 communicating. This would enable us to use the large room as a guest chamber. Light enough could be had from a window 20x20 placed about midway the stairs and the light in the transoms for the hall. The distance from A. to B is fifteen feet with the ceiling eight feet high which makes 240 sq. feet extra plastering, studding and laths being also extra.

Instead of a closet in the dining room there should be a door communicating with the living room so that a person could enter the dining room without going through the kitchen as at present.

A large amount of extra space is wasted by not having a door in the wall back of the stairway. The place under the stairs could be used as a storeroom for trunks etc.

I talked the matter over with Mr Poirier and he agrees to make the few changes required to secure the extra comfort for twenty five dollars. (\$25)

Trusting you will see fit to bring the above to the notice of the Department at an early day so that if allowed Mr Poirier can get the extra material required.

MEMO.

Sir,-

I enclose herewith a letter, which speaks for itself; and I quite agree with Mr. Gillis that the alterations he suggests are altogether desirable. The "guest chamber" he refers to is one that I should like to occupy myself occasionally. It would be useful for the Agent also.

The arrangement by which the dining room can be entered only by going through the kitchen is certainly objectionable and ought to be changed. There should be direct communication between the living room and the dining room; and I strongly recommend a change in the plan with that object in view.

Again, there is no provision in the plan for properly lighting the hall, which, I think, constitutes a serious defect. A narrow window over the front door will not give sufficient light, and, therefore, a "half-sash" should also be inserted in the wall of the house near the head of the stairs.

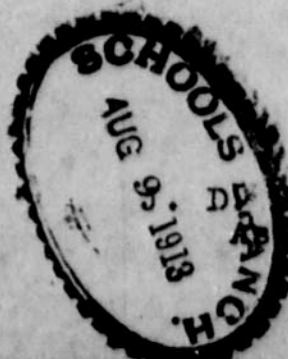

I hope the Department will consent to the alterations in the plan of the building, as suggested, especially as the cost of making them will involve only the small extra amount of \$25, and the improvement will be worth more than the expenditure, in point of convenience and otherwise.

Ottawa, Canada,

Dear Sir:-

I have to call your attention to grading that was done around the Teachers Residence at the Whycocomagh reserve. The Contractor graded out three feet from the wall as required by the specifications, but on account of it being a side hill location it did not raise the grade sufficient to keep the water from backing up and undermining the foundation wall. An extra expenditure of \$25.00. would be I think sufficient to cut away the hill about forty feet back and make it possible to divert the water that accumulates in the Spring into the hollow at the back,

Sir,-

I have to acknowledge the receipt of your letter of the 26th instant in reference to the grading of the grounds around the teacher's residence at Whyccocomagh.

In reply I beg to say that you may expend a sum not exceeding \$25.00 in grading these grounds so that the water will not back up and injure the foundation wall.

Whycocomagh C.B. Sept. 28th 13.

Sir, On page 10 "Specifications for teacher's residence at Whycocomagh" there is a clause relating to how the windows should be adjusted, which to my mind is not very clear. One would be led to infer from reading the clause that it requires the upper sash to be hung with sash weights as is usually the case to permit of proper ventilation. The upper sashes in the windows as now adjusted are stationary, that is there is a strip of board about two inches wide, driven under the lower side of sash, and extending to the window sill held in place with nails. Needless to say there will not be any means of lowering the upper sash to get rid of the impure air in the rooms. Opening the lower sash will permit the ingress of fresh air but that will only drive the hot and foul air in the rooms to the upper portion of the house, a thing to my mind that will make it very unhealthy. The only way to remedy this as the work is now so far advanced would be to use the "Window holders" such as is used on steam cars. It would be an easy matter to fit the brass ratchet pieces to the sides of the frames and putting the thumb piece on the lower part of the sash. An arrangement like this on both sashes would materially help the ventilation problem.

TO DATE OF THIS LETTER.

Sir,—

I beg to submit for your consideration the subject dealt with by Mr. Gillis, Indian teacher, Whycocomagh, N.S., in his letter to me of the 23rd. inst., which I enclose herewith.

It is, no doubt, very important to have the proper ventilation of the teacher's residence in question attended to before the building is completed; and if Mr. Poirrier, the contractor, is undertaking to ignore the specifications in any particular, he should be checked at once by the person appointed to supervise the work of construction. I have not a copy of the specifications, and, therefore, am not in a position to know what they call for with regard to ventilation, but, at any rate, it would appear from what Mr. Gillis states that they are not at all explicit on that point.

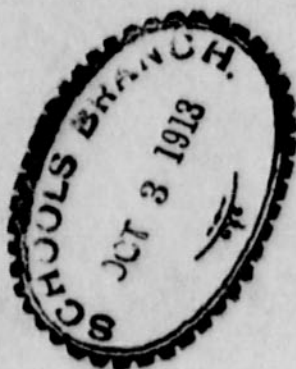

As the building is nearing completion, it seems to me necessary to give this matter prompt attention, and I think the Department's decision in the case should be communicated directly to its building inspector at Whycocomagh.

It has been brought to the attention of the Department that the upper sashes in the windows in the teacher's residence at Whycoocomagh have not been made to raise and lower on pulleys as provided for in the specifications.

The Department will expect you to see that these windows are constructed according to the specifications. Be good enough to report with regard to this.

The Voucher herewith is for an expenditure authorized by me, without consulting the Department, under the following circumstances:—

When I bargained with Mrs. Sylleboy for the lot of land, specified in the Voucher, it was stipulated that she should have her dwelling removed at her own expense; but so many people expressed to me the opinion that the bargain was a rather poor one for the old widow, considering the price paid for her place, that I decided to relieve her of the expense and make it a charge against the Department. I may say also that I had come to realize myself that she had hardly received fair value for her property.

Dear Sir:

I would respectfully recommend that a barn be built at the Whycocomagh Indian Reserve. This would be a great convenience ~~not~~ only to the teacher but to the visiting Clergymen, in fact I may say that ^{it} is absolutely a necessity. I would recommend that Mr. John J. Dear Sir,—

I enclose herewith a letter, which I received from contractor Peirier of Desceusse, N.S., and which explains itself.

As Mr. Peirier states, his contract for erecting the teacher's residence at Whycecemagh, N.S., was completed a month ago to the satisfaction of the Department's Inspector, and, I believe, of everyone else concerned.

I think it quite reasonable that he should like to be relieved from all further responsibility with regard to the safety of the building, and to be paid the balance due him on his contract. He did the work well, and, I regret, without profit to himself.

Please give the matter your kind attention, and oblige.

I beg to say that Mr. John Poirier has satisfactorily
completed the contract awarded him by this Department
for the erection of a teacher's residence on the Whycocomagh
Indian Reserve, and I have therefore to request that you
will cause the issue of a cheque in his favor for the
amount of his security deposit (\$157.00) together with
accrued interest thereon.

Immediate schools
Agreement made in duplicate the *429006* *seventh* day of *July* A.D. 1913.

Between His Majesty King George the Fifth, represented by the Superintendent General of Indian Affairs of Canada (hereinafter called the Superintendent General);

And John Poirier, Contractor, of Descouse, in the county of Richmond in the province of Nova Scotia

of (hereinafter called the Contractor).

The Contractor for himself, his heirs, executors, administrators and assigns, agrees to do in the most workmanlike manner all works and provide all the materials of the best kind shown in the drawings and described in the specifications marked "A" and "B" respectively and signed by the Contractor, and to complete, furnish and hand over to the Superintendent General or to some person by him appointed for that purpose, the **teacher's residence to be erected on the Whycocomagh Indian Reserve, Inverness County, Nova Scotia.**

and all other work and labour incidental to and necessary for the entire completion thereof, whether specified or shown in the drawings or specifications or not, by the **first** day of **October** A.D. 1913.

AND in consideration of the above agreement on the part of the Contractor, the Superintendent General hereby agrees to pay the said Contractor the sum of **fifteen hundred and seventy** dollars, provided always that the Superintendent General may at any time during the progress or after the completion or alleged completion of the work, appoint an Architect, Engineer or other officer, in which case the certificate of such Architect, Engineer or other officer, that the work is duly completed and of the amount, if any due, to the Contractor, after making such allowances for penalties and for defective or incomplete work, or for extras and deviations as the Architect, Engineer or other officer shall think fair, shall be a condition precedent to any claim by the Contractor under this contract.

AND the Contractor for himself, his executors, administrators and assigns, further covenants and agrees:—

1. That the wages to be paid in the execution of this contract shall be those generally accepted as current in each trade for competent workmen in the district where the work is carried on. If this condition is violated, the Superintendent General may cancel the contract and refuse to accept any work done thereunder.

2. That if the Contractor fails at any time to pay any account for any goods or materials supplied, or money advanced by anyone to the said Contractor for the purposes of this agreement, or to pay the account of any sub-contractor for any work or materials done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractor to pay such account, and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractor fails at any time in paying salaries or wages of any person employed by him upon or in respect of the said works, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractor to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractor shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid, and the said **John Poirier** have hereunto set their hands and seals the day and year first above mentioned.

Sir,—

Following the instructions contained in Departmental letter of the 28th. ultimo and telegram of the 4th. inst., I return herewith the two certificates, duly completed, in connection with contract for the erection of a teacher's residence at Whycecemagh. Mr. Waters' absence from home caused delay in getting his signature to the certificates.

Contractor Peirier says the amount of official cheque No. 2165 (\$1125), which he received, is more than he is entitled to, unless the Department considered favourably an application he requested Mr. Gillis, Indian teacher, Whycecemagh, to make in his behalf for an increase in the price of his contract, which, as experience demonstrated, was too low. May I be permitted to suggest that, before returning his security deposits, it may be well to verify his statement? Mr. Peirier has no desire to profit by any mistake.

Ottawa, Can.

Dear Sir,-

While at Whygocomagh Reserve recently, the teacher of the Indian school (Mr. A. MacDonald) brought to my notice the condition of the teacher's residence as a recent storm had torn shingles off a large part of the roof and damaged the remaining part. The rain now comes through the roof and although the teacher made temporary repairs, unless the roof is repaired as soon as possible, the rain will ruin the interior of the building. When I was there, the teacher had cans and other dishes to catch the rain that came through the roof.

*No repairs to
barn*

The same storm which damaged the roof of the house (as well as many buildings in Whygocomagh) also damaged the roof of the barn. In each case, it was only one side of each building that was damaged. The roof of the barn is beyond repairing as far as shingles is concerned and I would strongly recommend that it, although the building is not now used by the teacher, be also reshingled. I have made a rough estimate of the cost and consider that about \$100.00 is required to reshingle the roofs, purchase the required nails and pay for labour.

Shingles can be procured by having the Indians get logs and have them sawn into shingles by William Young who has a sawmill on the Reserve, so that in this manner the funds would mostly remain with the Indians.

I strongly recommend that, for the sake of the buildings, this be authorized as soon as possible.

Yours truly,

Reverend Sir:

With reference to your letter of the 15th instant you may arrange for the shingling of the teacher's residence at the Whyoccomagh Indian Day School. It is noted from the last paragraph of your letter that all the work will be done by Indians.

The Department is not prepared to pay any amount for reroofing the barn. It is noted that this building is not used and consequently there is no reason why any expense should be incurred in connection with it. I believe it would be advisable to have the building torn down and those Indians who do the work should be given the lumber for repairing their houses or other buildings.

Yours truly,

Dear Sir,-

I am in receipt of your letter 53-2-8, dated May 21st, authorizing shingling of the teachers's residence at the Whywocomagh Indian Day School. The work will be completed in the near future as Indians are employed at it now.

It is noted that the Department is not prepared to pay for reshingling the roof of the barn, especially as it is not now used and recommend that it be torn down and let the Indians who do the work have the lumber for building repairs etc. I have discussed the matter with Mr. MacDonald (the teacher at Whywocomagh) and we considered that it would be a pity to have the building torn down as in doing so so much of the material would be unfit for further use. Mr. MacDonald told me that he would make further consideration and yesterday he came to see me and said that Mr. William Young, an Indian who owns a sawmill and lives near the barn says that, if he is given the building for his own use and as his property, he will saw lumber for the Indians (from their own logs) to the amount of \$35.00. I consider this a better method as Mr. Young will repair the barn at his own expense and those who require sawing of lumber for their buildings will fare of better then by using the second-hand lumber obtained by tearing the building down. I recommend this.

Reverend Sir:

I have your letter of the 20th ultimo, with reference to the barn at the Whycocomagh Indian Day School.

Provided you are satisfied that William Young will give \$35.00 in value to the Indians, in view of the fact that the Department is allowing him the use of the barn, your suggestion is approved. The only phase of the matter that is not quite clear to me is, - where will the Indians secure the logs which Young will cut for them? I believe it is only his intention to do the actual cutting.

Yours truly.

Re: Teacher's residence, Whycocomagh Reserve, N.S.

I attach herewith a letter received from William B. Young, an Indian of Whycocomagh Reserve, N.S., explaining the present condition of the teacher's residence on that reserve and offering to purchase it from the Department.

On receipt of his letter, I asked him what amount he was willing to pay for it and in reply he stated that he was prepared to pay One Hundred Dollars (\$100.00) cash.

His statements regarding the condition of the house is correct and while I am of the opinion that his offer of \$100.00 is low for the amount of material which is still serviceable, especially on the interior of the building, I feel that this is about all he can afford to pay. The building has not been occupied by a teacher since 1943 and it is quite possible that it will not be used for its original purpose in the future as it is very badly in need of repairs and unsuitable for anyone to live in, in its present condition. If it is the intention of the Department to dispose of this building, as part of the centralization plan, I recommend that Mr. Young's offer be accepted.

I wish to make application again for

within another year it will be a total loss,
if in doubt come and see it for yourself.
The animals are living in it this year all
the windows are smashed the ceiling inside
smashed and above all the roof is gone
that is, the rain pours in, ruining inside.
The exterior is all right so there is a chance
yet to put in shape but if left another year
it will be a total loss. Now I don't want
this for nothing however I would like to
get it at a reasonable price. I find that
my house is too small as I have a large
family, adding to this, my son has returned
from the sanatorium, I might say that we
all have to sleep in the same room.
For the past couple of years teachers have not

DEPARTMENTAL PURCHASING AGENT.

Mr. F. B. McKinnon, Indian Agent, Eskasoni Agency, Province of Nova Scotia, has received an offer of \$100.00 for the building formerly used as a teacher's residence on the Whycocomagh Reserve.

This building is stated to be in very bad condition and the offer mentioned above has been received from an Indian who intends to tear it down and use the lumber.

As the Indians on this reserve are gradually moving over to the new reserve at Eskasoni, a teacher's residence is not required. Under the circumstances, I would appreciate receiving your approval to accept the offer, which has been received from William B. Young, an Indian of Whycocomagh Reserve.

Sch. Shubenacadie N.B. Oct. 23^d 1894

I have an application from a person named Robert J. Logan for the position of Teacher at the Indian Brook Reserve.

He holds a grade C. License and asks a salary of Two Hundred and Forty Dollars for the year.

The Indians are anxious to have school started and as this is the only application I have had, if your Dept is prepared to engage him please advise me by return mail in case he should take some other employment.

I may say that his grade would not be objectionable as his work will be altogether primary as none of the children have ever been to school.

It will be necessary to procure a stove for the school room and the Indians offer to supply it with wood.

In the meantime I have written the applicant that I am waiting orders from the Dept asking him to wait a few days for your reply and I trust that orders will not be delayed as I do not know of any other person who would be likely to accept the position.

Sir,

I have to acknowledge the receipt of your letter of the 23rd instant stating that you have received an application from Mr Robert J. Logan for the position of the teacher of the Indian school, Shubenacadie (Indian Brook Reserve) and in reply I beg to say that Mr Logan may be appointed provisionally at the salary he asks namely, \$240 per annum.

The Department would like you to send Mr Logan's certificate for examination and entry in the book kept for that purpose.

A cheap box stove and the necessary pipes may be purchased for this school.

The Teacher finds that he will lose his
Provincial Grant, unless the School can be placed
under the Provincial County Inspector of Schools

a serious matter to him. He had the impression
at first that he would draw his Provincial grant
just the same as if he were teaching in any
other school in the Province. His grant would
be about \$80⁰⁰.

Have you a regulation register for the School.
If so please forward one as he is at present

Sir,

I have to acknowledge the receipt of your letter of the 20th ultimo in reference to the Shubenacadie Indian School; and in reply I beg to say:-

1st. That by an arrangement made with the Provincial Government all Indian Schools in Nova Scotia are placed under the supervision of the Provincial County School Inspector, who visits such schools semi-annually and reports the result of their inspection to the Department through their Government, which may probably meet the requirements and entitle the teacher to the Provincial Grant.

2nd. With regard to the question of allowing white children to attend this school I beg to say that the Department will not object to their attending provided the number taken will not interfere with the teaching of the Indian pupils, and the Department would be glad to be informed of the terms upon which you think they should be admitted.

Requisitions for school material required should be made out by the teacher and forwarded to you for transmission to the Department on the forms enclosed herewith. The Department would like you to

Sir

With reference to the School at Indian Brook I have to ask for information regarding County Grant of monies which become payable at the end of the School year.

The Teacher has succeeded in obtaining the half-yearly provincial grant to which he was entitled but to enable him to do so, the inspectors found it necessary to have the Trustees of the white school in that vicinity sign the half-yearly returns - "There being no board of Trustees for the Indian School"

The Trustees did it in this case to enable the Teacher to draw the grant but if it is a necessity it may in future cause trouble as another board of Trustees might not see fit to do so.

You will understand that teachers are entitled to and draw this provincial grant (when teaching according to their grade and the School sections have nothing whatever to do with it but with the County Grant it is different, it being a grant paid from the County funds to the Trustees of the different School Sections in proportion to the average of attendance made by each School to be used for any School purpose to which the said trustees find necessary to apply it and is of course applied with sectional monies to the payment of Teachers Salaries and other expenses of Schools. This is paid over by County Treasurers to Trustees on certificate of inspectors as to attendance which certificate is I believe made by the inspectors from annual returns signed by the Trustees.

As I have already stated, there is no board of Trustees for the Indian School. Therefore no one to sign returns and receive this County grant as provided by the act.

The questions that present themselves, to my mind are

1. Who is to receive this County grant.
2. Who is to sign the returns to entitle the Teacher to draw his provincial grant, and to entitle the section or rather the Indian School to the County grant, in case the trustees of the white School decline (at any time) to sign.
3. Can I not act in place of board of Trustees for the Indian School and if so what steps must be taken to have the inspectors and provincial boards accept my signature to returns in lieu of board of Trustees.

Shubunacadeu Nov. 1893

Sir I enclose herewith Cash Twenty-
Seven Dollars and Sixty Five Cents \$27.65
being amt of County Grant to our Indian School.
As per Memo for Trustees enclosed herewith.
As you will notice this is a grant due
to every School in this Province in proportion
to the number of days attendance.
To obtain this grant it is necessary for
the Trustees of each Section to make returns
to the County Inspector and Certify the Same.
Our School, is unfortunately situated in the
matter having no board of Trustees and to
obtain this grant. I had to get the Trustees
the whole Section in which the Indian School
is situated to sign such returns and the inspector
kindly accepted the same as though they were
regular trustees of this School and gave me
for payment. But you must see that the
School is in a peculiar position in this respect
because at the end of the next year the present
board of Trustees may not be willing to sign
a set of returns. And in fact it was difficult
to get the late board to sign as they see that
the grant to Schools being proportionately divided
among all schools the sums paid to Indian Schools
leads to a reduction of amounts received by
them. In this connection although the Indians promised
the School supplied with wood they have learned that the
Supplies other Schools with fuel and I am afraid
neglect it. And for this reason I was anxious to be
this grant. in case we find it necessary to supply

When I agreed with Mr Gass Ind. Agt.

work the school in with the other public schools
and draw the Provincial Grant (paid to teachers
according to their grade), and the County Grant

added to the \$240 from the Dom. Govt. will bring
the salary to between \$300 & \$400. Mr Gass

when teaching a public school but I
stipulated with Mr Gass for the County

time I taught last year from 19th Nov.

Mr Gass got an order from my trustees

The Roman Catholic Priest of this Parish, has for some time been bothering Mr. Logan the teacher of the Indian School, demanding that he shall teach the Roman Catholic Catechism in the School.

At this the teacher being a protestant demurs, and on asking my advice I told him just to let the matter pass quietly but that I did not think under our Provincial School Law that he could legally teach the Catechism.

I believe this view is also held by the Inspector of Schools.

I may say to you that the Priest although he consults me on other matters in this case has not consulted me at all but assumes to himself the right to interfere with the School and dictate to the teacher that he shall do this.

The teacher today informs me that he has again demanded of him that he teach the Catechism.

I have now advised him not to do so until I obtain the advice of your department which I would be pleased to have by return of mail.

I hardly know what to say to your communication respecting my dismissal as teacher to the Indians here.

You know you had hard work to get a suitable person to take charge of the school, very few caring for such a situation.

I was, I may say, fooled into accepting it, thinking it might be a permanent job. Being a man of family, having a wife and six children to support, I hoped to keep the place a few years; accordingly, I brought my family and household stuff over forty miles, at a considerable expense, as you know, hired a house and settled down to work: now, because I am a Protestant up it all goes.

I have been on good terms with both the Indians and their priest and I never attempted to instil any Protestant ideas, whatever I may have said I was sure, was not contrary to the R. Catholic creed and in accordance with mere morality.

I hope, therefore, that you may influence the Department to reconsider the matter and unless there may be very strong objection by the P. Priest or Indians I may be instructed to resume work again soon.

Yours truly

Sir
In reply to yours of July 28th no 120078
enclosed herewith letter received from Mr P. J. Regan
the teacher

I very much regret the circumstances as I feel it
will not be an easy matter to replace Mr Regan.
and on his account I particularly regret it as it is
certainly a hardship to him to be thus summarily
dismissed from his employment after having
taken it and removing here with his family that
he might be able to give it his whole time

He has honestly laboured ever since he took charge of
the school and with a fair measure of success and
at this late date it will now be impossible for him to
secure a school for the next year.

When we started the Indian School here and were
looking for a teacher I applied to the priest asking
if he knew of a teacher whom he could recommend
and he could not name any one in fact he thought it useless
to try and have the school and now after he has not
rendered any assistance with the school and we
have made a success of it without his assistance
I cannot suppose that he would take any objection
to the teacher on account of his being a protestant
unless he had some well grounded cause of complaint
and was able to substitute a better man as
teacher

As I have stated the dismissal will
be a hardship to Mr Regan and I will be pleased
to have your further instructions before I positively
dismiss him

Since he kept the boys away from school they send them over and down about the brook that if the scholars go down for water, or play there it means or means that boys fight and blackguard them. I have had some trouble lately with one Indian at the reservation in connection with the school, and as it has not been the first or second time, I thought it proper to ask the Department for advice with regard to him.

The fellow's name is Stephen Maloney. He lives close to the school and has sent two boys, Frank and Stephen, pretty regularly to the school and they have done quite well.

Old Stephen, as you know, was made chief over a year ago, but the most of those on the reserve do not accept him as such, and called for another election, this makes Stephen very bitter and when drinking he threatens to shoot others who don't like him &c.

One I called his boy, Frank, back to his seat for not leaving the room in a proper manner and he kept him and the other one home for a time and sent some others off home who were coming to the school. Another time he came over to the school house before school because he thought that McDonald's squaw was complaining about his boys fighting. This time hollering and gesticulating altogether disagreeable. Frank makes the trouble he learns well and I could manage him easily but the old "Red" won't be reasonable. Frank wants to fight whenever he can make it out; whenever he can get a weaker one to put upon. He has been fighting and carrying on a good deal lately and some were keeping children home. One girl has been kept home nearly the whole winter on account of Frank so I have been told. This girl told at home that Frank was acting indecently with another little girl at the

school; this I can scarcely believe as I was present most of the time when they were at school and the little ones as well as the older ones can tell - or state the truth.

However, one day lately I observed Frank imposing on young McDonald and I called him in, took him by the collar, slightly shook him, and told him he must keep quiet charging him to leave McDonald's home going home. As soon as they got on the road he pushed the boy about and fought with him until they got to Maloney's road.

Next morning I called Frank up and administered three or four cuts of the rod to his legs with a small rod.

Old Stephen promptly kept them home and came out to the road for a row with me talked of fight somewhat, but kept off a good distance. One Indian, Philip Young, told me ^{Stephen} he was down to Halifax to procure my dismissed ~~son~~. As he is a rather bad Indian throwing knives about, when drunk, I want

Enclosed you will please find a letter to me from Mr Logan the Teacher at the Indian School here which will explain itself

I have done all I can in way of persuasion with the Indian mentioned in Mr Logan's letter. And after making investigation I am sorry to say that things exist as stated by Mr Logan.

This is the first time Stephen Maloney has been complained of to me as being the worse of drink. I have long known him as one of the troublesome spirits on the reservation.

I allso know him to be guilty of indignities not mentioned ^{by} Mr L. which if he were a white man would get him into trouble.

Mr Logan is a gentleman respected by all his acquaintance here and one whose word can be relied on to the fullest extent and never until now has he complained.

And I believe he has won his way into the affections of the Indian of the reservation until now that if the other Indians could do anything to have him kept they would do so willingly.

Please inform me what my duty is in this case and oblige you respectfully

Sir

I reported

the bad conduct of one of the Indians on this Reservation some time since to the Agent here. It was this way; A boy named Frank Moloney was making a bother at the school, fighting. I remonstrated with him to little purpose, then threatened, and finally used the rod (two or three cuts over the backs of the legs) and the father took him out of school. He met me a couple of days after and was saucy talking about fight (they say he is a fighter) but he kept his distance and I was not anxious to try my hands on him, at the same time felt quite safe. The other Indians thought I would not stop at the reserve over night, alone, any more

I did stay however, but kept a little prepared against any surprise or mischief in the night. He never came to bother me but has been doing his best ~~to~~ ^{to} the Priest, Father Young, to side him in getting me dismissed. Father Young is a sensible man and knows it is a little difficult to get a teacher to go among the Indians here; he also knows that I am working and doing what I can for the little fellows and have acquired considerable of the language, which is very helpful, and although we are of different churches, yet he is very friendly and don't listen to Maloney. What I want to say is; that if Maloney is not stopped at this, threatened with removal from the Reserve, or something of the kind, that after a time others of the tribe may follow his example and very much impair the school. This is one of the Micmac Centres in Nova Scotia, there being a Chapel

and a school house and the Indians say (I have heard several remark it) "A great lot more Indians would dwell there only for Maloney". One fellow said to me not long ago, "Every one of them is frightened of him", and I believe it.

Now, Gentlemen, I am satisfied to stay and work the school, if you are. But, will you kindly stop this fellow's mouth. If he is let go on and succeed against me he will not be very long again before he tries the same on some one else and disruption will be a thing of the past.

On Sunday Aug 22nd. Rev Mr Young of Eysubee called on R P Logan (Teacher of Shubunashan School) and stated to him that Stephen Maloney had had a conference with Archbishop Abrian. endeavouring through him to get Mr Logan removed and have his place filled with a catholic teacher, and came with him a petition signed by Indians of the reservation to that effect - or so he claimed -

But on Mr Young's inquiring into the matter he informed Mr Logan he had ascertained that signatures on that paper was either forged or there was a misunderstanding as some denied having signed the petition.

The Rev Gentleman then stated to Mr Logan that he had a conference with his superior Archbishop Abrian and informed him that he had very many reasons to believe that the action of Stephen Maloney in this matter was wholly owing to Spite an account of his Boy having been disciplined by Mr Logan some time ago.

He also stated he had even a letter from Archbishop Abrian to Chief Hall asking ^{in effect} that he assist in every way to protect Mr Logan and render any assistance which lay in his power to carry out good work in the school. This because the Rev Mr Young had given him satisfactory reports concerning Mr Logan and that ^{he} apparently was giving good satisfactory not withstanding reports etc.

In consideration of the above Mr Logan has requested me that I inform the Department concerning these matters and respectfully submit

Gentlemen:

John
I am going to ask a favour of you; and I think - and I hope you may not think it altogether undeserved.

What I am going to ask you is to make my little salary three hundred dollars a year after the 30th June next. If you will grant me this, I promise you I will not again ask an increase while you are pleased to retain me in your service as teacher in an Indian school.

I think I have given pretty good satisfaction during the time I have been here: the Inspector and others who have visited us expressed themselves pleased.

One cannot get regular attendances at all, but I have some reading, the fourth Royal Reader very well, writing a letter in a good hand and in fair English, adding, subtracting, and multiplying vulgar fractions, making out Bills &c. This in three years and a fraction is not bad.

It is not an easy job altogether; a great deal of patience, firmness, coolness &c is required, they are so excitable. Once in a while I hear of some old warrior threatening to shoot me if I use the rod slightly. One fellow asked me about a week that his boy was blamed for cutting a short time ago and kept his jackknife in his hand and talked very much, not allowing me to explain. I don't do any fighting or blowing but used to like a little boxing in my young days and I feel quite safe here.

Try and allow me this small request and I shall be most grateful.

Yours respectfully

Gentlemen:

JUN 27 1899

I would like to have better attendance at the school. I spoke some time ago to the clergyman who officiates at the chapel here about it, but he seemed to think it all right just as it was, and is. He said, "I spoke to one of the women about sending her children to the school, and she answered I haven't clothes fit to send them to school in; have nothing for them to eat in." He, Father Young, thinks it is of not much use to say much to them about it; the fact is he don't care whether they come to school or not. I like to get all the showing up, the teaching, on these things; the directions that you can give me. I will offer a suggestion; would it not be right to impress upon Agent Wallace, quite forcibly, that he must do all he can to better the attendance at school by talking to the Indians and otherwise. If you think it would do good (I think it might) tell him, please, that he must see to it, not mentioning I had anything to do with it. Inspector Rose was in on the 19th inst. and there was not much of a showing, only six being present and most of those in first grade. Will you be so kind as to send me an account of his report? I would like to see it. I guess he would find no fault with anything but the attendance. I do not know whether it would be of any use to write from the Dep't. to Priest, Young, or not: his address is W. E. Young, Enfield, N.S. I mean to try all I can, in visiting, and talking, to better affairs. If one bears an enough to keep order, he insults some of them. If you really do not punish, but just threaten a little sometimes, they will get them back up and leave the school. Some time ago, Malony, a kind of a chief, took his out of

school because I would not allow his boy to fight. I first used persuasion with the boy but he would fight with a smaller boy, punching him considerably. Then I threatened him with the rod, he allowed, and said to the others, that his father was chief, and that he would fight as much as he liked. I punished him with the rod, and lost the two boys, he has not sent them since, although a little girl has attended some.

A book was cut with a knife this last winter and the job was blamed on a boy. I did not take the word of the pupils about it, but merely said "If I knew who cut the book I would beat him, for he deserves it."

The boy went home and said that he had been blamed for cutting a book and the teacher said he was going to beat him. The father of the boy, McDonald, replied that if the teacher beat his boy, if he could not beat him with his hands he would put a bullet through him. McDonald sent his boy up to Inuvik, to school, for a time, but he is about here now, not attending school. I have heard that the Low Boy school, Halifax Is., N.S. is to be closed on account of there being no pupils there to attend it. When the Lories were in power, the priest wrote up that he wanted very much to have the R.C. Catechism taught to the Indian children, thinking to have me dismissed and a R.C. put in in my place. I agreed to have a class in the Cat. and teach it at noon 15 minutes. If you do not wish clergymen coming in here and almost taking charge as Mr. Young did once, having Catech. & will you send an order printed to that effect so I might show it - if you think it right.

Yours very respectfully

Robt J. Logan
Missionary

P. S.

No one reported McDonald as having acted very badly with me here last winter, threatening to shoot me & and taking his boy out of the school here and sending him away to Inuvik school for Indians, and the Department is putting or helping him to put up a barn. Please may Wallace order him to send his boy to this school, and behave himself, when you are so kind to him.

I have to acknowledge the receipt of the return of attendance at the Shubenacadie school for March quarter last, and in connection therewith I have to call your attention to the fact that the average attendance is very low, being only three out of an enrollment of sixteen.

Deputy Superintendent General of Indian Affairs,
Ottawa, Canada,

227522

Dear Sir:

You would like to see a better attendance at the day school here. I would also like it, but I am afraid we shall be disappointed, if we expect a much better attendance this summer.

There are, we may say, six families on this reserve now; but before the end of the present week, there may not be that many.

There are eight children of school age in the place at present. Five of those are pretty well grown; over twelve and up to fifteen years. The old ones find these big ones useful to run and beg milk or gather mayflowers to sell.

I walk around among them and do what I can to get them out, and succeed in a measure. They are poor and improvident, the children are very often hungry; in cold weather their clothing and shoes are so poor that they do not protect them from the frost.

This reserve is five miles or thereabouts from a railway and they do not like to travel over these five miles afoot - they do not care how far it is in the car - so they incline to get near the Railway and leave this place lonely.

I think the principal thing that keeps them here at all is the church - they have a pretty good one here -

they like to sing and pray; and perhaps it does them good; most likely they would be much more wicked without it.

They would not agree to find the wood for the school, and after you granted pay to get that, the young fellows would stay home if I asked them to help at it. Then I took to cutting it all myself, merely asking them to carry it in still they don't attend well.

They talk sometimes and say that they ought to have a Catholic to teach them; they had catholic teachers at Cow Bay, near Dartmouth and the school went down for all that. The Indians did not find it a real easy place to live in.

I think it somewhat of a problem to solve; the enlightenment, civilizing, making farmers and useful citizens of the Miernacs, We will keep on trying, but they will never be so much for use as ornament I am afraid.

Perhaps, if you would send John Noel, the chief here, a letter, telling him that he must do his best to have the people send their children to school or you would have another man put in his place, it might have a good effect. Tell him that if he worked well in this way & that he would be kept in the chief office a long time. He is as good a man as they can get. Will you please do this and oblige

Gentlemen,

May I ask a favour of you? I hear you say; "Ask away, but we won't promise will give it." Well, it is this way; I have been teaching somewhere between twenty and thirty years - nearly twenty in White schools, and over eight years in this Indian School. I am married, and have been raising a family of six - three girls and three boys, educating them as well as possible, under the circumstances, so that one girl is teaching, and the second has a D certificate, hoping to get a B this summer. Two girls and a boy are attending school steadily. My two eldest boys are working at farming &c. I don't like to think that I am an old man, but I will be fifty-eight the coming summer, and no money ahead; could not save any. There are two or three hundred acres of Crown land near this reserve, which if I had, I might, with the help of my boys, make a home, where I could live out my days. The Local Government granted me 100 ac's. now if you would be pleased to grant me 200 ac's or even 100 acres as the Local govt. has, I would have a nice area for a small farm. It would be easy to arrange with the Crown Lands Office at Halifax about it. They charge 40 ch. per acre for such land as this. It has very little wood on it, that would make lumber or shingles. Is it practicable? It would rejoice my heart. Help a fellow out. And, for you, your petitioner will, as in duty bound, forever pray.

Your most humble and obedient servant

OTTAWA, 6th June, 1903

The Deputy Superintendent General:-

Mr Agent Wallace calls the Department's attention to the very unsatisfactory condition of the Shubenacadie school where the attendance has been very irregular for some time and at the date of his report had stopped altogether. The average at this school has been less than 4 for the past two years. About a year ago Chief Noel was asked to use his influence with the members of the Band to induce them to send their children to school. No results seem to have followed this appeal and it is a question whether it would not be better to close the school at the end of the current quarter. It might, however, be given another chance for, say, six months on the condition that if a marked improvement does not take place by the Christmas holidays the school will then be finally closed.

There are about 17 of school age on the ~~XXXXXX~~ roll, half of whom are transients, while the census return shows about 20 children who could attend.

For many years before the opening of the school in '94 the Indians were making constant appeals for the education of their children. The Department put up a new schoolhouse at a cost of

\$600.00 and their present teacher was appointed on the opening of the school and has been there ever since.

What is wanted here is the enforcement of the Regulations. The Public School Inspector's last report suggests that all children of school age be compelled to attend and says that the teacher is doing as well as he can under the circumstances. I would therefore suggest that the Regulations be enforced after the holidays and if this does not have the desired effect that the school be closed at Christmas; and that the teacher and the Indians be so informed.

Sept. 1st, 1905To the Department of Indian Affairs,
Ottawa, Can.

Gentlemen,

You have seen by the returns that there is a small attendance at this school for some time.

There are only eight families that live now part of the time here, with seven or eight children of school age, attending so irregularly, that there is only an average of three, more or less.

The Indians here do not take to farming; there is only one who is at all interested in it. They make their living mostly by basket, hockey, handmaking, and carpentry. I do not think that the settlement will increase, or the school be any better again.

It was quite interesting for a time, when there were from a dozen to twenty pupils attending, now it is different, I am here days without a pupil.

They are R. Catholics, of course, and I am Presbyterian, and when I correct a pupil in any way, they cry out, "We don't want a Protestant to teach our children".

I have been nearly 11 years teaching in this school, and as it is getting so small, I thought I would make a proposition to you; that is, leave the school at the end of this quarter; pay me for the time I have served; and give me 1 year salary as a kind of pension to help me out. Then after a couple of years, if they want the school started again, open up again with a Catholic teacher and see if it will be any better.

This would ease me down and save the Department a few hundred dollars. What do you say gentlemen?

You know what is best. I will continue on as I have been doing, if you say so; but I think what I have suggested would be the best for all concerned.

Yours respectfully

The Deputy Superintendent General:-

Mr Robert J. Logan, teacher of the Shubenacadie Indian school, intimates his willingness to resign if the Department will allow him a year's salary. I may say in connection with this offer on Mr Logan's part that he has been in charge of this school for over ten years and that through no fault of his the school has been going from bad to worse as regards attendance until last year the average had dwindled down to about three. The Agent was written to a couple of years ago and instructed to notify the Indians and the teacher when the school re-opened after the summer holidays that the regulations for compulsory attendance would be enforced and that the Department would hold him responsible for carrying out these instructions. The school is doing no good and should be closed, as it is only wasting money keeping it open. It is for the Department to say whether it will grant Mr Logan any gratuity or not.

Sir:

Referring to remarks made by you on the September quarter's return for the Shubenacadie School in which you express your willingness to accept another Indian School, should the Department see fit to close the one now under your charge, I beg to say that, as you are aware ^{all} of the Indians in the Lower Provinces are Roman Catholics, and they are entitled to have a teacher of their own faith: and as you are a Presbyterian, the Department regrets that it does not see how you could be appointed to any of these schools in these Provinces.

There is a vacancy at Eskasoni school and our Agent, the Rev. A. Department of Indian Affairs
Ottawa,
Canada,

Gentlemen:

I thought by the talk of some Indians here at the end of last year that we would have a better attendance during the present half year; but I was very much mistaken. There were on eight who could attend but about. I open school nearly every school day but the greater part of the time no one attends. You said; "The school will be closed at the end of the June quarter" It is not worth while running it any longer. Their chief John Noel is one great hindrance to the school. Indians listen to their chief, no matter what kind of a fellow he may be; and this old blockhead always talks against an English school. He knows little English himself and can't learn it, and tells the Indians that it is no good to learn it. A number of these Indians now say it would be better to have the Miernac taught; Miernac prayers and hymns &c. They are a very pious crowd! Not only the chiefs, the priest does not put in a word to encourage them to attend; the Agent thinks I can do it all myself and so doesn't trouble himself. Perhaps if they all would try, it might be the same but I think they could help. Anyhow you may expect a very small average for this year.

Is there any other position among the Indians that a man like me might be of use? Say looking after their lands, inspecting reserves with regard to sanitation &c. If you think of anything please let me know.

I have to acknowledge the receipt of your letter of the 6th inst., and in reply I beg to say that you should make an inventory of all school supplies handed over to you by the teacher of the Shubenacadie school and forward the same to the Department. Instructions will then be given you as to what disposition is to be made of them.

You should keep the key of the building in your possession, and the doors should be protected, so that they cannot be broken in. The windows, also, should be boarded up, to prevent the lights from being broken. As the school-house is in your neighborhood, you will be able to visit it occasionally, to see that no damage is being done to the property.

Gentlemen:-
I thank you very much
for kindness to me during the time

Pham brought up a family of six. - three sons and three daughters; a son and a daughter are married (this daughter, the eldest, taught school for a time). Another, the second girl, is teaching; the third, 18 yrs., is thinking of it, but don't like the idea much. My youngest, Frank, I think would make a scholar if I could only send and keep him to school, he is 12 yrs. Stanley, my second son has 200 acres of wood land adjoining mine and works mostly at home. I owe \$100 to my grocer or nearly so, which I am anxious to pay soon.

I wrote to the Agent at Eskasoni once about that school, but as he was a priest and they not want "Protestants" he did not answer.

How would it do to
start up the Indian school again?
The school building is good and
there is some apparatus there, there
was a winter's wood when I left,
(they may have stolen the most of it by
this time though)

They might start in better now
if we would open up. I would go
on for the same salary as I was receiving.

If you do not wish to open
this school just now, is there another
in the Mar. province that you could
appoint me to? Or is there anything
else worth while that I could do for
you. I would like to work for you
again. I have had a slight attack

I want to say a few words about the
Indian meadows here.

Although it is not lawful to let cattle
run at large here, yet they are let go
to make their living on other people's
wild meadows, sometimes breaking
fences and destroying other crops.

The Indian meadows are eaten down
by these cattle every summer until they
are hardly worth cutting. There is to be
a pound built near these meadows
this Spring, and if the Indians were
told to drive the cattle off the meadows
to the pound once or twice I think
it would teach the whites a lesson
and they would keep their horses
in pasture. I write the above in confidence
you heard about it before but nothing
has been done although you wrote me to
Agent Wallen to see about it, I think.

DAY SCHOOLS. NOVA SCOTIA

Shubecacadia, Hants County, (Indian Brook)

This school has been closed for some years for want of a suitable place for a teacher to board. Mr Superintendent Boyd in his report on the Nova Scotia schools, recommends that a teachers residence be put up and the school building repaired. He is not able to say what the repairs will cost but will find out later on.

The last census return gives the number of children of school age as twenty four.

Sir,

The Indians of Shubenacadie are anxious to have their school in operation again, and for that purpose have applied to me through their chief, Noel Alex. McDonald, for a teacher.

I cannot say at present how many children of school going age are on the Shubenacadie Reserve, but hope to be able to provide the information soon, as I expect to visit the place about the 25th. inst. Until then, I cannot advise the Department as to whether a teacher should be engaged or not.

However, I am aware that it will be necessary to make an expenditure of about \$50 in repairs to the school house there before it can be occupied with comfort; and should the Department decide upon reopening the school, I would recommend the appointment, in the beginning, of a person to keep the school-room clean and in proper order, to make fires when necessary, etc.

I shall be glad to learn the Department's pleasure in the matter of repairs, and to receive from it any suggestions that may assist me in arriving at a proper conclusion with regard to reopening the school.

OFFICE OF THE INDIAN SUPERINTENDENT.

RIVER BOURGEOIS, N.S., 24th Nov., 1911.

1911.

Sir,-

With reference to your letter of the 27th. ultimo, No. 120090/1, I beg to report that I visited the Indian settlement at Shubenacadie, N.S., on the 8th. inst. and took a census of the children of the place, finding 14 of school going age - that is, between the ages of 5 and 15 years.

Their parents seemed very anxious to have the school in operation again, and I believe that an average attendance of 8 might be confidently expected, if it should be re-opened; because the majority of the children are too young to be otherwise engaged than attending school, and they reside permanently on the reserve. Besides, the school house is centrally located, and is only a short distance from the most remote families in the settlement.

Near the school is a teacher's residence, which is rather small - about 10X14 ft. - and much in need of repairs. I would suggest making a small addition to the back end of it in the form of a lean-to for a bed room, which with necessary repairs to make the building comfortable, would cost about \$65. There are Indians on the Reserve who can do this work.

I would recommend getting the school in readiness and hiring a teacher for the beginning of the Jany. quarter, on the distinct understanding with the Indians that the school should not be kept open for any extended period, in the absence of a satisfactory average attendance.

Sir,-

Having reference to your telegram of the 22nd. inst., and letter of the following date, No. 120090/1, I beg to state that Martin Edward Grumley, West Indian Road, Shubenacadie, N.S., the young man, whom I interviewed about taking charge of the Indian school at Shubenacadie, is a person of irreproachable character, holding a Second Class Scholarship obtained at the provincial examinations held for teachers in Nova Scotia, July, 1909. Last year, he graduated from St. Mary's academy in Halifax, and this year he has taken up the study of medicine.

The person I had in view for Bear River Indian school is Mr. D. McK. Gillis, a resident of the town of Antigonish, N.S. He holds a First Class teacher's License, and has an experience of thirty years as teacher in the schools of this Province. I cannot say at this writing whether he will accept the school or not, and this remark applies to Mr. Grumley also.

The salary agreed upon in each case is at the rate of \$350 per annum. But in this connection I think I had better advise the Department that unless the salaries of Indian teachers are materially increased, it cannot expect to engage, and to retain, the services of competent people any longer. Under existing conditions in this country, it is not reasonable to expect otherwise.

Answering your letter of the 12th. inst., just to hand, I beg to say that, outside of advertising in the press, I have done all I reasonably could to get a teacher for the Shubenacadie school, but have failed. I am still on the search for one, but the prospect is not promising.

It is to be regretted that the school is not in operation, as the pupils belonging to it are intelligent, and were making good progress under Mr. Grumley's tuition.

Memorandum,

Mr. Pedley,

Mr Superintendent Boyd writes the Department that he has done all he reasonably could, outside of advertising, to obtain a teacher for the Shubenacadie school but without avail. Shubenacadie is an out of the way place. It would be a pity not to re-open the school as there are 18 children of school age, all of whom were enrolled when the school closed 30th September last. It might be worth while to advertise for a teacher to take charge after the Christmas holidays. If so in what papers should the advertisement be placed, and what salary would the Department pay? The last teacher received \$350 but I do not think that any one could be had for less than \$400. In February last Superintendent Boyd advised the Department that unless the salaries of Indian teachers are materially increased it could not expect to engage and retain the services of competent people any longer. Mr Gourley, the last teacher, would not remain on for \$350.

Sir,-

As instructed by your letter of the 2nd. ultimo, and telegram of the 24th., I advertised for a teacher for the Indian school at Shubenacadie, N.S., and I forward herewith the only application for the position received up to date.

You will see that the applicant, Miss Mary E. Ahern of Halifax, practically refers me to the Superintendent of Education for Nova Scotia, Doctor A. H. McKay, for a recommendation; and I enclose a telegram from him attached to the copy of one I sent yesterday, requesting his opinion of Miss Ahern as a teacher. The lady is a stranger to me.

Sir,-

As requested in your letter of the 10th ultimo, I beg to advise the Department that Miss Mary E. Ahern began her duties as teacher of the Indian school at Shubenacadie on the 4th. inst. I was present at the time, and think that all concerned may be congratulated on having secured the services of a very good teacher. But I'm afraid she will not like the situation, and, therefore, may not be disposed to hold her position for any length of time.

She could not get a boarding house, and, consequently, is obliged to shift for herself as best she can by living alone in the small building near the school provided by the Department for a teacher's residence. In order to encourage her to remain, I promised that the building would be made comfortable, and that she would be provided with free fuel. Under these conditions, she decided to do her best and keep the school, unless the situation should become intolerable.

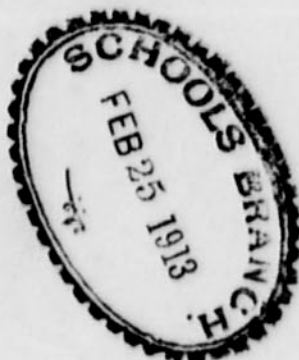

I engaged Simon Basque, Indian, to furnish the school house and the teacher's residence

For all these services, I agreed to pay him \$70 for the school year, which I think is reasonable. Sir,—

I enclose herewith Miss Mary E. Ahern's resignation of her position as teacher of the Indian school at Shubenacadie, N.S.

The statement she thought proper to make with regard to liquer used by the Indians does not give, in my opinion, a proper idea of the facts. Being of a highly nervous temperament, she is easily excited, and was very much disturbed on several occasions at night by the rowdyism of people on the public road, which passes very close to the teacher's residence at Shubenacadie Reserve. She believes that these people were Indians, but I am persuaded they were reistering lumbermen going to and from their camps located a few miles from the Reserve. These experiences seem to have impressed her so seriously, and so unfavourably, that she could not make up her mind to resume charge of the school at Shubenacadie after vacation.

Now, Miss Ahern is a good teacher of large experience, and having reference to the second paragraph of your letter of the 5th. inst., I

Sir,-

The expenditure referred to in the enclosed vouchers was authorized, as the Department is aware, by official letter No. 120090/a dated Feb. 25, 1913.

Simon Basque was the first janitor, but after a time he moved to Pictou Landing, and Noel McDonald succeeded him. The latter went camping in Guysborough County last July and neglected his duties during the September quarter, which made it necessary to appoint some one in his place. At the teacher's request I reappointed Basque, the first janitor, who had returned to locate permanently at Shubenacadie.

I hope this explanation respecting the change of janitors will be satisfactory to the Department and that my action in the matter will have its approval.

Dear Sir,

I am in a position to secure a good teacher for the Indian School Shubenacadie Reserve. Miss Ruby Anthony, Kennetcook, Hants Co, an experienced teacher of class "B". I have written Mr Wallace Agent at Shubenacadie but have not yet had time to have a reply. In fact I was not sure whether I should refer the matter to him or direct to your Dept.

What will be the maximum salary paid? I told her it would be \$ 600.00 if not more. She will also need some furnishings for the house and I am not in a position to say what there is in the house. I shall be glad to hear from you in the matter.

I am yours sincerely

Sir:

The Shubenacadie Indian Day School has been closed since the June quarter, 1920. There was an average attendance of but 5 at this time. The school has remained closed, due to our inability to secure the services of a teacher. W. R. Campbell, Esq., Provincial Inspector of Schools, has intimated to the Department that he can at this time secure the services of a properly qualified teacher. I have written to Mr. Agent Wallace, asking for his recommendation in connection with the re-opening of this school.

Would you be good enough to give me your opinion as to the advisability of commencing operations at this point again. Is it your experience that the Indians will avail themselves of the school facilities and that there will be an attendance that will warrant expenditure? An early reply to this communication is requested.

Your obedient servant,

Sir:

I have to acknowledge yours of the 30th ultimo, in which you inform the Department that you are in a position to secure the services of Miss Ruby Anthony, of Kennetcook, Hants Co., N.S., as Teacher for the Shubenacadie Indian Day School.

In reply I beg to state that this school has been closed since the June quarter, 1920, and at that time the average attendance was but five. I am writing to Mr. Agent Wallace, at Shubenacadie, and asking for his recommendation concerning the re-opening of this school. When an answer has been received, you will be informed as to our wishes in the matter. The salary allowed for this school is \$500.00 per annum, plus whatever bonus is allowed by law.

Concerning house furnishings, I will be in a position to answer your query after having heard from our agent at this point. I have to thank you, Sir, for your interest in this connection.

Sir:

The Department is in receipt of a communication from W. R. Cameron, Esq., Inspector of Schools, in which he informs us that he has been successful in securing the services of a teacher for the Shubenacadie Indian Day School.

You will remember that this school was closed at the end of the Junt quarter, 1920, and at that time there was an enrolment of 9 with an average attendance of 5. There was difficulty in connection with securing a teacher, and the school has not been re-opened since.

I am writing for your recommendation in connection with the re-opening of the Shubenacadie Indian Day School. If you feel that there are enough children of school age in the vicinity, who would attend regularly, to warrant the engaging of this teacher recommended by Mr. Inspector Campbell, the Department is prepared to commence operations again at this school. If your recommendation is to re-open I would be grateful for information concerning equipment for the classroom and house furnishings for the teacher's residence at this point. Your early attention to this matter is requested.

Sir,—

Replying to yours of Dec. 5th
I have to inform you that I consider
the opening of the Indian School here at
this time as one worthy of my sincere
recommendation as there are at present
18 children of school age and ought
to be at school.

I also learn from conversation
with the parents that they are anxious
to have their children resume their
studies as soon as possible.

I may add that I have canvassed
the settlement on this matter and was
encouraged to believe the children will
make a good showing in attendance.

I am sending you a list of
articles now in the teacher's residence
together with some from school room
showing number of books etc on
hand which I hope will be
satisfactory in supplying the Inspector
with the necessary information on which
he may have the necessary supplies
provided.

Sir,-

I beg to acknowledge receipt of your letter of the 5th. instant, and to say that my experience in connection with the Indian Day School at Shubenacadie Reserve, N. S., leaves me in doubt as to the advisability of reopening it now. Under present circumstances, I do not think the attendance of pupils would be even as large as it was in the past. I have reason to believe that the number of children of school age at this point is less than when the school closed last year.

I understand that Miss Jessie Scott, teacher of the Indian Day School at Millbrook, Colchester County, N. S., intends to vacate her position at the end of the present quarter, in which case, it would be more in the interest of Indian Education to appoint, as her successor, the person Mr. Campbell, Provincial inspector of Schools, has in view. I am writing Miss Scott to ascertain whether she has decided to resign her position or not.

Sir:

I have to acknowledge yours of the 10th instant, referring to the reopening of the Indian Day School on the Shubenacadie reserve. I have noted that you are in doubt as to the advisability of commencing operations at this point.

In reply I beg to state that Mr. Agent Wallace has informed the Department that he recommends the reopening of the Shubenacadie Indian Day School. He claims there are 18 children of school age, ready to attend, and that the parents are anxious that they resume their studies as soon as possible. He states that he has canvassed the settlement concerning this matter, and was encouraged to believe that the children would make a good showing in the matter of attendance.

In view of the conflicting reports from our representatives in the field, the Department is now in doubt as to the advisability of commencing operations at this school. I would be grateful for an immediate reply to this letter, and your recommendation again, in the light of Mr. Agent Wallace's statements. Your early attention is requested.

Concerning the second portion of your letter, I have to inform you that Miss Jessie M. Scott has resigned and that Mr. Agent Kennedy has been asked to suggest a properly qualified successor. I will keep in mind your suggestion that Mr. Inspector Campbell's nomination might be available for the Millbrook Indian Day School.

Sir,-

I beg to acknowledge receipt of your letter of the 17th. instant, and to say that, in view of Mr. Agent Wallace's report respecting the number of children of school age among the Indians of Shubenacadie Reserve, I am obliged to revise my opinion of the situation, and to recommend the reopening of the Indian Day School there as soon after the present Christmas holidays as possible.

I did not think there were more than half as many prospective Indian pupils in that settlement as Mr. Wallace reports; and he, having personally canvassed the situation, as stated, while I have not, is in a much better position than I am to furnish the Department with the facts in this case.

I will frankly state that I have not visited Shubenacadie Reserve since the Indian Day School there was closed last year, and that my opinion as to the advisability of reopening it, as expressed in my letter to you of the 10th. instant, was based on information obtained from an Indian, who had been a resident of the place for a few years, but who moved away from it some months ago.

Sir:

I have to refer again to yours of the 12th instant, concerning the re-opening of the Shubenacadie Indian Day School. The Department today received a communication from Mr. Superintendent Boyd, advising that upon your recommendation efforts be made to re-open this school.

You will please get in touch with Mr. Inspector Campbell, with a view to the engaging of Miss Ruby Anthony of Kennetcook, Hants Co., N.S. The salary allowed is \$500 per annum, plus whatever bonus is allowed by law.

Inform the Department immediately as to what classroom equipment is necessary, and if any repairs have to be made to the school building and residence. If there is no wood for fuel, you will please make temporary arrangements for a supply, until such time as you can call for tenders for the fuel for the winter.

When you are convinced that Miss Anthony is reporting for work, and when you are aware of the date of the re-opening, to ensure the initial success at this school, you would do well to go among the Indians and inform them that it is necessary that they send their children regularly to school. I might inform you that, if the attendance does not keep up at the Shubenacadie Indian Day School, the Department will seriously consider closing it again.

I am writing to Miss Anthony, of Kennetcook, direct, asking her to get in touch with you if she is desirous of accepting the position in question. Your careful attention to school matters at this time is requested, so that our efforts to educate the children of the reserve will meet with early success.

Sir,-

I have to acknowledge your letter of the 31st ultimo concerning the Shubenacadie Indian Day School, informing the Department that Miss Ruby Anthony has not taken charge again ~~for~~ the coming academic year. The Department cannot understand why this matter was not brought to our attention before, as no communications have been received from either the retiring teacher or yourself. I have noted your recommendation that Mrs. Andrew King be appointed to the position of teacher, and that her qualifications are satisfactory.

In reply, I beg to state that, in view of Rev. Father Sweet's recommendation, the Department will approve of Mrs. King's appointment to the position of teacher, at a salary of \$500.00 per annum, plus whatever bonus is allowed by law. At present, and until the end of March, 1923, there is a bonus of \$15.00 per teaching month offered to those in charge of Indian day schools.

If any classroom equipment is necessary, or any repairs required to the school building, you should inform the Department immediately. As you were informed in official communication of December 29th last, it would be well to go among the Indians and inform them that it is necessary to send their children to school regularly. If the attendance does not warrant a continued operation, the Shubenacadie Indian Day School will have to be closed.

Sir,-

In reply to your letter of the 1st instant I may say that the funds at the Department's disposal are not sufficient wherewith to pay for dental work in a general way on behalf of Indians, and therefore it has not been the Department's policy to authorize such work being performed, but in view of the report which you have submitted from Dr. Stultz, who examined the teeth of seven children attending the Shubenacadie Indian Day School, you are hereby authorized to have dental work performed for them to the amount below stated in each case, it being understood that such work is absolutely necessary in order to safeguard the health of the children. The fact that this authority is granted does not create a precedent for the submission of requests for the performance of dental work on behalf of other Indians. In the future parents will have to defray the cost of dental work required on behalf of their children.

Dear Sir:-

I have been advised that the position of teacher in the Indian Day School at the Reserve near Shubenacadie will be vacant and hereby make application for it.

I am a Catholic, twenty-one years of age, and hold a First Rank Diploma from the Nova Scotia Normal College, also a Class "B" Licence. I have had no experience, but shall do my best to make a success of the school if I secure it.

I shall be glad to furnish any necessary recommendations.

Trusting to receive a favourable reply at an early date, I remain,

Respectfully yours,

Sir, -

During my recent visit to the Shubenacadie Agency I learned that it is the intention of the Department to close the Day School now operating at that place on Dec. 20.

In consideration of the fact that the Residential School will not be ready to admit Pupils until about Jan. 15th or Feb. 1st both Agent Lawlor and Myself would like to have the time extended a couple of months which would be Feb. 28th, by that time we would know whether there will be accommodation at the Residential School for all the Pupils now attending the Day School or not.

Agent Lawlor has recommended this course to me and under the circumstances I believe this is the better plan so I would recommend that the above mentioned Day School be kept in operation until Feb. 28th

I shall be pleased to have your ruling at an early date

Dear Sir. —

There are a large number of children at the Indian Reserve who could be in school if they had a school there.

These children are not delinquent children and should not be compelled to attend a Residential School unless their parents desire to ~~do~~ have them do so.

Sir,-

I beg to acknowledge the receipt of your letter of the 4th instant, enclosing a communication from Dr. D. F. MacInnis, with reference to children on the Shubenacadie Reserve who are not attending school.

The Department is surprised at Dr. MacInnis' letter. We considered that both Dr. MacInnis and yourself were fully aware that those children on the Shubenacadie Reserve who are physically fit should attend the Shubenacadie Indian Residential School. Both Dr. MacInnis and yourself should make every effort to have these children placed in that school where there are vacancies at the present time.

You may definitely inform Dr. MacInnis that the Department has no intention of reopening the day school on the reserve.

Dear Mr. Crerar:

Re: Indian Affairs

I wish to bring to your attention the situation with respect to the Indian day schools in my constituency.

On the Millbrook Reserve the accommodation is most inadequate for the number of children and there are at the present time five or six who are unable to attend school for this reason.

The situation at Shubenadacie is even worse. At that point there are some twenty children of school age and no school facilities. However, the building still stands, but no teacher has been employed for a number of years.

If it is the policy of the Department to give the Indian children some education the Millbrook school should be enlarged and that at Shubenacadie repaired and a teacher employed.

Will you please favour me with your advice in the matter.

Yours sincerely,

Re - Operation of Indian day schools at
Millbrook Reserve and Shubenacadie, N. S.

Dear Mr. Purdy:

I am directed by the Minister to acknowledge receipt of your letter of January 14, in which you submit for departmental consideration a number of suggestions with respect to the operation of the above noted schools.

The records indicate that the desirability of enlarging the school at Millbrook has been under consideration by the officials of the Indian Affairs Branch for several months. In a departmental letter dated September 30, 1938, the agent was asked to prepare and submit to the Indian Affairs Branch an estimate of the probable cost of reconstructing and enlarging the Millbrook school. This estimate was submitted to the Department on November 15, 1938, and it is our intention to proceed with the necessary repairs and alterations during the summer vacation period.

I may state that when the Shubenacadie Residential School was built, in 1930, it was established on the understanding that Indian pupils then enrolled at a number of Indian day schools would be enrolled at the new residential school and the day schools closed. If however there are at Shubenacadie

Indian Residential School,
Shubenacadie, N.S.
January 30, 1939.

The Secretary,
Dept. of Mines & Resources,
Indian Affairs Branch,
Ottawa

Dear Sir:-

In reply to your letter of January 23rd, concerning
the letter of G.T. Purdy, Esq., M.P.

We called up Mr. Robb, the Agent, and arranged a time
to talk the matter over.

As for the results of the discussion, we feel that
Mr. Robb is in favor of opening the day school at the
Reserve. He feels this way about it, because the
Residential School was established by the Department
to take care of orphan children, and these children on
the Reserve are not orphans. Again, with a day school
there, he feels that they would be satisfied. All of which
to me, is, in the first instance not true, and the second
is sheer nonsense.

From what we can learn, it appears that Mr. Purdy and Mr.
Robb went out to the Reserve. In conversation with Mr.
Ben Knockwood, who is known by Mr. Purdy, because, he,
Knockwood, worked for Mr. Purdy in the lumber business, the
complaint of the Indians was opened. Mr. Purdy went to
Mr. Knockwood's house, but Mr. Robb did not accompany him.
From that we believe that Mr. Purdy would be voicing the
opinion of Ben Knockwood, concerning the school.

As for Mr. Ben Knockwood, he has one boy, between thirteen
and fourteen years old, and came to this reserve only a few
years ago, certainly at a time when the boy was over school
age. Yet we feel that the boy was never at school, even before
coming to this reserve. Some years ago we spoke to ~~the~~
Mr. Knockwood about the boy coming to the school, but the
excuse was that the boy was needed at home to help the
mother, and that he was being educated there. There is
not much to be said to any Indian when he puts up an argu-
ment of that kind.

At the present time we have twelve children from the Reserve, and last week we discharged Henry Knockwood, on the request of the Agent, because the father fell on the ice and was injured, and it was felt that the boy who will be sixteen years of age next August, was wanted at home. The youngest member of the family will probably take his place in September.

We had two of the older girls from the Shubenacadie Reserve, who are here now, make out a list of the children of school age, and the parents of same who are at the Reserve. The total comes to fifteen, the majority of them six, seven, and eight years old. We cannot be certain whether or not this list is absolutely correct.

Parents	Children
Mr. & Mrs. Peter Gloade.....	Peter Gloade, age 8 May Gloade, age 7
Mr. & Mrs. J. Paul	Frances Paul, age 6
Mr. & Mrs. Ernest Howe.....	Freddie Howe, age 6 Marie Howe, age 7
Mr. & Mrs. Stephen Maloney	Peter Maloney, age 6
Mr. & Mrs. William Marr	Faustine Marr, age 6
Mr. & Mrs. Charles Francis.....	Frank Francis, age 13
Mr. & Mrs. Ben Knockwood	Urban Knockwood, age 13
Mr. & Mrs. William Sack	Margaret Sack, age 6
Mr. & Mrs. Stephen Knockwood.....	Genevieve Knockwood, age 7
Mr. & Mrs. William Paul	Violet Paul, age 7
Mr. & Mrs. Martin Sack	Libby Sack, age 8 Annie Sack, age 9
Mr. & Mrs. John Knockwood,	Louis Knockwood, age 6

Looking over the list we think we can say which ones are really opposed to sending their children here, and also the reason.

Martin Sack's two girls -- We had two other girls of this family a few years ago, Jean and Catherine. At the close of the school year, Jean was sixteen years of age, and therefore eligible for discharge. Catherine went home at the same time for vacation. When vacation time was over all the children from that Reserve came back to school except Catherine. You would not remember it but there was quite a time getting her back. Finally she did

arrive back, and later was discharged. Because regulations were followed, the Indian did not like it, and has not forgotten.

Peter Gloade's two children -- a boy, and a girl. We have had three of that family here. One was discharged when she reached sixteen, and the other two did not return from vacation. The mother is all right but we cannot say the same for the father. He was one of the henchmen of a former Agent who gave us a merry time.

Ben Knockwood, mentioned previously, and Stephen Knockwood, we do not know. The others are all young married men, and unless we are very much mistaken, would and will send their children to this school. But as long as we have politicians and the Agent dangling the prospect of a day school at the Reserve, in order to please the older men, then it is only a matter of time until the older men exert their influence on the younger. It is not so many years ago that the ones from this Reserve sent a signed petition to the Department stating that if they would send their children to the Residential School, then we in turn would allow them home every week end. This letter was sent to the Department with the apparent approval of the Agent at the time.

To our knowledge, Mr. Purdy has been at the Residential School once. And the question at the time was not how much we were trying to do for the Indian, but who should obtain certain work that was contemplated at the time by the Government. If we are not mistaken, it was concerning the tender for painting the outside of the window sashes. We think it would have been the fair thing for Mr. Purdy to learn the other side of the question, why some of the children of the Shubenacadie Reserve are not at the school here.

To get back to our conversation with Mr. Robb, the Agent. Within a month of closing date, we send notice to every Agent who had children here being discharged on July 1st. At the same time we request that if they have any new ones to come in September, to have the application forms filled in soon, and sent

to the Department. We have done the same with Mr. Robb. By the fact that we were told that some of the ones on the Reserve who had been at the school, were no good, we could not help but **feel that** at least we have not a supporter of the school in the person of the Agent. We are not disappointed in that, because he is entitled to his own opinion, but at the same time, the arguments used, do not, to us, make sense. For if he would think about it, he would know that from among a hundred and sixty children, who are not chosen for their goodness, brains, and ambition, we are bound to have some good, some average, and certainly some bad. No matter how much you try to do with the latter you cannot have much success. Some people expect that we can take any kind of child, and apparently, run him through a mould, and after a few years produce a model that is well nigh perfect. After centuries of civilization, we have not done it with the white man, and it certainly cannot be expected that it could be done with the Indian in a space of a few years.

The parents of the children here come and visit them quite often. We do not claim that they are all satisfied, because we never expect to see any Indian say that he is completely satisfied, but we have no complaints that amount to anything.

Enough of this prattle. If Mr. Robb wants the children of this Reserve to attend the Residential School, all he has to do, as far as we are concerned, is to let us know just about how many we can expect on September 1st, and we will try to have accommodations. But he cannot expect that he can let the matter rest until the first of September, and then call up and expect us to find places for any number of children, for we try to take them in the order that the applications come from the Agents of the three Provinces.

Yours very truly,

Rev. F. P. Mackay

DEPUTY MINISTER:

Re - Operation of Indian Day School
 at Shubenacadie Reserve, Nova Scotia

I wish to reply to Mr. Pratt's memorandum dated January 18, with respect to the re-opening of the Indian Day School at the Shubenacadie Reserve.

In response to instructions sent forward from this Branch, Father Mackey, Principal of the Shubenacadie Residential School, and Mr. J. S. Robb, Indian Agent, met a few days ago and discussed very fully, it would appear, the best ways and means of providing educational facilities for the children of school age on the Shubenacadie reserve. Father Mackey, in his reply to the Department dated January 30, states: -

"From the results of this discussion I feel that Mr. Robb is in favour of opening the day school at the reserve. He feels that the residential school was established by the Department to take care of orphan children and that these children on the Shubenacadie reserve are not orphans. Again, with a day school there, he feels that the Indians would be satisfied".

In commenting upon the attitude of the agent, Father Mackey states:

In view of the fact that Mr. G. T. Purdy, M.P., is interested in this matter, it might be well if he could find it convenient to discuss the subject with Father Mackey. The Principal seems to be convinced that there will be accommodation at the residential school for the pupils of the Shubenacadie reserve. While the Agent appears to be in favour of re-opening the day school, it is exceedingly difficult for the Department to take such action, in view of the statement contained in Father Mackey's communication.

Re - Shubenacadie Indian Day School

Dear Sir:

May I refer to departmental letter to you dated January 23, 1939, in which you were requested to discuss with the Principal of the Shubenacadie Residential School the desirability of opening the day school on the Shubenacadie reserve. A letter similar to the one sent to you was directed to Reverend Father Mackey.

I am today in receipt of a letter from Father Mackey, in which he states that "If Mr. Robb wants the children of this reserve to attend the residential school, all he has to do so far as we are concerned is to let us know just how many pupils we can expect on September first and we will try to have accommodation. He cannot expect that he can let the matter rest until the first of September and then call up and expect us to find places for the number of children he may care to suggest. We try to take the children in the order that the applications from the agents of the three Maritime Provinces are received".

You can readily appreciate how difficult it would be for the Department to seriously consider the reopening of the Shubenacadie Day School, when the Principal of the Residential School is prepared to provide accommodation for the children at his institution. It has occurred to me that it might be sound policy to provide Indian day school facilities for the pupils of Prince Edward Island, and New Brunswick who may be at the moment enrolled at the residential school and in this way open up accommodation for the children of the Shubenacadie reserve. By adopting this policy we would save the transportation costs of children who come from a distance. In any event I am submitting the Principal's statement to you for any comment or recommendation you may care to forward.

In view of the fact that this matter has been referred to us from the office of the Minister, I should appreciate your dealing with it as promptly as possible.

Re School

I was surprised at Father Machie's
statement last June he informed me
he was discharging two pupils from
the school and could take two in their
place. Something wrong somewhere.

In looking over your report regarding the
schools there in 80 Res. schools in the Dom
inion 9040 pupils only 87 in grade 18 I can't
understand this. Are the Indians getting the
education they should those schools have
been running for more than 20 years I think.
I don't find the Indians stupid they learn other
things readily for the chance they have. Telling

is his idea of Manual Training well I know
wonder the boys are stupid when they come
away from that school. I'm not going
to tell you what to do. The Res school
is not an asset to this district but an
eyesore to the Indians of this Reserve. I
talked the matter over with the Indian
and think if all the children to appear
and up were admitted to the school things
would look better but they feel slighted
the way things are now. They have a hard
feeling towards Father Macnic and I don't
think he likes them very well. Father Brown
made a statement in the Church out there
that there ^{shall} never be a school on that Reserve
and demanded that they send their children
to the Res school. I could see a bitter feeling

work is scarce and I don't think the
Indians would be able to cloth and

that to them. I raised 9 children not
one of but passed the 1st grade and
up to B.A. so I feel that there should
be some Indians better fitted to go out

MEMORANDUM

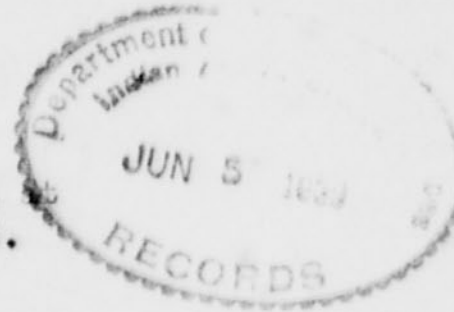

June 2, 1939

THE DEPUTY MINISTER

Dr. McGill-

For draft reply as
requested.

Indian Day School
Shubenacadie, N.S.

lady

In January last Mr. G.T. Purdy, M.P., wrote the Minister submitting a number of suggestions with respect to the operation of the Indian Day School at Shubenacadie, and also at the Millbrook Reserve, and on January 23rd a reply was sent to Mr. Purdy over my signature; I quote therefrom concerning the Shubenacadie School:-

"I may state that when the Shubenacadie Residential School was built, in 1930, it was established on the understanding that Indian pupils then enrolled at a number of Indian day schools would be enrolled at the new residential school and the day schools closed. If, however, there are at Shubenacadie 20 children who cannot secure accommodation at the residential school, the claims of this reserve for a day school will be carefully and sympathetically reviewed. The officials of the Indian Affairs Branch are communicating with the Indian agent and with the Principal of the Shubenacadie Residential School in respect to the matter".

The attached further letter from Mr. Purdy is now received. Will you please let me have a draft reply.

Dear Mr. Purdy:

I have for acknowledgment your letter of May 31, in which you refer to your correspondence with the Department last fall, in respect to provision that might be made for the education of the Indian children at the Shuben-acadie reserve.

The officials of the Indian Affairs Branch inform me that reports have been received from the Principal of the residential school and the Indian agent. The Indian agent appeared to favour the re-opening of the Indian day school on the reserve, while the principal of the residential school considered that the re-opening of the school was unnecessary. In view of this condition, it was decided to have Mr. Phelan, Chief of the Training Division, thoroughly investigate the matter this year. You will be interested to learn that Mr. Phelan is at present engaged in an inspection of the schools of Nova Scotia. Just as soon as he returns, I shall be glad to communicate with you again.

Memorandum:

MR. HOEY

Accompanied by Indian Agent Robb I visited the Shubenacadie Indian Reserve on June 4, 1939. The Indians had been advised of my visit by the Agent and I was greeted by practically the entire Band -- men, women and children. As it was a fine day a meeting was held on the lawn outside the church.

The Shubenacadie Reserve consists of 1750 acres. The land appears suitable for farming but only a few of the Indians had cultivated gardens. The Reserve is located between 4 and 5 miles from the village of Shubenacadie. As you know the Shubenacadie residential school is just outside the village.

CHILDREN

At the present time there are 14 children 7 years of age and over on this Reserve who have not yet attended school. In addition there are 8 children who are between 6 and 7. This makes a total of 22 children over 6 years of age.

There are approximately 20 children under 6 years of age.

There are 10 children ranging in age from 8 to 14 who are attending the Shubenacadie Indian residential school.

ARGUMENTS FOR ESTABLISHMENT OF A DAY SCHOOL

Several of the Indian men and women expressed the opinion that a day school should be established. They stated that they wanted to have their children at home. One of the leaders of the discussion was an Indian named Ben Nockwood who has one boy 15 years of age who has never attended any school. I asked him the reason why the boy had never been sent to school and he stated that owing to his wife's ill health he had to keep the boy at home to look after his mother. Many of the Indians stated that they would be prepared to provide clothing for their children if they were attending a day school on the Reserve. Unless conditions materially improve it is difficult to see how they could do this as the Indian Agent informed me that work was extremely scarce and that as a result practically all the Indians living on the Reserve are in receipt of relief at the present time.

In private conversation with some of the Indians following the meeting it was evident that all of them were not in favour of re-opening the day school on the Reserve but they did not so express themselves while the meeting was being held. The six or seven who spoke at the meeting stated that they wanted the day school re-opened.

BUILDING

The day school on this Reserve was closed in 1930. For the past three or four years the building has been used as a residence by an Indian woman. This building is approximately 15 feet wide by 20 feet long. It has a good hardwood floor and the roof appeared to be in good condition. The Indian woman who has been using the building has erected two or three temporary partitions. In the event of this day school being re-opened on the Reserve it would be necessary to tear down these partitions. The interior would probably

have to be painted. There is a small upstairs in this building which has been uncompleted but possibly could be made into a room for the teacher's living quarters. New toilets would have to be erected and new desks would have to be purchased.

CONCLUSIONS

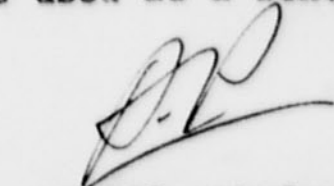

It is extremely difficult for me to decide whether or not a day school should be opened. From the figures given above it appears evident that there are sufficient children for a day school. At the same time to re-open the school would involve considerable immediate expenditure and in addition the Department would likely have to provide clothing and a generous midday meal in view of the fact that the parents are not able to provide these necessities.

Many of the children over 7 years of age who have not yet attended school could have entered the Shubenacadie residential school if the parents had been sufficiently interested to apply for their admission.

The Principal of the Shubenacadie residential school advised me that owing to the discharge of a number of children at the end of June he would be in a position to provide accommodation for the 14 children on the Shubenacadie Reserve who are of school age; namely, over 7 years.

Up to the present the Shubenacadie residential school has had no difficulty in maintaining its full quota of pupils and even if a day school is established on the Shubenacadie Reserve I do not think it will prevent the Shubenacadie residential school from having its full pupilage.

In the event of its being decided to open the day school I recommend that the Agent be directed to have the repairs to the building made by those at present in receipt of relief. This would reduce the expenditure required to put this building into condition to be used as a school.

Dear Sir:

The Training Division advise me that they propose re-opening the school on the Shubenacadie Indian Reserve on September 1st in a house which was formerly used as a schoolhouse. I understand that there is an Indian family living in this house and it will be necessary to have them removed. I would be pleased if you would make such arrangements as may be necessary to effect this removal at once.

If there is no suitable house on the Reserve in which they could stay permanently, I would be pleased if you would forward us requisitions in triplicate on Form 37¹ covering requirements necessary to build a house for this family. When an Official of this Branch visited your Agency some time ago he reported that there was a large quantity of logs on the Reserve. It is just possible that this house could be made of logs and the only material required to be purchased would be doors, windows, roofing and flooring.

My dear Archbishop McNally:

You will be interested to learn that provision has been made, in our departmental appropriations of this year, for the construction of Indian day schools and teachers' residences at the Eskasoni and Shubenacadie Indian reserves.

It is our intention to construct a 4 room school, a residence for the Sisters who will be placed in charge of the classroom work and a residence for the principal on each reserve. We are now in a position to call for tenders for the construction of these buildings, and it is our hope that work will start at an early date.

I am of the opinion that the success of our Indian welfare program in Nova Scotia will depend, to a very large extent, on the courses of study provided at the schools, coupled with a worthwhile adult educational program, organized and carried forward under the direction of the principals. I can see little reason why the social and economic structure on these reserves should not be, in a very basic sense, co-operative. I have in mind groups of adults, organized for the study of social and economic questions. There should be, also, opportunities for co-operative bulk purchasing and the co-operative sale or disposal of farm and handicraft products. This program, if it is to be successful, will require almost constant direction. Progress at the outset is sure to be slow and the tasks involved, somewhat discouraging. I am naturally anxious, therefore, to secure the services of a young priest with a certain amount of training along the lines I have suggested and a man of unusual missionary

enthusiasm. It may be at this particular time exceedingly difficult to secure the services of such a man, but I feel - and I am sure you will agree with me - that it would be better to delay the appointment for a time rather than appoint a man who had not the training and temperament necessary for the position. It is just possible that you have in mind a young man with special training for the principalship of the Shubenacadie school. If you have not, it is possible that there may be available a young priest who would be prepared to take a special course of training for this work. Such courses of study are, I understand, provided at the St. Francis Xavier University.

May I embrace this opportunity to thank you and, through you, the priests of your diocese, for the measure of co-operation extended to us in carrying out the policy of centralization at Shubenacadie. The assistance rendered by the priests, many of whom have been until now our part time agents, has been very deeply appreciated by the officials of the department and by myself.

I have your letter of the 17th instant, with reference to making arrangements with the Sisters of Charity for teachers for the new day school on the Shubenacadie Reserve.

I regret that at the present time I am unable to give you any definite date on which this school will be ready for occupation.

We have planned to build a school, a residence for the Sisters and a residence for the Principal. However, the plans are not yet completed and in addition I understand that there may be some difficulty in obtaining materials. As a result, it looks now as if the erection of the building would not commence for several weeks. This would mean that it would not be ready for occupation before January 1 next and probably a date subsequent to that. As stated above, I regret this delay, but from the contents of this letter you will realize that it is due to circumstances beyond our control.

Re Teacher, Ind. Day School, Shubenacadie, N.S.

Doubtlessly you are well aware that both industry and the services have absorbed too many of our teachers. Consequently there are very few available anywhere and none locally. I happened to know of a woman who taught for a number of years in the Bear River Indian Day School and who was at present unemployed. Her name is Miss Agatha McGinty and I have arranged for her to come and look the situation over.

Before contacting this woman I talked the matter over with Rev. Fr. Mackie and for a while we entertained the possibility of securing one of the Sisters of Charity to substitute. Due to the difficulty of transportation during autumn and winter this idea had to be abandoned. An effort was made to find one locally who could perhaps walk or drive to and from work. As there were none available I was forced to look farther afield.

If Miss McGinty will accept the position and if her application is favorably received in your office, there may be some difficulty procuring a boarding house for her. The nearest white family would be almost two miles away and served by a very unsatisfactory road. We have here a small, bungalow type house, nearing completion. If Miss McGinty will not board with an Indian family and if she remains the only available teacher, I am afraid it will be necessary to rush this house to completion and place her there. This may necessitate the procuring of some furnishings such as household goods etc. However this is not known definitely at present. If this is necessary I desire authorization to purchase an absolute minimum of requirements. These articles could be used for destitute Indian families when no longer needed.

Extract from Indian Agent Rice's report on the Shubenacadie Indian Agency for the period October, 1943, to January, 1944, inclusive.

Two months after the opening of school here we were unfortunate enough to lose our teacher. She was an Indian girl and maintained at all times a very good school, commanding discipline and respect. The County School Inspector gave her a very good recommendation and was also sorry to see her go. Our new teacher taught on the Bear River Reserve a number of years ago but has not done much work of this nature since. She is trying hard to do her best and give satisfaction by brushing up with correspondence courses from an institution in this province whose purpose is to help the rural teacher. Unfortunately she felt unable to teach a girl in Grade 8 and it was necessary for me to apply for permission to send her to a convent school for the balance of this year. I had to admire her stand on the question as she preferred to resign immediately rather than waste any part of the pupil's year knowing that she could not help her. I would have accepted her resignation but the shortage of teachers is very acute in this province and the facilities on this reserve are not the most inviting.

Dear Mother Louise:

Your letter of February 25 addressed to Mr. Arneil, Inspector of Indian Agencies, has been referred to me for attention.

It is our intention to make another endeavour to have the new school on the Shubenacadie Reserve erected this summer, but at the present time I am not in a position to state definitely if construction will proceed.

In the event of the school being erected, we would like to secure two fully-qualified Sisters to take charge of the school for the academic year 1944-45. Pending the erection of a teachers' residence, arrangements could be made to have these Sisters live at the Shubenacadie Residential School.

The question of transporting the teachers from the residential school to the reserve has not yet been considered, but I feel that it would not be difficult to make the necessary arrangements. Regarding the salary for each teacher, I should appreciate your stating what amount you would consider should be allowed.

Her sudden action was due to illness of chest and throat which has ~~been~~ persisted for some time and which greatly impaired her efficiency in the school room.

I feel that her action was necessary and after interviewing her I readily gave my consent. I have had correspondence with an experienced teacher who taught a number of years in the west in what she called "Foreign Schools". At the Doyle farm we have approximately 350 cords of fuel wood cut from the newly purchased Dodd land. This wood is at present being sawed and split into stove and furnace wood and close to two hundred cords of it should be sold. This matter was brought to the attention of Mr. Arneil, Inspector of Indian Agencies and was approved by him. It will be recalled that fire passed through this property necessitating the immediate removal of all scorched wood, regardless of whether it was hard or soft, fuel or logs, as long as it was worth salvaging. Practically everything damaged came out this winter and all logging operations ceased on March 14th. I have hired a local wood-cutting outfit and as soon as possible after the cessation of logging we started to cut up this wood. This was one week from the day we moved out of the woods, the delay being caused by the depth of the snow which covered the greater portion of the wood. Due to the injury to this wood at the time of the fire such a large amount cannot remain piled for eventual use. I suggest keeping only what is necessary for the old and destitute of this and Truro reserve plus next year's requirements of both Day Schools. The balance, as stated previously, should be sold as soon as possible. I think for the good of the community in and around Shubenacadie this wood should be sold to individual buyers rather than to a wood dealer. It will have to be borne in mind that the wood was blackened by the fire and that it is of a mixed variety approximately half hard and half soft. These factors will lower its sale price somewhat but I will get the best possible prices for it and keep withing ceiling prices. I have contacted the W.P.T.B. in Truro re the possibility of procuring the one dollar per cord subsidy paid to wood dealers and if successful will have this to compensate for the lower sale price. I would appreciate having your approval of this proposed sale as it appears to be the practical thing in this case.

We have at the mill approximately four hundred thousand feet of timber. I believe it is a better grade than last year's cut and all but twenty thousand came from the Dodd

land. This will be sawed and were it not for the frost which threw our mill out of line we would be at it now, It is a big out and I believe it will require almost three months to cut it. We plan to start as soon as possible. I might mention that we have left over from last year about 200 M. f.b.m. in mostly two inch. Should a school be built here this summer there is not likely to be any shortage of lumber. From the Dodd land purchased for five hundred dollars we have taken close to four hundred thousand feet of good Timber, well over four hundred cords of wood and left standing about 50 M of fire-free timber and 250 cords of good wood.

MEMORANDUM:

DR. MC GILL

On February 17th at Truro, Nova Scotia, a meeting was held with the Nova Scotia Agents, H.C. Rice, Shubenacadie, and J.A. Maclean, Eskasoni, to discuss the various phases of their agency activities and their work during the past year and to prepare and lay plans for the current year's programme.

x x x

While at Shubenacadie reserve consideration was given to the possibility and of our erecting a four room school.

x x x

I found that it was possible to get the services of two or more fully qualified teachers from the Order of the Sisters of Charity should a school be erected, and that they could reside at the residential school. Transportation could be provided daily from the residential to the day school, a distance of about four miles each way.

On March 20th Miss McGinty who had been engaged on this reserve as teacher in the Day School since November 5-43 abruptly resigned due to ill health. She contracted a cold in early winter and it's persistence worried her. She feared too the possibility of T.B. contacts and abruptly ceased duties, and asked to be allowed to return to her home. At first I planned to hold her until a replacement could be found but after an interview I sent her home immediately. She appeared to be nervous and slightly hysterical and in that condition was of absolutely no use in a schoolroom. Luckily I had heard from Agent MacLean of Eskasoni of a teacher seeking employment and I wired her posthaste. She arrived on March 28th and re-opened the school the day following. She is a middle aged woman of experience and undoubted ability and energy. Already she has won the respect of both parents and children. She is firm and on entering the classroom it is quite evident that she has done this work before. She was quite disappointed in her salary cheque for the month of April. I had told her that the bonus would be \$18.42 and apparently she had not become accustomed to the drastic income tax deductions. I trust some satisfactory adjustment can be made as I do not favour the prospects of looking for another teacher this time of year. In fact a replacement is practically impossible to obtain and if she leaves the school will have to remain closed for the balance of the term.

Dear Sir,

This acknowledges your communication of March twenty-first, in which you state your intention of making another endeavor to have the new school on the Shubenacadie Reserve erected this summer.

As we are about to begin planning our teaching staffs for the coming school year, it would be helpful if we could know, definitely, whether or not two teachers will be needed for the Reserve.

Regarding the salary of each teacher, may we ask you to state the amount that is being given in other Reserves corresponding to the one that is to be erected in Shubenacadie?

A reply at your earliest convenience will be very much appreciated.

Sincerely yours,

Dear Mother Louise:

With reference to your letter of the 17th instant, I may say that the contract for the Shubenacadie School has not yet been awarded and, as a consequence, I am not exactly certain at the present time when the school will be ready for occupation. However, it is our present intention to proceed with the erection of this building this summer and I trust that by October 1 at the latest classes can be commenced in it. We would like to have two teachers for the date mentioned.

With regard to the salaries that can be allowed these teachers, arrangements will be made to have one of the departmental officials visit Nova Scotia within the next month or six weeks and at that time he will call on you and discuss the matter.

MR. HOEY

Re: New Shubenacadie Reserve

" I spent September 8 and 9 with the Indian Agent on this reserve. At the present time there are approximately 300 Indians residing on the reserve. Forty houses have been completed and of these eight were built during the current year. Five more cellars were being dug and this means that five more houses will be completed before the winter. A recent census of the reserve indicated that there are 107 children under the age of sixteen. Of course, all of these are not of school age at the present time. A visit to the day school which we are operating on the reserve until the new building is finished showed the names of 48 pupils on the register. As a result the old day school is extremely crowded and, pending the completion of the new building, it may be necessary to have the younger children come for half a day and the older children for the other half day.

The erection of the new building is proceeding rather slowly. At the time of my visit on September 9 the foundation had been completed and it was hoped that the work would progress more quickly so that the walls would be erected and the roof on before the cold weather started. At the time I visited the reserve the well digger had not yet struck suitable water, although I phoned Mr. Buck today and was informed that suitable water had been secured at a depth of 327 feet.

At the present time we are still operating schools on the Afton Reserve, Indian Cove Reserve and Millbrook Reserve. The Afton Reserve is just outside the town of Antigonish and Indian Agent Rice states that very few of the Indians residing here wish to move to the new reserve, as they can obtain work in Antigonish. The Indian Cove School is situated near Pictou Landing and the Millbrook School is located a short distance from Truro. In both cases the Indians are very reluctant to move to the new reserve for the same reason as I stated in regard to the Afton Reserve. I recommend that the Principal's residence and the teachers' residence be erected next year. As soon as the school is finished the other buildings will be required and they should be provided at the earliest possible date.

On September 5 in Halifax I interviewed the Mother Superior of the Sisters of Charity. This is the same Order as we have in the Shubenacadie Residential School. They are willing to provide whatever number of qualified teachers we require. However, they have made all their appointments for the current academic year and, in view of

the delay in erecting the building, it will not be possible for them to provide any Sisters until the academic year 1945-46. I pointed out that in addition to teaching the school it would be expected that the Sisters would take an active interest in home makers' clubs on the reserve. The Mother Superior promised that they would do this and to assist us in this regard they would arrange to send one Sister who has had considerable experience in social service work. As you know, the salaries of teachers have been considerably increased in the white schools in Nova Scotia this year. It was agreed with the Mother Superior that the following salary rate would be suitable: \$1200 a year for the Principal and \$1000 a year for each assistant.

This Order not only provides qualified teachers for schools, but also has a number of Sisters who are qualified nurses. One of their activities is the operation of a big hospital in Halifax. In the event of a nursing station being established on the new Shubenacadie Reserve, I feel very definitely that one of the Sisters should be employed. This would mean that both the teaching services and the nursing services would be in charge of the same Order and would no doubt give us beneficial results.

At the present time, as you are aware, considerable employment is being given to the Indians in the erection of the new houses. I also noted that several had cultivated gardens during the past summer. A separate report is being submitted regarding the lumber which is at present surplus to requirements.

Both the Indian Agent and the clerk seem to be fully conversant with their duties and apparently are working hard to get everything into good shape. //

Mr. H. C. Rice, Indian Agent, Shubenacadie, N.S.

I have your letter of the 22nd instant, regarding Mrs. Mary E. McNeil, teacher of the Shubenacadie Indian Day School. I was not aware of any regulation requiring that teachers be notified before the end of March. We do not come under provincial regulations, and when teachers are appointed they are notified that only one month's notice is necessary on either side.

However, the situation is that the contractor has stopped work and will not resume the erection of the building until some time in April. I hope that he will have the building ready for September, and of course, in that event, we will employ the Sisters. We might have some difficulty in obtaining them, because at the rate construction proceeds it is doubtful if we will have the residence ready for them by September first, although we have provided the funds for the purpose in the appropriation for 1945-46. However, it was understood a year or so ago that they could probably stay at the Shubenacadie Residential School until their own residence was finished. I realize this letter is rather vague, but as regards the time when the buildings will be completed we are as much in the dark as you are.

Dear Sirs:

Re: New School.

I would like to get some information regarding teachers for the new school. The school and the continual controversy over teachers has given us all a great big headache.

We better, right now, come to an understanding regarding teachers for the school re. 1945-1946.

I told Mr. Rice this morning I intend to come back to teach here next year.

I was given to understand that you want the "Sisters" to come and teach in the new school. In fact I heard this a million times since I came here last year. May I ask you the reason why?

You know the rule regarding teachers of Indian day schools.

No teacher can be dismissed or discharged if the work in the class-room is satisfactory.

My work since I came here has been more than satisfactory.

You got a wonderful report from Mr. Campbell, the Inspector of Schools, regarding my work, still you had the idea you could bring in Sisters and dismiss day teachers for no reason whatever. You can bring them in tomorrow if you wish but you will have to pay me a year's salary. We had so many false reports coming in from your Department that we don't know whether we are coming or going.

Fr. Brown told me that the Sisters can't come here to teach until their Convent is built. This is something that has not been explained to you before. It would be impossible for them to board at the Residential School and drive back and forth as the roads are blocked to car traffic and even horse traffic for days at a time. When we came from church last Sunday the taxi left us a mile outside the reserve. The car couldn't get through the mud. We have snow-drifts, flood, mud, etc. here.

Mr. Rice and Father Ross visited me this morning and we talked the whole thing over. The Indians want me to stay on here and they would like to have another day teacher, until such time as the convent could be built. They are willing and ready to build a two room cottage for the teacher, the same as mine. That would simplify things for everybody.

I hold B. Diploma, honors for physical culture. Under The "Strathcona Trust" rule, I am to draw government grant every six months when I teach physical culture in any school. Mr. Campbell told me to ask you to send me forms, sign them, and return them to you. He said I couldn't draw any grant until I get registered. I also teach sewing, mending, cooking, etc. I did the work of two teachers since I came in here last year, so I hope your letter, or I should say your answer, will ease our headaches. The school won't be ready for another six months anyway. Could you please tell me when and where are "civil service" exams, held, and I hope you will pardon this lengthy document.

Very sincerely,

(Signed) Mary E. Mae Neil.

Ottawa, July 13, 1945.

Reverend and dear Mother:

On September 5, 1944, the Chief of the Training Division interviewed you in connection with securing members of your Order to staff the new school being erected on the Shubenacadie Indian Reserve. As you are aware, this reserve is approximately 5 miles from the village of Shubenacadie, N.S., where the Indian Residential School is located.

Owing to circumstances beyond our control, the program for the buildings proposed on the Shubenacadie Reserve has not progressed as rapidly as we had hoped. However, the school will be completed by September 1, 1945, and, if at all possible, we would like to secure members of your Order to operate it for the academic year 1945-46. As understood at the time of Mr. Phelan's visit, salary will be allowed the Principal at the rate of \$1,200.00 a year and the assistants at \$1,000.00 a year, each. Present indications are that we would require for 1945-46 a principal and three assistants. It was further understood last fall that, in addition to teaching the school, the Branch would expect the Sisters to take an active interest in Homemakers' Clubs on the reserve. To do this effectively requires a Sister who has had experience in social service work. Last fall you stated that you felt it would be possible to supply the services of such a Sister.

We have been unable to arrange for the

erection of a teachers' residence, but in conversation last fall with the Principal of the Shubenacadie School, I obtained the impression that it would be possible for one year at least to have the Sisters teaching in the day school on the reserve live at the residential school and drive out to the reserve each day. On first consideration this arrangement may present some difficulties, but the Department will be willing to co-operate in arranging transportation.

We are extremely anxious to have the Sisters in charge of the new school as soon as it is ready and I am hopeful that you will find it possible to advise me that you are in a position to supply the staff mentioned above.

Mr. H.C. Rice, Indian Agent, Shubenacadie, N.S.

I understand from the Surveys and Engineering Branch that the Shubenacadie School will be completed by September 1st.

Consequently we wrote the Mother Superior of the Sisters of Charity on July 13th requesting them to have available the services of a Principal and three assistants. While we have been unable to arrange for the erection of the teacher's residence it is understood that for one year at least to have the Sisters teaching in the day school on the reserve live at the residential school and drive out to the reserve each day. I am now in receipt of a letter from Mother Evaristus stating that the services of the four sisters will be available for the coming academic year.

It is our understanding that one of the teachers will be able to take an active interest in Homemakers' Clubs on the Reserve.

You should therefore inform Mrs. Mary E. MacNeil that her services will not be required at this school for the academic year 1945-46.

There are vacancies in some of the Indian schools in the Eskasoni Agency. If she is desirous of obtaining an Indian school you might suggest to her that she write to Mr. F.B. McKinnon, Acting Indian Agent, Eskasoni Chapel, Nova Scotia.

It is our intention to supply chair desks so that the activity program may be carried out. We will also secure four teacher's desks. Re: Departmental Letter, July 28, 1945, File 51-I-I, New Day School.

With reference to your letter concerning the above, I might say it does not look to me that, with the help they are using at the present time, the School will be ready by the first of September. The Mother General was up today and inspected same. She was very much disappointed especially regarding accommodations for the Sisters, there being no running water, no outside toilets and you will probably receive a report from her on the matter.

I have informed Mrs. Mary E. MacNeil that her services will not be required on this Reserve but have asked her to take over the Indian School at Millbrook.

With regard to desks for the new Day School, the following will be required:

30 Small
40 Large
30 Medium

Also 4 teacher's desks and 8 chairs. I might say that I cannot seem to get a price on these locally at this late date.

Mr. R. W. Hoey, Director,
Indian Affairs Branch,
Dept. of Mines and Resources,
Ottawa, Ontario

Dear Sir:

Since my letter to you on July 21 in which we promised to send, as requested, Sisters to the Indian Reserve, I have visited the Reservation at Shubenacadie to examine conditions there.

The school has class-rooms that are spacious, well-lighted, and airy, and when finally equipped, will have all that is needed for the pupils. Yet, no provision has been made for the teachers' comfort; their noon-day meal must be taken in the school where there is no convenience either for preparing it or for taking it in any privacy. There is no room where the Sisters might keep their out-door wraps, their school books, etc., and you know the Indian propensity for appropriating things.

There is no running water on the premises. I understand a well has been dug, but the water is unfit for drinking. Since water must be brought from a distance of at least two miles, it will take some time to remedy this inconvenience. No toilet facilities are provided for the teachers; evidently they are expected to use the outdoor toilets provided for the Indian children.

The transportation has its own difficulties. Snow in winter, and mud in the spring, will very likely make the roads impassable at times, and always in winter there would be the danger of being storm-stayed at the Reserve.

You will, I believe, recognize the situation as a serious problem for us. We do not wish to go back on our promise to you, but all things considered, it does not seem advisable for us to take over the school until the teachers' residence is ready.

Mr. Rice, with whom I talked over the matter, understands these difficulties. He tells me there is an Indian woman on the Reserve, a former pupil of the Residential school, who has written Provincial examinations and attended Normal School. This woman would, he says, be willing to look after the children during the coming year.

I shall appreciate it very much if you will let me hear from you very soon if some arrangement can be made for the year 1945-1946 which will not necessitate our sending the Sisters yet.

Sincerely yours,

Dear Mother Evaristus:

I discussed the contents of your letter of the 4th instant with the Director.

In view of the difficulties that you mention, the Department will endeavour to make other arrangements for the operation of this school for the academic year 1945-46. Consequently, it will not be necessary for the Sisters to take charge of the school.

We are still hopeful that the residence for the Sisters will be built next year.

Yours sincerely,

Philip Phelan,

Ottawa, August 8, 1945.

Mr. H. C. Rice, Indian Agent,
Shubenacadie, N.S.

I have your letter of the 3rd instant, in connection with the Shubenacadie Indian Day School. I have also received a letter from Mother Evaristus, pointing out the difficulties that would likely occur if the Sisters took charge of the school for the academic year 1945-46. I have discussed her letter with the Director today and we are advising her that we will endeavour to make other arrangements for 1945-46. Consequently, the Sisters will not be in charge of the school for the coming academic year.

Mr. Hoey feels that Mrs. Mary E. MacNeil, who taught the Shubenacadie Day School last year, should be retained for the academic year 1945-46 and not sent to Millbrook. He also believes that if it is possible another teacher should be secured. This would make two teachers for the coming academic year. While I realize that this arrangement will not be ideal, it is the best that we can think of at the present time.

In her letter Mother Evaristus states that there is an Indian woman on the reserve whose services might be secured. Possibly she could serve as assistant to Mrs. MacNeil. Please let me have your views regarding the above suggestions.

Dear General Chisholm:

I have a copy of a letter that you handed me which you had received from the Canadian Nurses Association, Montreal, asking regarding "Opportunities for Nurses". The Indian Affairs Branch has, at present, fifteen hospitals with a total bed capacity of 550 beds and is in the process of taking over and opening three more hospitals with a combined bed capacity of 700 beds.

There are positions for nurses vacant in all these institutions.

The Indian Affairs Branch also has a field nursing staff of about fifteen nurses, and in the next year or so will require at least 70.

Our basic salary is \$80 a month, plus cost of living bonus which is at present \$18.42, plus full maintenance. Nurses with adequate training in Public Health are offered \$1260 per annum, plus cost of living bonus, plus full maintenance. Matron's salaries are in accordance with Civil Service classifications.

I should appreciate your forwarding this information to Miss Hall so that it could be included in the data being prepared by the Canadian Nurses Association.

Yours very truly,

Mr. H.C. Rice, Indian Agent, Shubenacadie, N.S.

I have your letter of the 27th instant, in which you stated that you have secured the services of Mrs. Mary MacNeil and Mrs. Elsie Basque as teachers of the Shubenacadie Day School for the academic year 1945-46. Salary will be allowed Mrs. MacNeil at the rate of \$80.00 a teaching month plus bonus and Mrs. Basque at the rate of \$75.00 a teaching month plus bonus effective September 1st, 1945.

As Mrs. MacNeil was in our employ last year no additional forms are required for her.

However, we will require forms for Mrs. Basque and I enclose these. You should have her complete and return these as soon as possible. I presume that Mrs. Basque is an Indian. If so, that fact should be stated as she would not be liable for Income Tax. I am under the impression that Mrs. MacNeil will be considered as Principal.

With regard to the new School, which is finally completed, excepting installation of registers for the floors and these have not arrived from the manufacturers as yet. This has been a long drawn out process-about fifteen months constructing the building. I feel however that MacDonald, the Contractor, has done a real good job and that nothing has been slighted in any way. We certainly have a nice building and it is a great credit to the Reserve. Throughout the job, most of the work was done by two men and Indians from the Reserve supplied the remainder of the help. This building will require a lot of attention, both inside and outside and I intend to burn wood in the furnace for this year, as there is plenty on hand, with only two classrooms to be heated. I have recommended Joseph Howe, the only competent Indian I have, for the job. He lives near the School and I have recommended his salary at the rate of \$50.00 per month. Although this might seem rather high, yet the building will require someone to look after it day and night and considering circumstances, I do not think this rate to be unreasonable. I am waiting Departmental instruction on this matter. As I had to hire two teachers at the beginning of the school term, expecting that the new building would be ready, it has been necessary to have two sessions each day in the old school, one in the morning for the higher grades and another in the afternoon for the lower grades. Because there was not room in the old school, this has been necessary. Immediately the seats, desks and chairs arrive, I intend to open two rooms of the new school as this will be sufficient for this year and will be easier to heat. Mr Ross of the Engineering Service was here for two weeks, surveying out the water line from the Spring Brook to the Reserve. He found abundance of water and an analysis showed it to be in first class condition. He also inspected the new School and found it to his entire satisfaction. While construction of the building since last Christmas, has taken up quite a lot of my time, due to the fact that there was no Engineer here, Mr Ross' favourable comments made me feel that time I had spent on it had been well worthwhile.

REPORT FOR THE QUARTER ENDING SEPTEMBER 30

There was considerable uncertainty at the beginning of the school term with regard to the hiring of teachers. It was generally understood that the Sisters would be taking over at the new School on the Reserve here. With this in mind, I intended to have Mrs. MacNeil, who had taught last year on this Reserve, placed as teacher at Millbrook. However when it became known that the Sisters would not be able to take over the new School, I was advised by the Department to retain Mrs. MacNeil and in addition, to if possible, obtain the services of another teacher. I was able to engage Mrs. Elsie Basque to teach with Mrs. MacNeil on the Reserve here, but it meant there was no teacher at Millbrook. After advertising in the papers, the result was I received six or seven applications and from these I selected one who seemed best qualified, Miss Mary B. Cameron, who is, I feel doing a very good job and I am quite satisfied with her work.

We finally managed to move into our new School the first of November. Two classrooms only are in use and these have been kept warm quite easily by burning wood. Because the remainder of the School has been closed off, it has been possible to heat the two rooms fairly easily. However I feel sure that when the time arrives and we have four teachers, we will have to use coal for a few months in place of wood. I had some gravel spread around on the School grounds, but there is still considerable work to be done in order to make the playgrounds attractive. In the Spring I will endeavour to get some crushed rock which will make it much drier and should show a much greater improvement. The children are all watched carefully regarding their school attendance and in case of absentees, the Constable is notified and a full explanation is required from the parents. We had Mr. Ross from the Survey and Engineering Branch, checking on the new School and surveying out the proposed waterline.

You will recall that Mr. Phelan of this Branch interviewed you in September, 1944 with reference to providing qualified teachers for the day school at Shubenacadie Reserve.

As you are probably aware, the day school was completed last year but the residence for the Sisters is still under construction. However, we hope to have this completed by July or August. We therefore hope that you will be able to nominate **four** qualified teachers for this school.

Enclosed are copies of our regular application form and it would be appreciated if you have these completed and returned by the Sisters that you would be able to place at Shubenacadie.

Dear Father Boudreau:-

On my recent visit to Shubenacadie I was pleased to note that the buildings we have provided for educational purposes appear to be satisfactory and should make it possible for a complete programme to be carried out for the welfare and progress of Indian children. It now depends upon the personnel to put forth their very best efforts. I feel certain that you will co-operate with me along the following lines,-

- (a) You should be on the Reserve every day when the school is in operation during the academic year.
- (b) You should consult the teaching Sisters each school day with a view to assisting them in any manner that will promote the efficiency of the work and especially in cases of enforcing discipline among the boys.
- (c) Establish organized play among the boys by promoting athletic events suitable to the season of the year. In this regard I may say that the Department is prepared to supply reasonable quantities of footballs, basketballs, volley ball equipment, play ground balls, and play ground bats. It is very important that Indian children should be taught the value of organized play. Physical exercises should be encouraged and every possible endeavour made to promote good sportsmanship in the playing of games. It is understood, of course, that you will supervise all athletic activities.

Dear Father Boudreau:

We received your report for the month ended April 30th. It is noted that you did not make any comments under headings 15 and 16.

We are particularly interested in learning of social gatherings or athletic events that have been held as a result of the encouragement given by yourself.

Please make reference to these on future reports.

Yours sincerely,

Bernard F. Neary
Superintendent of Education.

Mr. H. C. Rice,
Superintendent, Indian Agency,
Shubenacadie, Nova Scotia.

Shubenacadie Indian Day School.
Shubenacadie Indian Residential School.

Would you please interview Mr. G. R. Sutherland,
Inspector of Industrial Arts, Shubenacadie, Nova Scotia, concerning
a manual training teacher for the Shubenacadie Indian Day School
and the Shubenacadie Residential School. You will recall our
discussion with regard to the hiring of such a teacher when it
was decided that he would be employed part time at both these
schools.

Such a teacher would be required to hold a
teaching certificate in Industrial Arts, and would be entitled to
classification as a Grade 4 teacher under our salary schedule.
This calls for a salary range of from \$1,800.00 to \$2,520.00
a year.

You will find complete details of this salary
schedule in the June issue of the Bulletin, which will be sent
to you shortly. However, you should not delay in contacting Mr.
Sutherland. The Director of Vocational Education, in Halifax,
has already written to Mr. Sutherland about this position.
I attach application forms, in the event that Mr. Sutherland can
put you in touch with any teachers who might be available for
this position.

MODERN INDIAN SCHOOL AT SHUBIE; TRIBAL TRADITIONS PRESERVED

Better homes, better religious and school facilities and a general improvement in health are profits reaped by Micmac Indian population of Nova Scotia mainland from inauguration several years ago of a centralization plan by the Indian Affairs Branch of the Department of Mines and Resources.

The scheme, designed to improve living standards of the Micmac population in the province, is based on establishment of two reservations, one on the mainland and one on Cape Breton Island, and discontinue the system of over 20 reservations scattered throughout Nova Scotia.

Prior to the centralization plan, each reservation was served by a part-time agent, medical care was far from what it should be, school facilities were mediocre and living standards failed to reach the highest standard possible.

Under centralization, each of the two large reservations will have a full-time agent, a resident nurse, better homes and education possibilities and in a short time, a resident doctor.

New School

At Shubenacadie, where the mainland reservation is located, many new homes, some equipped

with electricity and running water, have been erected. Influx of Micmacs continued steady and made better teaching facilities necessary and as a result a modern four-room school was erected, with space for a manual training department.

New roads were built and the land cleared, and after a saw mill had been erected, logs were sawn into lumber and shingles. At present there is no provision for a high school, but students who wish higher education will be assisted by the Indian Affairs Department.

The attendant nurse is Miss Hazel McDonald, R.N. Housed in the same building containing the agent's office and the medical room is a fully equipped community store. Here handicraft, for which Micmacs are famous, can be exchanged for every-day necessities.

Following tradition, Shubenacadie is governed by a chief, with Steve Knockwood, re-elected for the second time, at present occupying this important post. Councillors associated with him are Simon Nevens, John Francis, Charles W. Francis and Henry Sack.

Five years ago when centralization started the population at Shubenacadie was approximately 50 people. Today it numbers about 550.

Re: Domestic Science Teacher -
Shubenacadie Indian Reserve.

The Principal of the Day School, Rev. H. Boudreau, has requested that an effort be made to engage a Domestic Science Teacher for duty on the Shubenacadie Indian Reserve.

It is not necessary for me to go into detail as to why the filling of this position would be a great asset in giving our young Indian girls the proper instruction in domestic arts. You are aware of the situation here and the various problems that we are endeavouring to overcome. I would strongly recommend that this request be given favourable consideration.

Rev. Fr. Boudreau has advised me that should the Department consider an appointment in this case, application must be made for a teacher on or before May 1st, 1948.

Domestic Science Teacher,
Shubenacadie Indian Reserve.

Please find attached application form for completion by applicants for this position.

Your letter of April 23 advises that applications must be made on or before May 1, 1948. You are aware of our salary schedule as published in the School Bulletin. It is now under revision but details of the new salaries will not be available until the next issue of the Bulletin. This is being purposely held until Treasury Board advise as to their approval of the new rates which we have recommended.

As you are aware, our salary rates are based upon experience and qualifications. It is presumed from your letter that this domestic science teacher would be engaged at both the day school and the residential school.

APPLICATION FOR CLASSIFICATION ON INDIAN SCHOOL TEACHER'S SALARY SCHEDULE

I. PERSONAL QUALIFICATIONS

Name in full (please print) *Sister Mary Margaret* (Surname) *(Margaret Mary Sutherland)* (Christian Names)
Date of Birth *Sept. 5, 1908* Place of Birth *Sydney, Nova Scotia*
Sex *Female* Religious Denomination *R.C.* Health *Good*
Canadian Citizen *Yes* Service in H.M. Forces

II. PROFESSIONAL & ACADEMIC QUALIFICATIONS

I attended high school at *Sydney Academy, Sydney* in the Province of *Nova Scotia* and received a *High School* Certificate after successfully completing *4* years of high school. I then attended *Mt. St. Vincent* University for a period of *4* years and received a *B.S. and B.A.* degrees (only where applicable; give other details on back).

I attended a Teacher Training Course at *Mt. St. Vincent* Normal School in the Province of *Nova Scotia* for *16* months in the years *1931-1933*.

I hold a *Domestic Science* Class Teacher's Certificate of a *permanent* (temporary or permanent) nature in the Province of *Nova Scotia*. It is numbered *213* dated *1933* and is valid until

III. TEACHING EXPERIENCE

Dates	Name of School	Town and Province	Total Years
1. <i>1933-1941</i>	<i>St. Mary's School</i>	<i>Port. New Harbour, N.S.</i>	<i>8</i>
2.			
3. <i>1941-1948</i>	<i>St. Anne's School</i>	<i>Clare Bay, N.S.</i>	<i>7</i>
4.			
5.			

(use other side for more detail)

IV. My total teaching experience is years in Indian Schools and *16* years in Provincial Schools.

Summer Schools - In order to qualify for salary increments as shown in the schedule, I certify that I have attended the following professional summer schools conducted by Provincial Departments of Education or Canadian Universities for a duration of four weeks or more in length:

Year	Course taken	By whom course was conducted	Length of Course in weeks
1. <i>1942</i>	<i>Home Economics Report</i>	<i>Ed. Department, New Brunswick</i>	<i>4</i>
2. <i>1943</i>	<i>Methods, Nutrition, Stating</i>	<i>" " " "</i>	<i>4</i>

Shubenacadie Indian Day School.

Mr. H. C. Rice,
Superintendent, Indian Agency,
Shubenacadie, N. S.

Last year the following teachers served on the staff of this school, under the principalship of Reverend Father Boudreau:

- (1) Sister Eleanor Marie
- (2) Sister Rose Irma
- (3) Sister Joseph Therese
- (4) Sister Jean Catherine.

We have now received application forms for classification on our new salary schedule, as completed by the following Sisters:-

- (1) Sister Eleanor Marie
- (2) Sister Jean Catherine
- (3) Sister Mary Margaret
- (4) Sister Rita Daniel
- (5) Sister Alice Joseph.

Please find attached salary letters as sent to Sister Eleanor Marie and Sister Jean Catherine. The Chief Treasury Officer has been notified not to send salary cheques to Sister Joseph Therese and Sister Rose Irma.

It is presumed that they are to be replaced by Sister Rita Daniel and Sister Alice Joseph. Would you have this fact confirmed.

I have also concluded that Sister Mary Margaret is to be the domestic science teacher mentioned in your letter of April 23rd. I note that she holds a domestic science teacher's certificate. In this case I presume that she will be teaching part time at the residential school and part time at the day school. I would suggest that Dr. Pett have an opportunity of meeting Sister Mary Margaret and discussing with her some of their findings in their nutrition studies in our residential schools.

Further to previous correspondence and reference to your letter of September 14th last respecting teachers for the captionally noted Day-School

This is to confirm that Sister Joseph Therese and Sister Rose Irma are being replaced by Sister Rita Daniel and Sister Alice Joseph respectively.

Sister Mary Margaret is to be the Domestic Science teacher and arrangements are being made to teach part-time at the Indian Residential School and part-time at the Indian Day-School.

Your letter arrived too late for Dr. Pett to have an opportunity of meeting Sister Mary Margaret as he left during the early P. M. of September 17th and we received your letter this date.

It is noted that you intended to enclose salary letters as sent to Sister Eleanor Marie and Sister Jean Catherine. In error, you enclosed a copy of the same letter which was addressed to me.

Memorandum:

CHIEF TREASURY OFFICER

No: Shubenacadie Indian Residential School,
No. 265.

Effective 1 September, 1948, the following appointments, resignations and classifications have been approved at this school:

(a) MR - IAE - 265 - 3001.

Sister Eleanor Marie has been classified as Grade III teacher at a salary of \$1,860.00 an academic year with credit for a first class certificate, 7 years of experience in Indian schools and 12 years of experience in provincial schools. Non-attendance at summer sessions has prevented a higher salary rating.

(b) MR - IAE - 265 - 3002.

The Department has accepted the resignation of Sister Rose Igan and has appointed Sister Alice Joseph to replace her.

Sister Alice Joseph has been classified as a Grade III teacher at a salary of \$1,680.00 an academic year, with credit for a first class certificate and 3 years of teaching experience in State Schools.

The Department has accepted the resignation of Sister Joseph Therese and has appointed, to replace her, Sister Rita Daniel.

Sister Rita Daniel has been classified as a Grade III teacher at a salary of \$1,620.00 an academic year, with credit for a first class certificate and 2 years of experience in provincial schools.

(d) MR - IAE - 265 - 3004.

Sister Jean Catherine has been classified as a Grade III teacher at a salary of \$1,860.00 an academic year, with credit for 6 years of experience in provincial schools, and one year of experience in an Indian school.

We will advise you later concerning the classification of a domestic science teacher at this school.

Ottawa, October 27, 1948.

To: **Sister Mary Margaret,**
Address: **Shubenacadie, N.S.**
School: **Shubenacadie Indian Day School**

Your application for classification under the 1948 Revised Salary Schedule for Indian Day School Teachers has been received.

This is to inform you that after a review of your qualifications, teaching record and inspector's reports, you have been classified as an Indian **School** Teacher, Grade **IV**. Your salary for the 1948-49 academic year will be **\$126.00** a teaching month for **10** months' service.

It is noted that you will be teaching six hours per week at the Shubenacadie Residential School and twelve hours per week at the Shubenacadie Day School. Therefore, your salary has been set at eighteen thirtieths (18/30) of the amount to which you would be entitled on our salary schedule if you were teaching the full week.

You will receive further instructions concerning your duties from our Vocational Training Supervisor.

Memorandum:

CHIEF TREASURY OFFICER

Re: Shubenacadie Indian Day School, No. 265.

As indicated in our memorandum of September 24, we have appointed a domestic science teacher at this school, effective 1 September, 1948. Her appointment reads as follows:

MR - IAE - 265 - 3005

Sister Mary Margaret is entitled to classification as a Grade IV teacher at a salary of \$2,100.00 an academic year, with credit for a domestic science teacher's certificate and 16 years of experience in provincial schools. In view of the fact that she is teaching only 18 hours per academic week, her salary has been set at 18/30ths of \$2,100.00, or \$1,260.00 per academic year.

Re: Food records of day school pupils

Dear Mr. Rice:

As previously discussed, we will hold a clinic on Thursday, April 7th, on the older grades of children at the Day School on the Reserve. In addition to this medical-dental clinic, it is essential to get some idea of the food pattern of these children and this can best be done with the aid of the teachers and the nurse by the nutritionists from here who will visit at a separate time from the medical clinic.

Therefore I propose that two of our research nutritionists should visit the Day School for a period of about ten days for the purpose of obtaining a week's diet record beginning after the Easter holidays. Miss Suzanne Saint Hilaire will be in charge because she has already been at the Residential School and, I guess, has seen the Day School. She will be assisted by Miss Dorothea Tripp. They will plan to arrive on Sunday, April 24th, or Monday, the 25th and will let you know directly of any assistance required in this regard.

The chief purpose for writing you at this time is to point out the great advantage to these girls if they could live on the Reserve. Naturally, they would be glad to pay for their lodging and to fit into what accommodation was available. Would you please inquire from the teachers or from the nurse whether this can be arranged and advise me at your convenience.

Looking forward to seeing you shortly, I am,

Yours sincerely,

LBP

Memorandum:

SUPERINTENDENT OF INDIAN EDUCATION

Re: Schubencadie Indian Day School

The enrolment of this school is 124. There is quite a bit of room left for expansion which does not promise to be very rapid. There is a good Domestic Science room and a handy Manual Training shop. Mr. Brown the manual training instructor met me at the school. With the principal, the agent, Mr. Brown and myself discussed the proposed set-up. I believe Mr. Brown understands the Department's aims in manual training. Mechanical tools are not desirable for the present. Our pupils are too young yet to handle such machines. It would be advantageous, however, to have a grindstone and a variety saw to help the teacher prepare the material for instruction. A complete set of hand tools will be necessary for both the Day School and the Residential School, as neither of them have any woodworking equipment. A requisition has been submitted and after some changes will be submitted for approval.

It was interesting to note that the Day School pupils participated in the Music Festival that took place at Schubencadie and according to reports have figured advantageously.

Respectfully submitted,

A. J. Doucet,
Supervisor, Vocational Education.

Dear Sir:-

I received Oct 20th a check from the Indian Department for \$42, in payment for 21 school days. The total number of school days in the quarter are 66, which I must have omitted to state in my quarterly returns, and 45 of those are authorized holidays, being the summer vacation, as school does not actually open until Sept 2nd. The number of actual days taught are 21, as school does not open until Sept 2nd, Sept 1st being Labour Day, which is a Public Holiday.

My salary is \$400 per year, and I understood that I would receive \$100 for the first quarter. If there is

Madam, -

I beg to acknowledge the receipt of your letter of the 20th instant with reference to the amount of salary received by you as teacher of the Shubenacadie Indian Day School for the quarter ended September 30th, last.

As you are a new teacher at this school, having commenced duties after the summer holidays, payment of salary for the September quarter was allowed only for the number of days which you had school open, twenty-one. I enclose a copy of the Indian Day School Regulations, which will inform you of the method adopted by the Department in the payment of teacher's salaries. There are two hundred teaching days in the year and if you remain in the service of the Department and teach that number of days to June 30th, next, you will receive your full yearly salary, \$400.00.

Your obedient servant,

STEWART

Assistant Secretary.

Madam:

In reply to your letter of the 22nd instant, I beg to say that the cheque for your March quarter salary was sent on the 11th instant, addressed to you at Brookfield, Col. Co., N. S., which was the address of the former teacher of the Shebenacadie school. You should apply to the Postmaster at that point and he will, no doubt, forward the letter containing the cheque to you.

Your obedient servant,

J. D. Sutherland,
For Supt. of Indian Education.

Dear Sir,
I have not received cheque
for Bonus or salary for last quarter,
teaching at Indian Reserve, Shubenacadie.
The quarter previous, one cheque was
mailed to wrong address, I fear something
the same has happened again!

Respectfully yours,
Ruby Anthony.

Madam,-

In reply to your letter of the 20th instant, I beg to say that cheque No. 971, for \$125.00, in payment of your June quarter salary as teacher of the Shubenacadie Indian Day School, was sent you on the 8th instant, addressed to Kennetcook Corners, Hants County, Nova Scotia.

The method of paying the bonus to Indian day school teachers for the present fiscal year, has not yet been decided upon. As soon as a decision is made the bonus due you for the June quarter will be sent you.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

With reference to that
part of your report of the
28th ultimo which refers
to the Indians of Shub.
enacadie, ^{requesting} to have a school
established on their Reserve
I have to enquire whether
the Indians of that Reserve
will get out & flatten the
logs for the building there
the same provided the Govt
will afterwards supply
them with flooring, nails
window sashes &c &c?

Respected Sir,

Yours in Reference to the
School building for the Indians received.

My reason for not replying sooner
was that the Captain of the band was
absent and I could do nothing without
him.

I have spoken to the Chief, Captain
and one more leading man of the tribe
and they now wish to have a frame
building for a School Room.

They have agreed to put up the bare frame
if they could get it covered in and finished.
They say that as all their other buildings
are frame including a snug chapel
which they have they would also like
to have a frame School house.

In reply to your letter
of the 26th ultimo, I have to
regret that you will
inform me of what
size ^{the} proposed school
house ^{shall} be and give
an estimate of the cost
of completing the same
with full details.

I have also to enquire
whether logs could not be
obtained from the Reserve
for the walls of the pro-
posed building and the
labor of the Indians
in getting out and flattening
the same utilized.

A very neat building
might be created of logs
properly flattened &
afterwards painted which
would if the logs can be
got at the Reserve cost
much less than a
frame building

Respected Sir

In Reference to a School Building for the Indians I have say that I have asked a Builder what he thought about the matter. I asked him to make an estimate of the cost of a frame building which he gave me as follows:

A Frame Building Boarded & Shingled with 6 Windows 1 Door 1 Chimney 16 Seats 1 Desk and painted outside. The probable cost of which would be about \$275.

The Indians think they can not get out the logs so that they would be fit to paint or finish.

But they say they would get out the frame of the building which would make the frame building cost \$240.00 less and the Rail

says the frame building would cost less when finished than log one and as the Indians have very poor teams I think it would tax them too much to get out a log one and they say they would do without having it finished inside for a time.

Ten feet high in the posts
Pitched Roof
Covered in with inch boards

pine or spruce shingles
A hanging finish around

The floor of inch stuff plained

The floor built of Brick

You will notice that the
Bill I sent before did not
include underpinning the house
nor plastering inside.

It would cost Thirty
Dollars to underpin it with
stone and Fifty Dollars to
plaster it inside.

It would be plastered
from the floor to the
collar beams three feet
above the plate making
the room thirteen feet
in height.

If a lobby was taken
off the end of five feet
depth it would require
two inside doors with
their frames Casings
Mopp boards Pine Rails
Black Boards etc
Which will cost Twenty
Dollars more Making the

the total cost of the
building furnished inside
and out Three Hundred
and Thirty five Dollars

This you will see would
be a plain substantial

for the building of a school

have to remark that the
amount of the lowest tender

It is not usual to
pay more than \$200⁰⁰ for

for that sum you should

Sir I have just opened tenders for School house which I enclose herewith. As you will see the lowest is Two Hundred and Ninety Four Dollars. I have not yet awarded the Contract to the party as I wish further information on the subject.

The Indians promise to have the frame prepared in time for the Contractor. But in case they should fail to provide the frame I shall proceed to get it on a piece of Department.

As it is impossible to get good Cedar posts here, can Hemlock be used instead. Each of the parties have mentioned this matter to me and I myself know that Hemlock is frequently used in this part of the country.

The posts cannot now be sent down spring but the party getting the job can have worry they ready to go on with.

The work as upon at 14:20
Can be done
In the meantime I shall

In case he does not offer

In reply to yours No 98,002 I beg to say that I cannot find among my papers a letter from you dated July 12 1893.

With reference to building of School House you are no doubt aware that tenders were invited and contract awarded but the Indians were to provide the frame for the building and this they failed to do although urged by me to do so. The building therefore did not proceed. I feel sure that I reported this fact to you at some later date.

I am of the opinion that a school house would be a blessing to them but I also believe that it is useless to depend on the Indians to provide the frame or any part of building.

I might modify the former specification in such a way as to reduce cost of building and invite tenders again if you see fit to instruct me to do so.

I remain

With ref. to Agent Gass's letter of the 15th inst. relative to the erection of a school house at Shubenacadie I beg to report that after some correspondence in the matter Mr Gass was instructed on the 18th Decr 1892 to invite tenders for its erection according to specifications enclosed to him with that letter. He was informed at the same time that he must not exceed a sum of \$300.00 which was the amt voted for this purpose. On the 28th Novr that year he forwarded tenders & that of one Joshua Ainslie for \$294.00 was accepted & Mr Gass was so informed on the 12th Decr that year & a bond enclosed for execution by the contractor. On the 12th July 1893 Mr Gass was requested to state what had been done in the matter but no reply was recd. An application has recently been made by the Chief & other members of the Band at this place for a school house. Mr Gass was referred

Herewith Specification which I have
 prepared for the erection of School house
 at the Indian Brook reserve and which
 I think could be built for from \$300 to \$350.⁰⁰
 It is useless to depend on the Indians supplying
 the frame or any part of the material
 possibly tenders might come below the figures
 above. and I think this is a favourable time to
 call for tenders while builders have nothing on hand
 In the Specification you will notice I have used
 Hemlock Shingles for roof as they are much cheaper
 than Cedar and are found them very good for roofs in
 this section

If you propose to have it erected I would suggest
 that as soon as you have examined Specification
 you would return it to me and allow me to call
 for tenders from several of the builders here at the
 same time you might name a figure at which I
 could accept. and close with Contractor

Memorandum

14th June 1893

To Deputy Minister

The specifications submitted by Agent Gass for the proposed building at Shubenacadie are quite sufficient. A cheap building, suitable for a small country school-house is very well described.

Mr Gass states he thinks the building can be erected for \$300 to \$350 and that possibly the tenders may come below this. The building with desks complete as described would under ordinary circumstances cost \$350, but in Nova Scotia, where, I am informed, labour and materials are cheap it is quite possible that the building may be erected for \$300.

Sam Bruce

(No provision is made for a wood shed, stove & pipe and water-closets and fencing - the sum voted is not sufficient - I suppose a small sum might be placed in the ^{new} estimates for this purpose.)

Sir,

I have to request that you will employ some one to clean the Shubenacadie school thoroughly. It might be well to have the walls whitewashed and the floor well scrubbed, and you should make arrangements to have the school cleaned periodically, informing the Department upon what terms you have this work attended to. This work should be attended to at once.

On examination of the School house I have to report that the roof will need re-shingling before the wet weather sets in this autumn as it is leaking pretty badly now each rain.

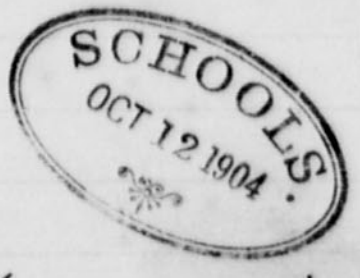

With respect to cost I am of the opinion it could be done at a cost of about Twenty Dollars. This I think would cover expense of the entire job together with cost of lime for roof and walls as also cleaning and whitewashing the School room.

I await your instruction in this matter.

Sir,-

I enclose herewith vouchers for sundry expenditures, amounting to \$6.61, incurred in reopening the Indian school at Shubenacadie, N.S.

A new flue had to be built in the school house, the old one being in a state of collapse and utterly useless, necessitating the purchase of lime, cement, and bricks. The Indians did nearly all the work, and I shall forward a voucher covering the labour bill, as soon as I get the account, which is at hand, adjusted. Some of its items require explanation.

Dear Sir -

I am in receipt of your letter of
21st inst. complaining of amount of bill for
building flue; hauling brick, sand, lime,
cement, etc.

Noel MacDonald was one day hauling
brick, about 7 miles.

Simon Bague one day hauling sand about 6 mi.
and another day getting lime and cement
and taking communication to you.

Loose Sack, two and a half days helping
to clean up school house, carrying water, and
keeping fire in stove to heat water for the
molar

I might say that the flue was small,
but it required just as much time
to get the materials as it would for a
much larger one.

My charges were for to get a mason,
as Bague did not wish to build the flue;

but I was unable to get any, so no one
wished to work in the cold. Alas, for
getting the Indians to clean the school house.
I was in reality four days, but only
charged for two, as I thought the bill
quite large enough.

Hoping this explanation is clear

I am yours truly

River Bourgeois, N.S., 21st. March, 1912.

Sir,-

I beg to acknowledge the receipt of your letter of the 16th. inst., enclosing labour bill, amounting to \$20.20, for taking down the old flue in the Indian school house at Shubenacadie and building a new one.

The expenditure incurred is a surprise to me, and, I think, excessive. At any rate, before paying the bill, the Department will certainly require an explanation as to why it was necessary to employ a man and team three days in the work of building a flue requiring only 350 bricks. Again, Thomas McDonald took down the old flue; and Simon Basque built the new one, with Henry Sack, as his assistant, carrying bricks and mortar. What was Isaac Sack doing during the 2½ days he was employed? Kindly explain.

I presume your own charge in the matter was for the time occupied in coming to Shubenacadie to communicate with me by wire, and afterwards, in purchasing materials for the flue.

Your obedient servant,

A. Boyd
Indian Superintendent.

Sir,-

I enclose herewith vouchers for the expenditure on account of labour in connection with taking down the old flue, and building a new one, in the Indian school house at Shubenacadie Reserve; also other documents, which explain themselves.

I felt, at first, that the expenditure was excessive, and wrote Mr. Grumley to that effect, asking him for an explanation, which he has sent, and which, I think, is satisfactory. I am aware that the work was done under very difficult circumstances.

Your obedient servant,

Sir,

After forwarding the voucher for advertising by The Halifax Herald, in connection with the Shubenacadie school, I discovered that its charge is about double that of other newspapers for the same service, and think it my duty to direct your attention to the fact. Perhaps a mistake was made by the Herald people in rendering their account. I am not familiar with business of that kind, but should suppose that advertising rates would be about the same all round. I notice that the accounts of The Sydney Post, and The Moncton Times, ^{herewith,} are practically the same.

Sir,—

If there ever had been an outside closet in connection with the Indian school at Shubenacadie, it had entirely disappeared before the present teacher's incumbency, and one had to be provided without delay. Therefore, I employed Simon Basque, Indian, to purchase materials and erect a suitable outbuilding for a closet, forthwith.

The Steve in the school room was broken and a new one had to be purchased; the blinds on the windows were in shreds and had to be renewed; and the other items mentioned in the enclosed voucher were necessary to put the school in proper condition. I believe there is still room for improvement.

Dear Sir:-

I write to ask you
if I could get permission
to have the school house
thoroughly fumigated. One of
the pupils, a little girl about
seven years old, has died of
consumption, and one of the
boys who went to school last
year died of the same disease.

So I think something should
be done as soon as possible.

If this could be done,
it would relieve me very much,
as it is dangerous for the
children to have to stay in such
a schoolroom.

Yours Respectfully,
Mary Shortt.

Sir,-

The teacher of the Shubenacadie school has asked to have the building fumigated and you will be good enough to authorize Dr. A. Culton of Shubenacadie to do this.

Mr. Superintendent Boyd, when in the Department a few days ago, stated that this school requires a coat of finish on the plaster, to be painted outside, a woodshed erected and new seats and blackboard and also that the teacher's residence should be improved.

You will be good enough to state the sizes of the seats and the number of each size required and also the dimensions of the blackboard.

The Department would like to have an estimate of the probable cost of finishing the plaster, painting the building outside, erecting the woodshed and making the necessary improvements to the teacher's residence.

In reply to your letter of the 5th instant enclosing a letter from the teacher in reference to some supplies she requires I beg to say that if she will submit a list of the articles she wants the matter will be dealt with.

Sir,—

When I was in Ottawa last month arrangements were made with the Department for the fumigation of the school house at Shubenacadie, Hants Co., and Mr. Benson advised me that the medical officer there would be instructed forthwith to give the matter proper attention without delay.

I was, therefore, rather surprised to receive a letter recently from Miss Shortt, the teacher, complaining that the building had not been fumigated up to that time, and wanting to know the reason. I could only give her such information as I possessed, and that may be read in the preceding paragraph.

Miss Shortt feels aggrieved that the matter has been apparently neglected; and I think it my duty now to inform the Department that there is danger of losing the services of one of the best teachers in its employ in Nova Scotia, if final action be not taken in this case at once.

Sir,—

The Indian School house at Shubenacadie is badly in need of repairs. I understand that Mr. Superintendent Boyd made certain recommendations regarding this past year but there was nothing done. I consider the following as being absolutely necessary and should be done before the school re-opens in September. The inside of the building refinished, as it is now it is very cold. The building should be shingled this has not been done since it was built 21 years ago. The building has never been painted and should be painted inside and out. A wood house is badly needed as at present the wood gets wet as there is no shelter. A closet is required in the School to keep books, papers etc. in. A new Blackboard is urgently needed also a large Globe and map of the Dominion. The seats are in a disgraceful condition and new ones will have to be provided. I would suggest having a carpenter go over the building and report just what is necessary.

Sir,-

Referring to your letter of the 19th. ultimo, I beg to say that the teacher of the Shubenacadie Indian school is quite correct in stating that the building needs shingling and painting. She might have stated also that her school room is very uncomfortable and should be improved. I made a note of these requirements when I visited the school on a tour of inspection recently.

The interior of the building was never completed, having received but one rough coat of plaster, and I would recommend that a second, or finishing coat be included in such repairs as may be decided upon. The windows also should be cased, and new seats and desks for the pupils furnished.

It is difficult to make a close estimate of the probable cost of repairs and improvements in this case, because the building may be in worse condition than outside appearances indicate, but I submit the following figures:-

6.400	10 M. Shingles,	@ 3.50,	\$35.00

will cost \$ 210 00

I find that this Building is sitting on
a wood foundation which has rotted
away and allowed the Building to settle
out of shape and broke the Plaster. I
would recommend that the building be
straightened into shape and a concrete
wall 2 ft in height 8 inches at bottom
and 6 inches at top be built under Building
also 3 Piers under Center of Building
this would do away with the necessity
of banking with rot the bottom of
Building. The Ceiling is of wood and
is full of knot holes and very much
sprunked. I would recommend that this
be covered with Beaver Board and
Painted. The Plastering runs down to

Dear Sir,—

Would you kindly
apply to the Department of
Indian Affairs, for a supply
of cheese and crackers, for
the noon day meal, of the
pupils of the Shubenacadie
Indian Day School, during
the winter months.

Also for a pail for
drinking water, one with

Sir,-

Referring to your letter of June 7th., I beg to report that I inspected the school house at Shubenacadie reserve in July, and found, as Mr. Inspector Campbell stated, that the plaster on the walls of the school room had begun to crack and shell.

Repairs are not absolutely necessary, yet I think it would be better to have the plastered walls covered with Beaver Board, as suggested, which may be done at a cost of about forty dollars. I do not advise using plaster again instead of Beaver Board, as I believe the latter to be less expensive and more lasting.

Sir,-

I have to acknowledge the receipt of your letter of the 25th instant, requesting authority to have the floors and walls of the Shubenacadie Indian Day School scrubbed and furnishing an estimate of the cost of having the work done.

In reply I beg to say that you may arrange to have the school room floor and walls scrubbed and thoroughly cleaned and the cost should not exceed your estimate of approximately \$3.00.

Properly prepared vouchers should be forwarded when this work has been completed covering the cost of the same,

Sir, -

I have to acknowledge the receipt of your letter of the 3rd instant, enclosing the report of the County Health Nurse on her inspection of the children of the Shubenacadie Indian Day School. The Nurse, in her report, states that the closet needs attention very badly; that the building is in bad shape and the sanitary conditions very poor.

I have to request that you will take the necessary action as soon as possible to have the closets put in a good state of repair and thoroughly cleaned. No undue expenditure should be incurred for this purpose. You should arrange with an Indian or other competent person to do the work. When completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

The report of the Nurse on the children who require medical treatment is receiving attention, and you will be further advised in this matter.

On June 15th, a letter was sent me from Ottawa from the Department of Indian Affairs by the Deputy General, saying he had instructed you to have your Medical Attendant visit the school & take whatever action was necessary for the benefit of the Indian children. & that he had requested you to obtain the Public School tooth brushes for those who needed them.

I wrote Miss Anthony for the list of those needing tooth brushes.

I hope the Medical Attendant has visited the children & will have done whatever he considers necessary.

I am so pleased this can be done for the children.

Thanking you for your assistance I am,

Yours very truly
Janet A. Campbell

BRIDGEWATER, N. S. Nov. 23, 1921-

Mr. D. B. Lawlor
Shubenacadie, N.S.

My dear Mr Lawlor:-

On the occasion of my visit to the Indian Reserve, near Shubenacadie, I found the water supply most unsatisfactory. The water which I saw, was very bad, Mrs King tells me, that after heavy rains, it cannot be used for drinking purposes.

Last summer the Dept. authorized the Agent for Cumberland Reserve, to have a well sunk, for the purpose of supplying good water, on this Reserve. — A similar well, with a pump, would be one way of remedying condition, on Indian Brook Reserve.

The school, also, should be supplied with a tank or some such container for water. Individual cups are also a necessity, particularly where there are suspected cases of tuberculosis.

Mrs King would be willing to see that the children brush their teeth, if they are supplied with tooth brushes.

Yours very truly

Enclosed please find a letter from Miss C. T. McDonald, R. N., in which she advises me that she has found the water supply at the Indian Reserve unsatisfactory and recommended that a well be supplied to remedy this. Also that the school be supplied with a water tank and individual drinking cups, also tooth-brushes be furnished the children.

I would say that I can procure a tank for \$6.00. Drinking mugs from 20¢ to 25¢. Tooth brushes from 35¢ to 50¢.

In reference to the water supply would say that the following families, the Glodes, Mrs. Williams, Mrs. Rube Paul, Simon Basque, Mrs. King and the school get their water from a brook or a hole dug in a swamp. In summer the swamp dries up, also the water in the brook gets very low and at such time it is not very good for drinking purposes. Again after big rains when the brook is flooded, the water is muddy and unfit for use. During the winter months this brook which is away below the level of the road makes it very difficult, on account of ice conditions, for the people to carry the water from same.

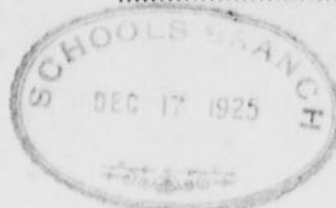

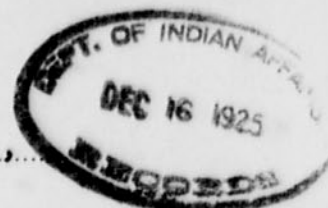

I would fully recommend that the well be dug near the school house with a pump attached to same as I think this quite necessary. I cannot give you an estimate of what this work would cost as I do not know how far one would have to sink to get the water. Just roughly, I think they would probably get water at a distance of 20 or 25 feet.

If the above request meets with your approval, kindly send me the necessary authority and I will have the articles asked for for the school procured as soon as possible and the well dug at the first convenient opportunity and think I can get Indian labor for the work.

Sir:

I have your letter of the 14th instant, enclosing a communication which you received from Miss MacDonald, travelling nurse for the Province of Nova Scotia, relative to the water supply at the Shubenacadie Indian School and Reserve, and recommending that a well be dug.

In reply I have to request that you will state whether you would advise that the work of sinking a well be carried out during the present winter or whether you would advise that it remain over until next spring. You should also state how you would propose having the work done, whether by day labour or not. You might state the cost per foot in digging the well, also the approximate cost of supplying a pump. If this well is dug, it should be located near the school building in order that the teacher and caretaker of the school could have oversight of same and see that the pump is not damaged. When we have further information from you as requested, consideration will then be given to authorizing having the work of sinking the well carried out.

You may arrange for the purchase of a covered tank for the drinking water for the use of the pupils, and also for the purchase of graniteware drinking cups for the pupils' use. Please instruct the teacher that she should take care that each pupil uses his or her own drinking cup. Please forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the tank and drinking cups.

We are forwarding to you 18 tooth brushes for the use of the children, and when you receive same you should hand them to the teacher.

Sir,

In reply to your letter # 51-1-5 in reference to well on the Indian Reservation, near the School House, I would recommend, that the work in connection be given to Mr Ezra McPhee, who is experienced in this line, on a basis of cost per foot and not by day labour. Mr McPhee agrees to dig a well with an inside wall of eight feet, supplying the necessary stone and build the concrete cover at the rate of Four Dollars (\$4.00) per foot. The concrete amounting to three bags at a cost of 100 per bag to be furnished him. The pump for the well will cost fifteen dollars (\$15.00).

If this meets with your approval, kindly send me the necessary authority and I will have this matter attended to this fall.

I have your letter of the 7th instant, giving an estimate of the cost of digging a well and installing a pump in order to provide a water supply for the Shubenacadie Indian Day School and Reserve.

In reply I beg to say that you may arrange to have this well dug at a location near the school. We note that you can arrange to have the work done at the rate of \$4 per foot, which includes the necessary stone and building of the concrete cover. The Department will also pay for the cost of the quantity of cement required and for the pump. It is hoped that it will not be necessary to go to any considerable depth to obtain a good supply of water and that the total cost will not be large. Sir:

The Public School Inspector, in a report on his recent inspection of the Shubenacadie Indian Day School, recommends that a new stove be supplied, and also that a supply of dry wood be delivered and piled in the woodshed in the summer. He states that the present stove is useless, and the wood not as good as it should be. He also states that, on the day he visited the school, the teacher was not able to keep the children warm in the schoolroom, and took them into her own dwelling, where the school work was conducted.

If you consider that a new stove is required, you may arrange for the purchase of same. You should obtain a stove of a type suitable to properly heat the building. Please obtain competitive prices, if possible, from a number of dealers, and make the purchase from the firm quoting the lowest price. Should any stove pipe be required, you may also arrange for the purchase of same. If you make this purchase, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred. While a serviceable stove should be obtained, it should be purchased as cheaply as possible.

Relative to the wood, it is noted that ten cords of hardwood were supplied in January, last, and stored in the woodshed. Please state whether you consider this quantity is sufficient to complete the present winter's requirements, and if any further supply would be required for next winter's use, and, if so, when you would recommend that the same be obtained. I shall be pleased to hear from you regarding the matter of having a sufficient quantity of dry wood on hand for the balance of this winter and for next winter's use. You should also state what action you have taken regarding the purchase of a stove.

Dear Sir,

I am taking it upon myself to write you to see if there cannot be something done in the way of putting up a shed that would do for a cow and home. March 25th

Sir:- Replying to your letter of March 1/1927 #51-1-5 in reference to the stove & wood at the Shubenacadie Indian Day School, I would say that I visited the School today and examined the stove and wood.

I find the stove in fair condition, with the exception of a surface crack in the side, which an expenditure of fifty cents for fire clay will remedy. The stove is giving satisfaction and warms the School Room on any ordinary winter day. The Pipe has never been cleaned for some considerable time and needs to be replaced with new pipe and will require 12 feet of pipe and 3 Elbows and will for staying same in safe condition.

The Wood is green hardwood of the finest quality. The Windows require five panes of 10 x 14 glass, and a small quantity of putty to match same. The Wood shed requires a strong padlock to stop pilfering of wood.

I would recommend that the above materials be obtained and a reliable man be sent out to the school to put the pipe up properly, fix the stove, put in the glass and fix the windowed door so it can be properly secured. I also examined the Teacher's Residence and find both doors destroyed or broken on the front and back doors, also the wooden platform on the front damaged and the platform at the rear destroyed and buried down over the bank at the rear of the house, also the cellar drain in bad condition, being plugged up and water in the cellar. The damaged platform and door locks were caused by the work of parties unknown on Halloween night.

I cannot give an accurate estimate of what all the materials and work for above will cost, but would estimate approximately Twenty Five Dollars would cover same.

In reference again for the wood supply for the school, I would recommend that authority be given me to purchase this wood on a basis of ten over

Sir:

I have your letter of the 25th ultimo, relative to the stove, fuel supply and repairs, etc., required at the school and teacher's residence at the Shubenacadie Indian Day School.

Relative to the stove, it is noted that at a small cost the same can be put in a satisfactory condition. The quantity of stove pipe required is also noted. You may purchase the number of lengths of pipe, elbows and wire required and have this new pipe installed, and the stove repaired. You may also purchase the number of panes of window glass of the size required and the quantity of putty necessary to install same.

You may also purchase a strong padlock, with key, and have same installed on the woodshed.

With reference to the teacher's residence, you may have locks installed on the front and rear doors, also the wooden platforms at the front and rear of the building repaired and placed in good condition. The cellar drain should be cleaned out. We note that the cost of these repairs will be approximately \$25. You should purchase the materials required in making the above repairs, and you may engage the services of a competent man to do all of the work mentioned above. When this work has been done to your satisfaction, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the materials and for the labour in having the work done. It is expected that you will keep the expense down to the lowest possible point.

With reference to the wood supply for the use of the school, you may purchase this wood on the basis of 10 cords for the year, buying part dry wood during the summer months and part green wood in the early part of next winter. You should obtain competitive prices, if possible, for the supplying of the wood, and the purchase should be made from the person quoting the lowest price. Vouchers should be forwarded in the usual manner covering the cost.

I have to advise you in reference to the Celler Drain, that the present drain is useless as far as keeping the Celler clear of water is concerned, and that it is necessary to dig a new drain.

The Backs Walls under the house are also in bad condition and eventually will tumble down.

I could have these walls pointed and repaired and they would last for a time and save the expense of putting new walls under the house at the present time.

This work including the material would cost approximately twenty dollars.

In reply I beg to say that you may engage the services of a competent man to repair these walls, and they may be given a coat of muresco. We note that you estimate the approximate cost of having this work done to be about \$25. If possible, this amount should not be exceeded.

I have also your letter of the same date regarding the repairs required to the back walls under the house. You may arrange to have these walls pointed and repaired. We note that you estimate the cost of this work, including material, to be approximately \$20.

If the above repairs would interfere with the classroom work, it might be advisable to wait until the summer holidays to have the work done. The Department will, however, leave this matter in your hands to have the repairs carried out when considered advisable by yourself.

When the above authorized work has been completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

Your obedient servant,

Sir:-

Enclosed please find vouchers in favor of D. B. Lawlor, with itemized receipted accounts attached hereto for plastering, murescoing and cleaning the Shubenacadie Indian Day School, as per your instructions. *Letter May 4/1927 #51-1-5*

In reference to same, would say that the cost of same exceeded the estimate given you from the fact that the plasterer, after quoting the price I submitted you, refused to do the work and I had to engage these men to do same.

After finishing the walls, the ceiling looked so badly in need of cleaning that I had this done and then also had the men give the school house a thorough scrubbing and cleaning, which I trust will meet with your full approval.

Sir:-

I return herewith the accounts which you submitted for repairs to the Shubenacadie Indian Day School. I have had them attached to proper voucher forms for your signature. You will note that the \$4.00 which you have charged for livery hire has been attached to a separate voucher as it is not considered chargeable to Indian Education, but is charged against Agent's Travelling Expenses.

Kindly sign the vouchers and return them to the Department for payment.

Pardon me but I wish to ask you about the picture in the Indian Book. Does the Dept. intend to sell it. If so I would like the first offer. There is nothing very valuable as everything has been in use for a number of years. Some of it has been used for about fifteen or more years. The very latest ten years the cooking stove I have used now for some time over seven years. I would be willing to pay a reasonable price for this, providing the Dept. decides to sell.

With an amount of time, some paint and other requisites I could make it do a turn. I trust you at your convenience.

Sir:

The Department has received a communication from Mrs. A. King, teacher of the Shubenacadie Indian Day School, regarding the furnishings in the teacher's residence. She desires to purchase this furniture should it not be required after the school closes at the end of the present month.

I have to request that you will furnish the Department as soon as possible with an inventory of the furniture and any supplies in the residence which are the property of this Department. You should also state whether you would recommend that these furnishings be sold and the value you place on each item. We are informing Mrs. King that the matter has been referred to you. Your early reply will oblige,

Your obedient servant,

Sir,—

I in reply to your letter of the 15th inst # 51-1-5 in reference to the furniture in the Teacher's residence, I would say that the inventory and my valuation is as follows.

1 Cook stove	500	500
5 Kitchen Chairs	50 each	250
1 Kitchen Table	200	200
2 Double Beds with Springs	500 each	1000
1 Bedroom Dresser	500	500

Dear Sir:-

As you already know, the Teachers Residence at Shubenacadie is to vacated on February 28th.

Indian Agent Mr. D.B. Lawlor of that place has recommended that Joe Howe Jr., who has recently married a widow woman, be allowed to live in this house, provided that the Department has no other plan in view.

Mr. Lawlor reports that Mr. Howe is willing to pay a small sum for the house, but I think the Department should keep the house as their property and allow Howe the use of it while he resides at Shubenacadie.

I recommend that Agent Lawlor be authorized to allow Joe Howe Jr. to dwell in this house untill further notice.

There are two children in the above mentioned family.

Sir:

I have your letter of the 25th ultimo, enclosing an inventory of the furniture in the teacher's residence at the Shubenacadie Indian Day School as submitted by Mr. Agent Lawlor.

The Department is informing Mr. Lawlor that he may arrange for the sale of these furnishings to Mrs. King, the former teacher, providing she will take the lot at the valuation placed on same by the Agent.

We are also informing Mr. Lawlor that, in view of your recommendation, Joe Howe, Jr., may occupy the residence until further notice, the house, however, to remain the property of the Department.

Ottawa, March 5, 1930.

Sir:

Mr. Inspector Maxner has forwarded the inventory which you prepared of the furniture in the teacher's residence at the Shubenacadie Indian Day School, together with the valuation placed by you thereon. As these furnishings will not be further required, the Department will approve of your arranging for their sale to Mrs. King, the former teacher, providing she will take the lot and pay for same at time of delivery to her. We note you estimate the value of the furnishings to be approximately \$28.25 and, if you consider this to be a fair price, you may dispose of same at that figure. You should forward the amount received direct to the Department for credit of the Receiver General.

Mr. Maxner recommends that Joe Howe, Jr., be permitted to occupy the teacher's house during the time he resides at Shubenacadie, and the Department will have no objection to his living in the house provided he takes proper care of same and that no damage is occasioned by himself or his family. The Department is not prepared to authorize the sale of this house at the present time.

We are informing Mr. Inspector Maxner that you have been authorized to arrange for the sale of the furniture and to permit Joe Howe to have the use of the house during the pleasure of the Department.

I have to request that you will inform the Department the number and condition of the desks that are on hand at the Shubenacadie Indian Day School. Please state whether they are double or single desks and, if possible, the name of the manufacturer. We are opening a new school on a reserve in the Province of New Brunswick, and it is thought that if any of the desks that were in use at the Shubenacadie School are serviceable they could be used in this new school. You should also state whether there is a teacher's desk and chair on hand and the condition of same. Your early reply is requested giving full information regarding the desks.

Ten (10) Desks which seat two pupils.
They were made by some local carpenter about
35 years ago. The material is Spruce and they
are now very much deformed and are nailed solidly
to the floor.

The teacher desk is in good condition size
length 42 inches width 28 inches height 30 in—
The teacher chair is just an ordinary kitchen chair

Sir:

Referring to official letter of the 16th instant relative to the proposed Indian Island Indian Day School, I have to inform you that you may arrange to have temporary desks or tables built locally for this school. This equipment should be of a type that will be satisfactory until such time as it is ascertained whether the work at this point will be a success or not. No unnecessary expense should be incurred, and, after these desks have been built and placed in the residence which is being rented for school purposes, you should forward an account, in duplicate, properly certified, covering the cost.

This Department recently closed an Indian day school at Shubenacadie, N.S., but we are informed by the local Agent, D. B. Lawlor, Windsor, N.S., that the pupils' desks are in very poor condition and are not worth shipping for use in the proposed Indian Island School. There is, however, a teacher's desk in good condition at Shubenacadie, and we are requesting Mr. Agent Lawlor to arrange to have this desk shipped to you at Richibucto, N.B., and to prepay the shipping charges. There is no teacher's chair, and you may arrange for the purchase of an inexpensive chair for the teacher's use. When the teacher's desk arrives at Richibucto, you should arrange to have it taken to the Indian Island School.

Sir:

Mr. Inspector Maxner has forwarded your letter of the 20th instant, relative to the condition of the desks that are on hand at the Shubenacadie Indian Day School. It is noted that these desks are more or less defaced and in an unserviceable condition. It is thought that they are not worth shipping to the proposed new Indian day school which is being opened in New Brunswick.

Relative to the teacher's desk, it is noted that this is in good condition, and I have to request that you will arrange to have same shipped by freight, charges prepaid, addressed to Mr. Charles Hudson, Indian Agent, Richibucto, N.B. Please prepay the freight charges, and obtain a receipt for same. This you should attach to a voucher form, in duplicate, for the amount of the freight charged prepaid by you, and send to the Department, when a refund will be made you for the cost of the freight. We are informing Mr. Agent Hudson that this teacher's desk is being shipped to him.

I have spoken to the Chief. Captain

and they now wish to have a frame
building for a School Room.

They have agreed to put up the bare frame

They say that as all their other buildings

Respected Sir

In Reference to a School Building for the Indians I have say that I have asked a Builder what he thought about the matter. I asked him to make an estimate of the cost of a frame building which he gave me as follows:

A Frame Building Boarded & Shingled with 6 Windows 1 Door 1 Chimney 16 Seats 1 Desk and painted outside the probable cost of which would be about \$275.

The Indians think they can not get out the logs so that they would be fit to paint or finish.

But they say they would get out the frame of the building which would make the frame building cost \$240 less and the Builder says the frame building would cost less when finished than

log one and as the Indians have very poor teams I think it would tax them too much to get out a log one and they say they would do without having it finished inside for a time.

N. S.

Sir,

March 24th '81

I reply to your letter
of the 16 Instant, enclosing
tenders for the school house
proposed to be built
at Indian Brook. I have to inform
you that even the lowest tender
is more than the Dept. could
undertake to pay for the school
house at Shubenacadie. The size of the
building might be reduced from
30 x 18 to 18 x 24 feet & there need
be no more than two windows
instead of three - the lobby off the
end five feet deep with two
inside doors might ^{also} be omitted,
& one door would ^{then} be sufficient
I will be good enough
to amend the specifications
accordingly & call again
for tenders to be based
thereon.

Yours
James

Sir,

In reply to your letter of the 27th ultimo enclosing tenders for the building of a school house at Shubenacadie. I have to remark that the amount of the lowest tender viz \$296⁰⁰ appears high compared with the amount paid by the Department for similar buildings elsewhere.

It is not usual to pay more than \$200⁰⁰ for such purposes and if the building cannot be erected for that sum you should endeavor to induce the Indians to make up the difference viz \$96⁰⁰ and

Sir,

Referring to previous correspondence respecting the construction of a school house at Shubenacadie, I enclose herewith Specifications which have been prepared at this Office for the erection of the building.

You may as before invite tenders from practical & responsible persons for the construction of the same, and award the tender to the one making the lowest offer, provided he will furnish security in the sum of \$300. or you will not accept any of the tenders but advise the Dept thereof. Should the offer of his offer. Should the offer however exceed \$300. or you will not accept any of the tenders but advise the Dept thereof. I also enclose a Bond

for execution by the successful competitor & his sureties, which after being executed should be returned with the Specifications (of which you should retain a copy in your Office) to this Department. All the tenders received should be forwarded to the Dept with your report.

Sir I have just opened tenders for School house which I enclose herewith. As you will see the lowest is Two Hundred and Ninety four Dollars. I have not yet awarded the contract to the party as I wish further information on the subject.

The Indians promise to have the frame prepared in time for the contractor but in case they should fail to provide the frame I shall proceed to get it on a piece of Department.

As it is impossible to get good Cedar posts here, can Hemlock be used instead. Each of the parties have mentioned this matter to me and I myself know that Hemlock is frequently used on the part of the country.

The posts cannot now be sent before spring but the party at least they can have them ready to go on with.

In reply to yours No 98,002 I beg to say that I cannot find among my papers a letter from you dated July 12 1893. With reference to building of School House you are no doubt aware that tenders were invited and Contract awarded but the Indians were to provide the frame for the building and this they failed to do, although urged by me to do so. The building therefore did not proceed. I feel sure that I reported this fact to you at some later date.

I am of the opinion that a School House would be a blessing to them. But I also believe that it is useless to depend on the Indians to provide the frame or any part of building.

I might modify the former specification in such a way as to reduce cost of building and invite tenders again if you see fit to instruct me to do so.

Herewith Specification which I have prepared for the erection of School House at the Indian Brook reserve and which I think could be built for from \$300 to \$350.⁰⁰ It is useless to depend on the Indians supplying the frame or any part of the material possibly tenders might come below the figures above. And I think this is a favourable time to call for tenders while builders have nothing on hand. In the Specification you will notice I have used Hemlock Shingles for roof as they are much cheaper than Cedar and we find them very good for roofs in this section.

If you propose to have it erected I would suggest that as soon as you have examined Specification you would return it to me and allow me to call for tenders from several of the builders here at the same time you might name a figure at which I could accept. and close with Contractors.

Memorandum

14th June 1893

To Deputy Minister

The specifications submitted by Agent Gass for the proposed building at Shubenacadie are quite sufficient. A cheap building, suitable for a small country school-house is very well described.

Mr Gass states he thinks the building can be erected for \$300 to \$350 and that possibly the tenders may come below this. The building with desks complete as described would under ordinary circumstances cost \$350, but in Nova Scotia, where, I am informed, labour and materials are cheap it is quite possible that the building may be erected for \$300.

Sam Porcup

(No provision is made for a wood shed, stove & pipe ~~and~~ water-closets and fencing - the sum voted is not sufficient - I suppose a small sum might be placed in the ^{next} estimates for this purpose.)

OTTAWA, 23rd August, 1904:-

Sir,

I have to request that you will employ some one to clean the Shubenacadie school thoroughly. It might be well to have the walls whitewashed and the floor well scrubbed, and you should make arrangements to have the school cleaned periodically, informing the Department upon what terms you have this work attended to. This work should be attended to at once.

Your obedient servant,

Secretary

On examination of the School house I have to report that the roof will need re-shingling before the wet weather sets in this autumn as it is leaking pretty badly now each rain.

With respect to cost I am of the opinion it could be done at a cost of about Twenty Dollars. This I think would cover expense of the entire job together with cost of lime for roof and walls as also cleaning and whitewashing the School room.

I await your instruction in this matter.

Sir,-

I enclose herewith vouchers for sundry expenditures, amounting to \$6.61, incurred in reopening the Indian school at Shubenacadie, N.S.

A new flue had to be built in the school house, the old one being in a state of collapse and utterly useless, necessitating the purchase of lime, cement, and bricks. The Indians did nearly all the work, and I shall forward a voucher covering the labour bill, as soon as I get the account, which is at hand, adjusted. Some of its items require explanation.

Dear Sir -

I am in receipt of your letter of
21st inst. complaining of amount of bill for
building flue; hauling brick, sand, lime,
cement, etc.

Noel Mac Donald was one day hauling
brick, about 7 miles.
Simon Bague one day hauling sand about 6 mi.
and another day getting lime and cement
and taking communication to you.
Loose Sack, two and a half days helping
to clean up school house, carrying water, and
keeping fire in stove to heat water for the
molar.

I might say that the flue was small,
but it required just as much time
to get the materials as it would for a
much larger one.

My charges were for to get a mason,
as Bague did not wish to build the flue;

but I was unable to get any, as no one
wished to work in the cold. Alas, for
getting the Indians to clean the school house.
I was in reality four days, but only
charged for two, as I thought the bill
quite large enough.

Hoping this explanation is clear

Sir,-

I beg to acknowledge the receipt of your letter of the 16th. inst., enclosing labour bill, amounting to \$20.20, for taking down the old flue in the Indian school house at Shubenacadie and building a new one.

The expenditure incurred is a surprise to me, and, I think, excessive. At any rate, before paying the bill, the Department will certainly require an explanation as to why it was necessary to employ a man and team three days in the work of building a flue requiring only 350 bricks. Again, Thomas McDonald took down the old flue; and Simon Basque built the new one, with Henry Sack, as his assistant, carrying bricks and mortar. What was Isaac Sack doing during the 2½ days he was employed? Kindly explain.

I presume your own charge in the matter was for the time occupied in coming to Shubenacadie to communicate with me by wire, and afterwards, in purchasing materials for the flue.

W. J. Boyd

I enclose herewith vouchers for the expenditure on account of labour in connection with taking down the old flue, and building a new one, in the Indian school house at Shubenacadie Reserve; also other documents, which explain themselves.

I felt, at first, that the expenditure was excessive, and wrote Mr. Grumley to that effect, asking him for an explanation, which he has sent, and which, I think, is satisfactory. I am aware that the work was done under very difficult circumstances.

After forwarding the voucher for advertising by The Halifax Herald, in connection with the Shubenacadie school, I discovered that its charge is about double that of other newspapers for the same service, and think it my duty to direct your attention to the fact. Perhaps a mistake was made by the Herald people in rendering their account. I am not familiar with business of that kind, but should suppose that advertising rates would be about the same all round. I notice that the accounts of The Sydney Post, and The Moncton Times, ^{herewith,} are practically the same.

Sir,—

The enclosed statement of account for advertising in The Halifax Herald, the last week of December, for a teacher to take charge of the Indian school at Shubenacadie, N.S., was before me on my arrival at head quarters Saturday night after an absence of two weeks on official business.

On the 20th. ultimo, I forwarded a Voucher to the Department covering the charge for that advertising. Kindly let me know if the account has been paid, as the Herald people appear to hold me personally responsible in the matter, and oblige,

Sir,—

If there ever had been an outside closet in connection with the Indian school at Shubenacadie, it had entirely disappeared before the present teacher's incumbency, and one had to be provided without delay. Therefore, I employed Simon Basque, Indian, to purchase materials and erect a suitable outbuilding for a closet, forthwith.

The stove in the school room was broken and a new one had to be purchased; the blinds on the windows were in shreds and had to be renewed; and the other items mentioned in the enclosed voucher were necessary to put the school in proper condition. I believe there is still room for improvement.

Sir,-

The teacher of the Shubenacadie School has asked to have the building fumigated and you will be good enough to authorize Dr. A. Culton of Shubenacadie to do this.

Mr. Superintendent Boyd, when in the Department a few days ago, stated that this school requires a coat of finish on the plaster, to be painted outside, a woodshed erected and new seats and blackboard and also that the teacher's residence should be improved.

You will be good enough to state the sizes of the seats and the number of each size required and also the dimensions of the blackboard.

The Department would like to have an estimate of the probable cost of finishing the plaster, painting the building outside, erecting the woodshed and making the necessary improvements to the teacher's residence.

In reply to your letter of the 5th instant enclosing a letter from the teacher in reference to some supplies she requires I beg to say that if she will submit a list of the articles she wants the matter will be dealt with.

Sir,—

When I was in Ottawa last month arrangements were made with the Department for the fumigation of the school house at Shubenacadie, Hants Co., and Mr. Benson advised me that the medical officer there would be instructed forthwith to give the matter proper attention without delay.

I was, therefore, rather surprised to receive a letter recently from Miss Shortt, the teacher, complaining that the building had not been fumigated up to that time, and wanting to know the reason. I could only give her such information as I possessed, and that may be read in the preceding paragraph.

Miss Shortt feels aggrieved that the matter has been apparently neglected; and I think it my duty now to inform the Department that there is danger of losing the services of one of the best teachers in its employ in Nova Scotia, if final action be not taken in this case at once.

Sir,—

The Indian School house at Shubenacadie is badly in need of repairs. I understand that Mr. Superintendent Boyd made certain recommendations regarding this past year but there was nothing done. I consider the following as being absolutely necessary and should be done before the school re-opens in September. The inside of the building refinished, as it is now it is very cold. The building should be shingled this has not been done since it was built 21 years ago. The building has never been painted and should be painted inside and out. A wood house is badly needed as at present the wood gets wet as there is no shelter. A closet is required in the School to keep books, papers etc. in. A new Blackboard is urgently needed also a large Globe and map of the Dominion. The seats are in a disgraceful condition and new ones will have to be provided. I would suggest having a carpenter go over the building and report just what is necessary.

Ottawa, February 19, 1916.

Sir,-

The teacher of the Shubenacadie Indian School, in her report for the year ended December 31st, last, states that the building needs shingling and painting.

Kindly state whether you consider this necessary and, if so, be good enough to submit a detailed estimate of the probable cost of having the work done.

Your obedient servant,

J. D. McLEAN

Sir,-

Referring to your letter of the 19th. ultimo, I beg to say that the teacher of the Shubenacadie Indian school is quite correct in stating that the building needs shingling and painting. She might have stated also that her school room is very uncomfortable and should be improved. I made a note of these requirements when I visited the school on a tour of inspection recently.

The interior of the building was never completed, having received but one rough coat of plaster, and I would recommend that a second, or finishing coat be included in such repairs as may be decided upon. The windows also should be cased, and new seats and desks for the pupils furnished.

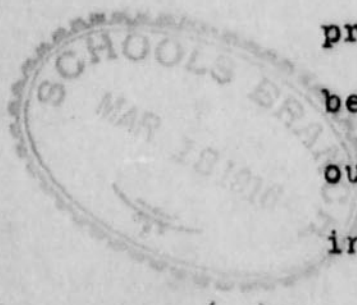

It is difficult to make a close estimate of the probable cost of repairs and improvements in this case, because the building may be in worse condition than outside appearances indicate, but I submit the following figures:-

6.500	10 M. Shingles,	@ 3.50,	\$35.00
30	60 lbs. Nails,	.05,	3.00
	Plastering 100 sq. yds. of surface,		15.00
	including cost of material,		5.00
	Removing old shingles,		12.00
	Laying new shingles,		6.00
	Casing windows, including cost of material,		5.00
	Glazing windows,	@ 3.50,	21.00
	6 seats and desks,	2.50,	15.00
	6 gns. Paint,		10.00
	Work of painting,		13.00
	Unforeseen,		\$140.00

Mr. O'Connell
MEMO.

Sir,-

Referring to your letter of June 7th., I beg to report that I inspected the school house at Shubenacadie reserve in July, and found, as Mr. Inspector Campbell stated, that the plaster on the walls of the school room had begun to crack and shell.

Repairs are not absolutely necessary, yet I think it would be better to have the plastered walls covered with Beaver Board, as suggested, which may be done at a cost of about forty dollars. I do not advise using plaster again instead of Beaver Board, as I believe the latter to be less expensive and more lasting.

Your obedient servant,

A. J. Boyd

I have to acknowledge the receipt of your letter of the 31st ultimo submitting a price covering the work that should be done to the closets at the Shubenacadie Indian Day School.

In reply I beg to say that you may take the necessary steps to have the closets placed in good repair. You should have this work done at the lowest possible price and the expenditure should not exceed your estimate of \$25.00. As soon as the work has been completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred. Kindly give this matter your prompt attention and have this work completed as soon as possible.

Sir, -

I have to acknowledge the receipt of your letter of the 3rd instant, enclosing the report of the County Health Nurse on her inspection of the children of the Shubenacadie Indian Day School. The Nurse, in her report, states that the closet needs attention very badly; that the building is in bad shape and the sanitary conditions very poor.

I have to request that you will take the necessary action as soon as possible to have the closets put in a good state of repair and thoroughly cleaned. No undue expenditure should be incurred for this purpose. You should arrange with an Indian or other competent person to do the work. When completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

The report of the Nurse on the children who require medical treatment is receiving attention, and you will be further advised in this matter.

Nov. 23, 1921

Mr. D. B. Lawlor
Shubenacadie, N.S.

My dear Mr Lawlor:-

On the occasion of my visit to the Indian Reserve, near Shubenacadie, I found the water supply most unsatisfactory. The water which I saw, was very bad, Mrs King tells me, that after heavy rains, it cannot be used for drinking purposes.

Last summer the Dept, authorized the Agent for Cambridge Bay to have a well sunk for the purpose of supplying the Reserve. — A similar well, with a pump, water, on this Reserve, would be one way of remedying condition, on Indian Brook Reserve.

The school, also, should be supplied with a tank or some such container for water. Individual cups are also a necessity, particularly where there are suspected cases of tuberculosis.

Mrs King would be willing to see that the children brush their teeth, if they are supplied with tooth brushes.

Yours very truly

Enclosed please find a letter from Miss C. T. McDonald, R. N., in which she advises me that she has found the water supply at the Indian Reserve unsatisfactory and recommended that a well be supplied to remedy this. Also that the school be supplied with a water tank and individual drinking cups, also tooth-brushes be furnished the children.

I would say that I can procure a tank for \$6.00. Drinking mugs from 20¢ to 25¢. Tooth brushes from 35¢ to 50¢.

In reference to the water supply would say that the following families, the Glodes, Mrs. Williams, Mrs. Rube Paul, Simon Baeque, Mrs. King and the school get their water from a brook or a hole dug in a swamp. In summer the swamp dries up, also the water in the brook gets very low and at such time it is not very good for drinking purposes. Again after big rains when the brook is flooded, the water is muddy and unfit for use. During the winter months this brook which is away below the level of the road makes it very difficult, on account of ice conditions, for the people to carry the water from same.

I would fully recommend that the well be dug near the school house with a pump attached to same as I think this quite necessary. I cannot give you an estimate of what this work would cost as I do not know how far one would have to sink to get the water. Just roughly, I think they would probably get water at a distance of 20 or 25 feet.

If the above request meets with your approval, kindly send me the necessary authority and I will have the articles asked for for the school procured as soon as possible and the well dug at the first convenient opportunity and think I can get Indian labor for the work.

Sir:

I have your letter of the 14th instant, enclosing a communication which you received from Miss MacDonald, travelling nurse for the Province of Nova Scotia, relative to the water supply at the Shubenacadie Indian School and Reserve, and recommending that a well be dug.

In reply I have to request that you will state whether you would advise that the work of sinking a well be carried out during the present winter or whether you would advise that it remain over until next spring. You should also state how you would propose having the work done, whether by day labour or not. You might state the cost per foot in digging the well, also the approximate cost of supplying a pump. If this well is dug, it should be located near the school building in order that the teacher and caretaker of the school could have oversight of same and see that the pump is not damaged. When we have further information from you as requested, consideration will then be given to authorizing having the work of sinking the well carried out.

You may arrange for the purchase of a covered tank for the drinking water for the use of the pupils, and also for the purchase of graniteware drinking cups for the pupils' use. Please instruct the teacher that she should take care that each pupil uses his or her own drinking cup. Please forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the tank and drinking cups.

We are forwarding to you 18 tooth brushes for the use of the children, and when you receive same you should hand them to the teacher.

In reply to your letter # 51-1-5 in reference to well on the Indian Reservation, near the School House, I would recommend, that the work in connection be given to Mr Ezra McPhee, who is experienced in this line, on a basis of cost per foot and not by day labour. Mr McPhee agrees to dig a well with an inside wall of eight feet, supplying the necessary stone and build the concrete cover at the rate of Four Dollars (\$4.00) per foot. The concrete amounting to three bags at a cost of 10⁰⁰ per bag to be furnished him. The pump for the well will cost fifteen dollars (\$15.00).

If this meets with your approval, kindly send me the necessary authority and I will have this matter attended to this fall.

Sir:

The Public School Inspector, in a report on his recent inspection of the Shubenacadie Indian Day School, recommends that a new stove be supplied, and also that a supply of dry wood be delivered and piled in the woodshed in the summer. He states that the present stove is useless, and the wood not as good as it should be. He also states that, on the day he visited the school, the teacher was not able to keep the children warm in the schoolroom, and took them into her own dwelling, where the school work was conducted.

If you consider that a new stove is required, you may arrange for the purchase of same. You should obtain a stove of a type suitable to properly heat the building. Please obtain competitive prices, if possible, from a number of dealers, and make the purchase from the firm quoting the lowest price. Should any stove pipe be required, you may also arrange for the purchase of same. If you make this purchase, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred. While a serviceable stove should be obtained, it should be purchased as cheaply as possible.

Relative to the wood, it is noted that ten cords of hardwood were supplied in January, last, and stored in the woodshed. Please state whether you consider this quantity is sufficient to complete the present winter's requirements, and if any further supply would be required for next winter's use, and, if so, when you would recommend that the same be obtained. I shall be pleased to hear from you regarding the matter of having a sufficient quantity of dry wood on hand for the balance of this winter and for next winter's use. You should also state what action you have taken regarding the purchase of a stove.

To Secretary Indian Affairs, Ottawa

Dear Sir,
I am taking it upon myself to write you to see if there cannot be something done in the way of putting up a shed that would do for a cow and horse. Ever since I came here (1923) I have been paying out for first one stable and then another only to move at the owner's pleasure. Now the last one I had rented has been sold and the owner wants the building. You may imagine how pleasant it is to go on in this way. Now I cannot afford to put up

In reply I beg to say that the Department has never provided a grant towards the erection of a stable for the accommodation of livestock which is the property of the teacher. It is, therefore, regretted that it will not be possible to accede to your request.

Shubunacadie R.S.

March 25th 1927

Sir:- Replying to your letter of March 1/1927 #51-1-5 in reference to the stove & wood at the Shubunacadie Indian Day School, I would say that I visited the School to day and examined the stove and wood.

I find the stove in fair condition, with the exception of a small crack in the side, which an expenditure of fifty cents for fire clay will remedy. The stove is giving satisfactory and warms the School Room on any ordinary winter day. The Pipe has never been cleaned for some considerable time and needs to be replaced with new pipe and will require 12 Licks of Pipe and 3 Elbows and will for staying same in safe condition.

The Wood is green hardwood of the finest quality. The Windows require five panes 20 x 14 glass, and a small quantity of putty to make same. The Wood shed requires a strong padlock to stop pilfering of wood.

I would recommend that the above materials be obtained and a reliable man be sent out to the school to put the pipe up, properly, fix the stove, put in the glass and fix the damaged door so it can be properly secured.

I also examined the Teacher's Residence and find both doors destroyed or broken on the front and back doors, also the wooden platform on the front - damaged and the platform at the rear destroyed and hurled down over the bank at the rear of the house, also the cellar drain in bad condition, being plugged up and water in the cellar. The damaged platforms and door locks were caused by the work of parties unknown on Halloween night.

I cannot give an accurate estimate of what all the materials and work for above will cost, but would estimate approximately Twenty Five Dollars would cover same.

In reference again for the wood supply for the School, I would recommend that authority be given me to purchase this wood on a basis of ten over

Sir:

I have your letter of the 25th ultimo, relative to the stove, fuel supply and repairs, etc., required at the school and teacher's residence at the Shubenacadie Indian Day School.

Relative to the stove, it is noted that at a small cost the same can be put in a satisfactory condition. The quantity of stove pipe required is also noted. You may purchase the number of lengths of pipe, elbows and wire required and have this new pipe installed, and the stove repaired. You may also purchase the number of panes of window glass of the size required and the quantity of putty necessary to install same.

You may also purchase a strong padlock, with key, and have same installed on the woodshed.

With reference to the teacher's residence, you may have locks installed on the front and rear doors, also the wooden platforms at the front and rear of the building repaired and placed in good condition. The cellar drain should be cleaned out. We note that the cost of these repairs will be approximately \$25. You should purchase the materials required in making the above repairs, and you may engage the services of a competent man to do all of the work mentioned above. When this work has been done to your satisfaction, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the materials and for the labour in having the work done. It is expected that you will keep the expense down to the lowest possible point.

With reference to the wood supply for the use of the school, you may purchase this wood on the basis of 10 cords for the year, buying part dry wood during the summer months and part green wood in the early part of next winter. You should obtain competitive prices, if possible, for the supplying of the wood, and the purchase should be made from the person quoting the lowest price. Vouchers should be forwarded in the usual manner covering the cost.

Sir:—

On my last visit to the Shubunacodie Indian Day School, I found that the Side Walls of the School House are badly in need of repairs. The Plaster is cracked and falling from the walls. I would request that a competent man be employed to repair these walls and that they be given a coat of Murex to make them clean and improve their appearance. The Approximate cost of same would be about Twenty Five Dollars.

If this meets with your approval, kindly send me the necessary authority and I will have some attended to.

Sir

R

I beg to advise you, that I have had the School House Stove repaired and the platform repaired and locks renewed on the Teachers Residence.

I have to advise you in reference to the Celler Drain, that the present drain is useless as far as keeping the Celler clear of water is concerned, and that it is necessary to dig a new drain.

The Backs Walls under the house are also in bad condition and eventually will tumble down.

I could have these walls pointed and repaired and they would last for a time and save the expense of putting New Walls under the house at the present time.

This work including the material would cost approximately Twenty dollars.

I would advise that the work be done and if same meets with your approval, kindly send me the necessary authority and I will have same attended to as promptly as possible.

Ottawa, May 4th, 1927.

Sir:

I have your letter of the 23rd ultimo, informing the Department that the side walls of the Shubenacadie Indian Day School building are badly in need of repair and that the plaster is cracked and falling from the walls. In reply I beg to say that you may engage the services of a competent man to repair these walls, and they may be given a coat of muresco. We note that you estimate the approximate cost of having this work done to be about \$25. If possible, this amount should not be exceeded.

I have also your letter of the same date regarding the repairs required to the back walls under the house. You may arrange to have these walls pointed and repaired. We note that you estimate the cost of this work, including material, to be approximately \$20.

If the above repairs would interfere with the classroom work, it might be advisable to wait until the summer holidays to have the work done. The Department will, however, leave this matter in your hands to have the repairs carried out when considered advisable by yourself.

When the above authorized work has been completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

Your obedient servant,

A. F. MacKenzie

In reference to same, would say that the cost of same exceeded the estimate given you from the fact that the plasterer, after quoting the price I submitted you, refused to do the work and I had to engage these men to do same.

After finishing the walls, the ceiling looked so badly in need of cleaning that I had this done and then also had the men give the school house a thorough scrubbing and cleaning, which I trust will meet with your full approval.

~~Dear Sir:-~~ Pardon me but I wish to ask you about the picture in the Indian Book. Does the Dept. intend to sell it. If so I would like the first offer. There is nothing very valuable as everything has been in use for a number of years. Some of it has been used for about fifteen or more years. The very latest ten years the cooking stove I have used now for some time over seven years. I would be willing to pay a reasonable price for this, providing the Dept. decide to sell.

With an amount of time, some paint and other requisites I could make it like a new one. I am from you at your convenience. Trusting to hear from you at your convenience.

Sir:

The Department has received a communication from Mrs. A. King, teacher of the Shubenacadie Indian Day School, regarding the furnishings in the teacher's residence. She desires to purchase this furniture should it not be required after the school closes at the end of the present month.

I have to request that you will furnish the Department as soon as possible with an inventory of the furniture and any supplies in the residence which are the property of this Department. You should also state whether you would recommend that these furnishings be sold and the value you place on each item. We are informing Mrs. King that the matter has been referred to you. Your early reply will oblige,

Your obedient servant,

Sir,—

I in reply to your letter of the 15th inst # 51-1-5 in reference to the furniture in the Teachers residence, I would say that the inventory and my valuation is as follows.

1 Cook Stove	500	500
5 Kitchen Chair	50 each	250
1 Kitchen Table	200	200
2 Double Beds with Springs	500 each	1000
1 Bedroom Dresser	500	500
1 Commode	300	300
1 Bucket	50	50
1 Wash Pan	25	25
		28.25

you will understand that I am endeavouring to give you only an approximate value and my valuation may be possibly high for the class of used goods. You state Mrs King is desirous of purchasing the above and want my recommendation as to whether these furnishings should be sold. I would recommend that they would and that Mrs King would have the chance to purchase them providing she will take the lot.

Dear Sir:-

As you already know, the Teachers Residence at Shubenacadie is to vacated on February 28th.

Indian Agent Mr. D.B. Lawlor of that place has recommended that Joe Howe Jr., who has recently married a widow woman, be allowed to live in this house, provided that the Department has no other plan in view.

Mr. Lawlor reports that Mr. Howe is willing to pay a small sum for the house, but I think the Department should keep the house as their property and allow Howe the use of it while he resides at Shubenacadie.

I recommend that Agent Lawlor be authorized to allow Joe Howe Jr. to dwell in this house untill further notice.

There are two children in the above mentioned family.

Sir:

Mr. Inspector Maxner has forwarded the inventory which you prepared of the furniture in the teacher's residence at the Shubenacadie Indian Day School, together with the valuation placed by you thereon. As these furnishings will not be further required, the Department will approve of your arranging for their sale to Mrs. King, the former teacher, providing she will take the lot and pay for same at time of delivery to her. We note you estimate the value of the furnishings to be approximately \$25.25 and, if you consider this to be a fair price, you may dispose of same at that figure. You should forward the amount received direct to the Department for credit of the Receiver General.

Mr. Maxner recommends that Joe Howe, Jr., be permitted to occupy the teacher's house during the time he resides at Shubenacadie, and the Department will have no objection to his living in the house provided he takes proper care of same and that no damage is occasioned by himself or his family. The Department is not prepared to authorize the sale of this house at the present time.

We are informing Mr. Inspector Maxner that you have been authorized to arrange for the sale of the furniture and to permit Joe Howe to have the use of the house during the pleasure of the Department.

Ottawa, June 27, 1930.

Sir:

Referring to official letter of the 16th instant relative to the proposed Indian Island Indian Day School, I have to inform you that you may arrange to have temporary desks or tables built locally for this school. This equipment should be of a type that will be satisfactory until such time as it is ascertained whether the work at this point will be a success or not. No unnecessary expense should be incurred, and, after these desks have been built and placed in the residence which is being rented for school purposes, you should forward an account, in duplicate, properly certified, covering the cost.

This Department recently closed an Indian day school at Shubenacadie, N.S., but we are informed by the local Agent, D. B. Lawlor, Windsor, N.S., that the pupils' desks are in very poor condition and are not worth shipping for use in the proposed Indian Island School. There is, however, a teacher's desk in good condition at Shubenacadie, and we are requesting Mr. Agent Lawlor to arrange to have this desk shipped to you at Richibucto, N.B., and to prepay the shipping charges. There is no teacher's chair, and you may arrange for the purchase of an inexpensive chair for the teacher's use. When the teacher's desk arrives at Richibucto, you should arrange to have it taken to the Indian Island School.

Sir:

Mr. Inspector Maxner has forwarded your letter of the 20th instant, relative to the condition of the desks that are on hand at the Shubenacadie Indian Day School. It is noted that these desks are more or less defaced and in an unserviceable condition. It is thought that they are not worth shipping to the proposed new Indian day school which is being opened in New Brunswick.

Relative to the teacher's desk, it is noted that this is in good condition, and I have to request that you will arrange to have same shipped by freight, charges prepaid, addressed to Mr. Charles Hudson, Indian Agent, Richibucto, N.B. Please prepay the freight charges, and obtain a receipt for same. This you should attach to a voucher form, in duplicate, for the amount of the freight charged prepaid by you, and send to the Department, when a refund will be made you for the cost of the freight. We are informing Mr. Agent Hudson that this teacher's desk is being shipped to him.

Mr. G. G. G. G.

May 5, 1933.

MEMORANDUM:

Regarding correspondence hereunder relative to repairs required to the building formerly used as a teacher's residence at the Shubenacadie Indian Day School, I have to say that, since the opening of the residential school, this building has not been required for school purposes. As it is now occupied by two Indian families, the repairs, as recommended by the Indian Agent, if carried out, should not form a charge against the Appropriation for Indian Education. It is not likely that this building will again be required as a teacher's residence, as the school has been permanently closed. Therefore, any expenditure in connection with the up-keep of the building, while occupied by Indians, should be paid from the Appropriation for Relief.

J. A. G. G.

The Secretary:

Mr. Parker

I would suggest that Mr. Parker be requested to look into this matter when he visits this Agency.

Dear Sir:

It has been decided to re-open the day school on the Shubenacadie reserve. You should, therefore, immediately notify the occupant of the school that she must vacate the building in order that you can arrange for removing the partitions and placing the building in proper condition for a classroom.

When I met you in Shubenacadie, you definitely stated that in the event of the day school being opened the Indians would do the necessary work without cost to the Department.

It will be necessary to erect two new toilets. You should therefore let me know at once what materials are required for these toilets and also what materials will be required for repairing the school.

The Department will depend on you to make this building as habitable as possible.

Arrangements will be made to purchase new desks. You will be notified when they reach Shubenacadie and you should arrange to have them taken to the reserve and placed in the school.

Please give this matter your immediate attention, in order that the school may be opened on September 5.

Yours truly,

Philip Phelan,
Chief, Training Division.
